Neo-Gothic Narratives Sarah E. Maier,Brenda Ayres,2020-03-31 Neo Gothic Narratives defines and theorises what exactly qualifies as such a text what mobilises the employment of the Gothic to speak to our own times whether nostalgia plays a role and whether there is room for humour besides the sobriety and horror in these narratives across various media What attracts us to the Gothic that makes us want to resurrect reinvent echo it Why do we let the Gothic redefine us Why do

we let it haunt us Does it speak to us through intertextuality self reflectivity metafiction immersion affect Are we reclaiming the history of women and other subalterns in the Gothic that had been denied in other forms of history Are we revisiting the trauma of English colonisation and seeking national identity Or are we simply tourists who enjoy cruising through the otherworld The essays in this volume investigate both the readerly experience of Neo Gothic narratives as well as their writerly pastiche Marking Whiteness Sonita Sarker, Jennifer Nesbit, 2025-09-01 The collection is divided into three parts to address the practices of Whiteness in modernist studies Aesthetics Intersectionality and Inter disciplinary Practice We begin with aesthetics because modernism is the aesthetic produced in dynamic relation to the cultural formations of modernity perceived rapid changes in labor transportation technology and perceptions of body mind and even character Essays in this section examine how the production of Whiteness is baked in as a positive value in assessing the value of cultural production The second section focuses on the embodiment of Whiteness primarily through the gendered and racialized female body as a deflective practice that unmarks Whiteness while making it central to cultural crises around morality national borders and futurity The third section considers the tacit prioritization of Whiteness as a positive value through institutional structures and pedagogical practice these case studies ruminate on the generative potential of isolating and marking these effects In each essay scholars examine the stakes of marking Whiteness as a category of analysis distinct from yet wholly imbricated with racial categorization given the potential for reification inherent in all strategies of marking

Still Hanging Bryant Keith Alexander, Mary E. Weems, 2021-05-25 The current socio political climate in the United States sheds a critical glaring light on the racism and white supremacy which has been part of the fabric of this country since the seventeenth century Barack Obama s tenure as president resulted in a major increase in white hate groups hate crimes and unrelenting violence against innocent Black men and women by police In response people of different races ethnicities genders sexual orientations religions ages and classes have taken to the streets in protest and increased decades long efforts to organize against racism and for a more empathetic just democratic society Social change about racism must begin with acknowledgement followed by open focused critical dialogue *Still Hanging Using Performance Texts to Deconstruct Racism* referencing both the resilience of Black people in the face of institutionalized racism and systemic oppression and the fact that Black people continue to be literally and metaphorically lynched in 2020 is designed to use the power of lived experience specific performance texts as frames for engaging faculty students and others interested in beginning to deconstruct racism and construct an anti racist way of being *Racial Battle Fatigue* Jennifer L. Martin, 2015-01-26 Covering equity issues of sex race class age sexual orientation and disability this work presents creative nontraditional narratives about performing social justice work acknowledging the contributions of previous generations describing current challenges and appealing to readers to join the struggle toward a better world Many would like to believe we are living as post racial America long past the days of discrimination and marginalization of people simply due to their race and minority status However editor Jennifer

L. Martin and a breadth of expert contributors show that prejudice and discrimination are still very much alive in the United States. Sharing personal stories of challenges, aggressions, retaliations, and finally racial battle fatigue, these activists, practitioners, and scholars explain how they have been attacked in subtle, shrouded, and sometimes outright ways simply for whom and what they advocate social justice. The stories within consist of discussions on the interconnections among equity issues: sex, race, class, age, sexual orientation, and disability. Furthermore, the work relates current events such as the banning of ethnic studies in Arizona and the shooting of Trayvon Martin to the battle for social justice. Other topics addressed include the ongoing problems of white supremacist beliefs, the challenges of teaching about the racist thinking that permeates our media and popular culture, and the harms of aggressions faced by minorities and those possessing multiple minority status. The unique narratives presented in this single volume work combine the various approaches to answering questions about not only the necessity of fighting for social justice but also the impact of the struggle on its champions.
