Reform Through Community:

Building Commitment to Reform through Strategic Communication Cecilia Caba ero-Verzosa, Helen R. Garcia, 2009-10-06 Strategic communication is a powerful tool for creating broad based support for reform and change initiatives Much has been written about why communication matters in reform efforts but there is scant material available to help those who manage reforms apply communication concepts and approaches to their own programs and policy reform initiatives Building Commitment to Reform through Strategic Communication attempts to bridge that gap The authors present a pragmatic and systematic approach for reformers ready to use communication strategically to achieve their reform goals The Five Communication Management Decision Tool helps reformers and their teams develop a framework for their communication strategies This decision tool helps managers see change initiatives through the eyes of those who will be affected by the reforms When the decision tool is used in the early stages of the development of change programs reformers gain an even deeper understanding of the stakeholders perspectives on the reforms which influence stakeholder opposition or support for them Such understanding will not only be instructive but possibly transformative for both change agents and those stakeholders whose support is critical to the success of reform Reform agents may recognize the source of stakeholder resistance and be able to revise reform goals and redesign change interventions Stakeholders who have a shared understanding of why the status quo is not acceptable and change is necessary are more likely to create coalitions of committed allies and supporters who will work together to achieve reform goals This workbook illustrates how the decision tool can be used for various types of change and reform initiatives from policy reform to country and donor partnership agreements to sectoral reforms Tested and used in learning interventions across cultures regions and sectors the tool has been used successfully by teams in government nongovernmental organizations the business sector and donor agencies The book will be of great interest to readers working in all of these areas *China's Development and the Construction of the Community with a Shared Future for Mankind* Linggui Wang, 2023-05-05 This book focuses on China's experience in development over the past 70 years and its significance as well as building a community with a shared future for mankind The book consists of a collection of papers contributed by researchers from many countries covering the topics of world order a community with a shared future for mankind the Belt and Road initiative exchange and mutual learning between civilizations China Model China and the World multi bilateral relationship sustainable development *Learning through Community* Kathryn Church, Nina Bascia, Eric Shragge, 2008-02-01 The Turbulence of Learning to Publish As researchers we learned about working together and collaborating across multiple dimensions of space time and our own identities We learned and we are still learning We are learning as we write and revise this book We learn as we begin to see this book through the eyes of others who have not lived through the process of discovery with us in the field We learn as we go back to work to try to figure out how our learnings can make a difference Jackson 2004 p 289 It took 10 years to create this book Of

course none of us intended to take so long Like a lot of things that appear to be individual pathology our tardiness was socially produced The first defining relation was the collegial way in which Nina Bascia Eric Shragge and I selected contributors for this volume As co editors we sought contributions from academics who had produced case studies for the Toronto based 1 research network called NALL Network for New Approaches to Lifelong Learning Accelerating Health Reforms through Collective Action Yvonne Nkrumah, Julia Mensah, 2014-10-30 This publication briefly describes the processes and methodologies for building and sustaining multistakeholder coalition to drive reforms in the health sector It is based on the experiences of three East African countries Uganda Tanzania and Kenya It outlines by chapter each country's experience in identifying mobilizing and coalescing key stakeholders to address governance bottlenecks in pharmaceutical procurement and supply chain management It highlights challenges successes as well as lessons learned to guide other countries Community-based Water Law and Water Resource Management Reform in Developing Countries Barbara C. P. Koppen, Mark Giordano, John Butterworth, 2007 The lack of sufficient access to clean water is a common problem faced by communities efforts to alleviate poverty and gender inequality and improve economic growth in developing countries While reforms have been implemented to manage water resources these have taken little notice of how people use and manage their water and have had limited effect at the ground level On the other hand regulations developed within communities are livelihood oriented and provide incentives for collective action but they can also be hierarchical enforcing power and gender inequalities This book shows how bringing together the strengths of community based laws rooted in user participation and the formalized legal systems of the public sector water management regimes will be more able to reach their goals
