Reading Families Rebecca L. Krug,2018-09-05 Rebecca Krug argues that in the later Middle Ages people defined themselves in terms of family relationships but increasingly saw their social circumstances as being connected to the written word Complex family dynamics and social configurations motivated women to engage in text based activities Although not all or even the majority of women could read and write it became natural for women to think of writing as a part of everyday life Reading Families looks at the literate practice of two individual women Margaret Paston and Margaret Beaufort and of two communities in which women were central the Norwich Lollards and the Bridgettines at Syon Abbey The book begins with Paston s letters which were written at her husband s request and ends with devotional texts that describe the spiritual daughterhood of the Bridgettine readers Scholars often assume that medieval women s participation in literate culture constituted a rejection of patriarchal authority Krug maintains however that for most women learning to engage with the written word served as a practical response to social changes and was not necessarily a revolutionary act *Wiseman Review* ,1875 *The Dublin Review* ,1875 *New Medieval Literatures* 22 Laura Ashe,Kellie Robertson,Philip Knox,Wendy Scase,2022-03-11 Annual volume showcasing the best new work in this field New Medieval Literatures is an annual of work on medieval textual cultures aiming to engage with intellectual and cultural pluralism in the Middle Ages and now Its scope is inclusive of work across the theoretical archival philological and historicist methodologies associated with medieval literary studies and embraces the range of European cultures capaciously defined Essays in this volume engage with widely varied themes from confession in the domestic household to international politics and statecraft experimental scientific knowledge and the supernatural world of demons canonical Arthurian romance and scholastic theology in the vernacular monastic historiographical visions and geographies of pilgrimage Investigations range from the twelfth to the fifteenth centuries and from England to the Holy Land Chr tien de Troyes s Le chevalier de la charrette and Geoffrey Chaucer s Friar s Tale are examined in new ways and with new conclusions for their engagements with technologies of embodiment and the hermeneutics of bodily contact La amon s Brut is shown to bring the expectations of monastic historiography into the vernacular while Reginald Pecock s radical and sophisticated vernacular theology is explicated in all its dangerous

Levine,2019-05-15 In this thoughtful and engaging book Joseph M Levine reveals how Renaissance humanists and their neoclassical progeny transformed the ways that the English practices history and viewed the past Between 1500 and 1800 many of the methods of modern historiography were first introduced into England where they developed under the influence of classical philology and the study of antiquities English scholars gradually differentiated past from present and successfully detected and recovered the ancient Roman Saxon Celtic and Norman cultures A first attempt was also made to distinguish historical fact from fiction and such legends as the Trojan origins of Britain and the Donation of Constantine were rejected Levine sets the scene for these developments with an examination of the historical outlook of William Caxton at the end of the Middle Ages he concludes with an essay on Edward Gibbon whose work three centuries later he argues summarizes the whole achievement of early modern historiography Along the way Levine investigates such topics as the transformation the antiquarian enterprise into modern archaeology the quarrel between the ancients and the moderns the Gothic revival and the influence of humanism on Francis Bacon and the new philosophy **Medieval Crime and Social Control** Barbara

Hanawalt,David Wallace,1999 Crime is a matter of interpretation and never was this truer than in the Middle Ages when societies faced with new ideas and pressures were continually forced to rethink what a crime was and what was a crime This collection undertakes a thorough exploration of shifting definitions of crime and changing attitudes toward social control in medieval Europe These essays reveal how various forces in medieval society interacted and competed in interpreting and influencing mechanisms for social control Drawing on a wide range of historical and literary sources legal treatises court cases statutes poems romances and comic tales the contributors consider topics including fear of crime rape and violence against women revenge and condemnations of crime learned dispute about crime and social control and legal and political struggles over hunting rights Self-Commentary in Early Modern European Literature, 1400-1700 Francesco

Venturi,2019-05-15 This volume investigates the various ways in which writers comment on present and defend their own works and at the same time themselves across early modern Europe A multiplicity of self commenting modes ranging from annotations to explicatory prose to prefaces to separate critical texts and exemplifying a variety of literary genres are subjected to analysis Self commentaries are more than just an external apparatus they direct and control reception of the primary text thus affecting notions of authorship and readership With the writer understood as a potentially very influential and often tendentious interpreter of their own work the essays in this collection offer new perspectives on pre modern and

