Offering Flowers Feeding Skulls Popular Goddess Worship In West Bengal:

Offering Flowers, Feeding Skulls June McDaniel, 2004-08-05 The Indian state of West Bengal is home to one of the world's most vibrant traditions of goddess worship. The year's biggest holidays are devoted to the goddesses Durga and Kali with lavish rituals, decorated statues, fireworks, and parades. In *Offering Flowers, Feeding Skulls*, June McDaniel provides a broad, accessibly written overview of Bengali goddess worship. McDaniel identifies three major forms of goddess worship and examines each through its myths, folklore, songs, rituals, sacred texts, and practitioners. In the folk/tribal strand, which is found in rural areas, local tribal goddesses are worshipped alongside Hindu goddesses with an emphasis on possession, healing, and animism. The tantric/yogic strand focuses on ritual, meditation, and visualization as ways of experiencing the power of the goddess directly. The devotional or bhakti strand, which is the most popular form, involves the intense love and worship of a particular form of the goddess. McDaniel traces these strands through Bengali culture and explores how they are interwoven with each other as well as with other forms of Hinduism. She also discusses how these practices have been reinterpreted in the West, where goddess worship has gained the values of sexual freedom and psychological healing but lost its emphases on devotion and asceticism. *Offering Flowers, Feeding Skulls* takes the reader inside the lives of practicing Shaktas, including holy women, hymn singers, philosophers, visionaries, gurus, ascetics, healers, musicians, and businessmen, and offers vivid descriptions of their rituals, practices, and daily lives. Drawing on years of fieldwork and extensive research, McDaniel paints a rich, expansive portrait of this fascinating religious tradition.

John Corrigan, 2008-01-02. The academic study of religion recently has turned to the investigation of emotion as a crucial aspect of religious life. Researchers have set out in several directions to explore that new terrain and have brought with them an assortment of instruments useful in charting it. This volume collects essays under four categories: religious traditions; religious life; emotional states; and historical and theoretical perspectives. In this book, scholars engaged in cutting-edge research on religion and emotion describe the ways in which emotions have played a role in Buddhism, Christianity, Judaism, Islam, and other religions. They analyze the manner in which key components of religious life—ritual, music, gender, sexuality, and material culture—represent and shape emotional performance. Some of the essays included here take a specific emotion, such as love or hatred, and observe the place of that emotion in an assortment of religious traditions and cultural settings. Other essays analyze the thinking of figures such as St. Augustine, Søren Kierkegaard, Jonathan Edwards, Emile Durkheim, and William James. This collection offers a range of critical perspectives on the academic study of religion and emotion in the form

of syntheses provocations and prospective observations that will inform the work of those already engaged in the field Taken together the writings included in this handbook serve as an ideal entry point for anyone wishing to familiarize themselves with the new academic study of religion and emotion
