Of Shoes and Ships and Sealing Wax Indianapolis Public Schools, Mary L. Connor, 1967 **Of Shoes- and Ships- and Sealing Wax-** Willette Caudle McGuire, 1979* "*Of Shoes- and Ships- and Sealing Wax-*" Charles W. Edwards, 1971

Of Seas and Ships and Scientists John Gould, Anthony Laughton, Howard Roe, 'Tom' Tucker, 2010-06-24 This book captures the excitement of a formative phase of UK science during and immediately following WWII. It links back to scientists working at Antarctic whaling stations and the complimentary voyages of Captain Scott's Discovery that explored the vast icy Southern Ocean funded by a tax on whale oil. In the depths of WWII a small group of young scientists were brought together under the inspirational leadership of Dr later Sir George Deacon and shortly after the end of the war the UK's first National Institute of Oceanography was formed. The discoveries from 50 years ago underpin our modern day science. The book's chapters are all written and edited by NIO scientists and convey the atmosphere of work at sea in a bygone age before small computers, satellite navigation and easy communication. The book is a useful introduction for students of marine and or environmental science. It will appeal to many scientists and the general public to those interested in science and innovation during and after WWII and of course to many living in the Surrey who always wondered what went on in the leafy lanes that were home to NIO and its successors for almost 50 years. **The Colorado Engineer**, 1929 **California: Oxcart to airplane, by R.D. Hunt** John Russell McCarthy, 1929 **Shoes and Ships and Sealing Wax** James Paul Warburg, 1932 The Oxford Handbook of the Sources of International Law Jean d'Aspremont, Samantha Besson, Séverine Knuchel, 2017-10-19 The question of the sources of international law inevitably raises some well known scholarly controversies where do the rules of international law come from And more precisely through which processes are they made how are they ascertained and where does the international legal order begin and end This is the static question of the pedigree of international legal rules and the boundaries of the international legal order Second what are the processes through which these rules are made This is the dynamic question of the making of these rules and of the exercise of public authority in international law The Oxford Handbook of the Sources of International Law is the very first comprehensive work of its kind devoted to the question of the sources of international law It provides an accessible and systematic overview of the key issues and debates around the sources of international law It also offers an authoritative theoretical guide for anyone studying or working within but also outside international law wishing to understand one of its most foundational questions This Handbook features original essays by leading international law scholars and theorists from a range of traditions nationalities and perspectives reflecting the richness and diversity of scholarship in this area **The Trident of Delta Delta Delta**, 1909 **The Spirit of Missions**, 1929 Includes the proceedings of the annual meeting of the Society
