The Vanishing Vision James Day, 2021-01-08 This spirited history of public television offers an insider's account of its topsy turvy forty year odyssey James Day a founder of San Francisco's KQED and a past president of New York's WNET provides a vivid and often amusing behind the screens history Day tells how a program producer desperate to locate a family willing to live with television cameras for seven months borrowed a dime and a suggestion from a blind date and telephoned the Lounds of Santa Barbara The result was the mesmerizing twelve hour documentary *An American Family* Day relates how Big Bird and his friends were created to spice up Sesame Street when test runs showed a flagging interest in the program's live action segments And he describes how Frieda Hennock the first woman appointed to the FCC overpowered the resistance of her male colleagues to lay the foundation for public television Day identifies the particular forces that have shaped public television and produced a Byzantine bureaucracy kept on a leash by an untrusting Congress with a fragmented leadership that lacks a clearly defined mission in today's multimedia environment Day calls for a bold rethinking of public television's mission advocating a system that is adequately funded independent of government and capable of countering commercial television's lowest common denominator approach with a full range of substantive programs comedy as well as culture entertainment as well as information This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1995

Television and British Cinema Hannah Andrews, 2014-05-07 Undertaking a thorough and timely investigation of the relationship between television and cinema in Britain since 1990 Hannah Andrews explores the convergence between the two forms at industrial cultural and intermedial levels and the ways in which the media have also been distinguished from one another through discourse and presentation

Quality TV Janet McCabe, Kim Akass, 2007-09-26 In his seminal book *Television's Second Golden Age* Robert Thompson described quality TV as best defined by what it is not it is not regular TV Audacious maybe but his statement renewed debate on the meaning of this highly contentious term Dealing primarily with the post 1996 era shaped by digital technologies and defined by consumer choice and brand marketing this book brings together leading scholars established journalists and experienced broadcasters working in the field of contemporary television to debate what we currently mean by quality TV They go deep into contemporary American television fictions from *The Sopranos* and *The West Wing* to *CSI* and *Lost* innovative sometimes controversial always compelling dramas which one scholar has described as now better than the movies But how do we understand the emergence of these kinds of fiction Are they genuinely new What does quality TV have to tell us about the state of today's television market And is this a new Golden Age of quality TV Original often polemic each chapter proposes new ways of thinking about and defining quality TV There is a foreword from Robert Thompson and heated dialogue between British and US television critics Also included and a great coup are interviews with *W* Snuffy Walden scored *The West Wing* among others and with David Chase *The Sopranos* creator Quality TV provides throughout groundbreaking and innovative theoretical and critical approaches to studying television and for understanding the current and future TV landscape

Power Without Responsibility James Curran, Jean Seaton, 2003-12-16 Widely regarded as the standard book on the British Media this authoritative introduction to the history sociology theory and politics of media and communications studies has been substantially revised and updated to bring it up to date with developments in the media industry Its three new chapters describe the battle for the soul of the internet the impact of the internet on society and the rise of new media in

Britain In addition it examines the recuperation of the BBC how international and European regulation is changing the British media and why Britain has the least trusted press in Europe The Dynamics of Regulation: Global Control, Local Resistance George Gantzias,2019-08-15 This title was first published in 2001 New technologies and the liberalization of the broadcasting and telecommunications market together with the digitalization and globalization of new services have challenged irrevocably not only the traditional markets and instructional structures but also the legal systems of broadcasting and telecommunication sectors in the 21st century This text takes into account changes in digital broadcasting and telecommunication by pointing out that convergence is the process through which broadcasting telecommunication press and information sectors are transformed into new sectors info com arteries info com products info com services and info com content in order to be fully compatible with the emerging new info communication industry in the digital transformation and info communication era **New Horizons in Media Psychology** Peter Winterhoff-Spurk,Tom H. A. van der Voort,2013-09-03 Technische und konomische Entwicklungen im Medienbereich setzen sich ber nationale Grenzen hinweg durch gelegentlich gilt dies auch f r Medieninhalte und formate Die europ ische Medienforschung im allgemeinen und damit auch die Medienpsychologie entwickelt sich bis heute jedoch zumeist noch im nationalen Rahmen Erste Schritte zur berwindung dieser unbefriedigenden Lage werden seit einigen Jahren von namhaften Medienpsychologen aus zahlreichen L ndern unternommen Die in diesem Band versammelten Beitr ge vermitteln dem Leser ein repr sentatives Bild von vielversprechenden Kooperationsm glichkeiten wie auch von bereits bestehenden Kooperationsabsichten und gew hren ihm zugleich einen Einblick in den interessanten wenngleich langwierigen Proze der europ ischen Integration im Bereich der Medienforschung Technical and economical developments in the media spread increasingly beyond national borders Occasionally this also applies to the contents and formats of media Yet research in general and also in the field of media psychology is done on an entirely national scale Results methods and theories of research in Europe are very often acknowledged only when they are published in American journals In the present volume well known media psychologists from several European countries discuss new perspectives and schemes for cooperation on subjects such as content analysis parasocial interaction with TV characters television and language and the impact of TV broadcasts on the audience thus preparing the ground for further integration in the research of media in Europe *Ética, Comunicación y Género. Debates actuales* Juan Carlos Suárez Villegas,2020-06-29 La investigaci n se ha concebido tradicionalmente como una diversidad de espacios estancos con los que no se establec a conexi n Ha sido objetivo de este volumen buscar entre distintas disciplinas nexos de uni n tem tica mirando con una vocaci n transversal la tica la comunicaci n y los estudios de g nero En este ambicioso volumen incluimos un conjunto de aportaciones acad micas de personas o equipos investigadores pero tambi n profesionales con una larga trayectoria y reconocimiento en la comunidad acad mica Sin embargo tambi n hemos incluido aportaciones de quienes empiezan con el prop sito de incentivar su carrera acad mica Con esta perspectiva cuatro conceptos

claves como su crítica o ausencia confluyen en este volumen la comunicativa perspectiva de género y también algunas contribuciones de corte jurídico. Se pretende abarcar con este enfoque debates y cuestiones que se retroalimentan y plantean la urgencia de rearmado de la sociedad civil la responsabilidad de los medios y alcanzar una igualdad efectiva entre todas las identidades de género. Asuntos como el clickbait fake news el poder y la economía la democracia el derecho a una información veraz las emociones la educación y el bienestar los colectivos afectados por los sistemas patriarcales han sido tratados en el presente volumen. Hemos discutido en la edición si precisamente para evitar una estructuración que de por sí contraviniese el fin transversal debíamos presentar las aportaciones aceptadas en bloques temáticamente encadenadas o por orden alfabético. Había que considerar no sólo los ejes temáticos sino también la cuestión geopolítica de origen enfoque económico idiomas género y perspectiva de género de las autoras entre otras consideraciones. Tras las diferentes pruebas decidimos presentar los dos bloques de este volumen y al menos ha sido la intención esperamos haber sido lo más coherentes posible en cada uno. Esta compilación está dirigida a quienes investigan quienes leen por placer o simplemente desean estar al tanto sobre los debates que se están desarrollando en varias instituciones universitarias y de investigación o divulgación de ámbito internacional.