Criminal-Inquisitorial Trials in English Church Trials Henry Ansgar Kelly, 2023-09-22 After inquisitorial procedure was introduced at the Fourth Lateran Council in Rome in 1215 the same year as England's first Magna Carta virtually all court trials initiated by bishops and their subordinates were inquisitions That meant that accusers were no longer needed Rather the judges themselves leveled charges against persons when they were publicly suspected of specific offenses like fornication or witchcraft or simony Secret crimes were off limits including sins of thought like holding a heretical belief Defendants were allowed full defenses if they denied charges These canonical rules were systematically violated by heresy inquisitors in France and elsewhere especially by forcing self incrimination But in England due process was generally honored and the rights of defendants preserved though with notable exceptions In this book Henry Ansgar Kelly a noted forensic historian describes the reception and application of inquisition in England from the thirteenth century onwards and analyzes all levels of trial proceedings both minor and major from accusations of sexual offenses and cheating on tithes to matters of religious dissent He covers the trials of the Knights Templar early in the fourteenth century and the prosecutions of followers of John Wyclif at the end of the century He details how the alleged crimes of criminous clerics were handled and demonstrates that the judicial actions concerning Henry VIII's marriages were inquisitions in which the king himself and his queens were defendants Trials of Alice Kyteler Margery Kempe Eleanor Cobham and Anne Askew are explained as are the unjust trials condemning Bishop Reginald Pecock of error and heresy 1457-59 and Richard Hunne for defending English Bibles 1514 He deals with the trials of Lutheran dissidents at the time of Thomas More's chancellorship and trials of bishops under Edward VI and Queen Mary including those against

Stephen Gardiner and Thomas Cranmer Under Queen Elizabeth Kelly shows there was a return to the letter of papal canon law which was not true of the papal curia In his conclusion he responds to the strictures of Sir John Baker against inquisitorial procedure and argues that it compares favorably to the common law trial by jury **Medicine, Religion and Gender in Medieval Culture** Naoë Kukita Yoshikawa,2015 An exploration of the relations between medical and religious discourse and practice in medieval culture focussing on how they are affected by gender **Middle English** Paul Strohm,2007-04-19 These original essays mean to provoke rather than reassure to challenge rather than codify Instead of summarizing existing knowledge after the fashion of the now ubiquitous literary companions these essays aim at opening fresh discussion instead of emphasizing settled consensus they direct their readers to areas of enlivened and unresolved debate Although major authors such as Chaucer and Langland are richly represented many little known and neglected texts are considered as well Analysis is devoted not only to self sufficient works but to the general conditions of textual production and reception Contributors to this collection include some recognized and admired names but also a good many newer faces younger scholars whose groundbreaking research is just coming into full view and whose perspectives will influence the terms of literary discussion in the decades to come Encouraged to speculate they have addressed topics that unsettle previous categories of investigation Each is oriented toward the emergent the unfinalized the yet to be done Each essay stirs new questions and concludes with suggestions for further reading and investigation that will allow readers to extend their own research into the questions it has raised *The Mirroure of the Worlde* Robert R. Raymo,Ruth E. Sternglantz,Elaine E. Whitaker,2003-12-15 The allegories of the virtues and vices were a common teaching tool in the Middle Ages for both religious and lay audiences to learn the basic tenets of the Christian faith The Mirroure of the Worlde makes available for the first time the unique text in the fifteenth century British manuscript MS Bodley 283 which is among the last and largest works in the tradition of lay religious instruction mandated by the Fourth Lateran Council The Mirroure is derived from confections of the Miroir du Monde and the Somme le Roi both vernacular treatises on vices and virtues compiled in Northeast France in the thirteenth century Translated into Middle English by it is believed Stephen Scrope the foremost English translator of the mid fifteenth century this edition is one of the only books of virtues and vices that contains Latin text an inclusion that points towards a more widespread knowledge of the language among the laypeople than previously thought Complete with explanatory notes and a glossary The Mirroure of the Worlde widens the understanding of medieval moral instruction religion reading practices and education **Specimens of English Literature from the 'Ploughmans Erede' to the 'Shepheardes Calender,' A. D. 1394-A. D. 1579** Walter William Skeat,1887
