## **Regional Integration In Early Modern Scandinavia:**

*Regional Integration in Early Modern Scandinavia* Finn-Einar Eliassen, Jørgen Mikkelsen, Bjørn Poulsen, 2001 In the Nordic countries regions and regionalism have played a central role in politics administration economic and cultural life for a long time The differences in voting behavior language religious views social structure and attitudes between districts regions and provinces within each country are often striking In addition to these internal regions there are also greater transnational regions cutting across state and national boundaries and incorporating parts of several present day states The editors of this book have brought together a number of the most active and experienced practitioners in this field inviting them to present some of the most interesting results from their own research and readings in regional history in a form accessible also to a non Nordic readership *The Cambridge History of Scandinavia: Volume 2, 1520-1870* E. I. Kouri, Jens E. Olesen, 2016-03-24 Volume 2 of *The Cambridge History of Scandinavia* provides a comprehensive and authoritative account of the Scandinavian countries from the close of the Middle Ages through to the formation of the nation states in the mid nineteenth century Beginning in 1520 the opening chapters of the volume discuss the reformation of the Nordic states and the enormous impact this had on the social structures cultural identities and traditions of individual countries With contributions from 38 leading historians the book charts the major developments that unfolded within this crucial period of Scandinavian history Chapters address topics such as material growth and the centralisation of power in the sixteenth and seventeenth centuries as well as the evolution of trade foreign policy and client states in the eighteenth century Volume 2 concludes by discussing the new economic and social orders of the nineteenth century in connection with the emergence of the nation states *Performing Nordic Heritage* Lizette Gradén, 2016-05-13 The performance of heritage takes place in prestigious institutions such as museums and archives in officially sanctioned spaces such as jubilees and public monuments but also in more mundane ephemeral and banal cultural practices such as naming of phenomena viewing exhibitions or walking in the countryside This volume examines the performance of Nordic heritage and the shaping of the very idea of Norden in diverse contexts in North America the Baltic and the Nordic countries and examines the importance of these places as sites for creating and preserving cultural heritage Offering rich perspectives on a part of Europe which has not been the centre of discussion in the Anglophone world this volume will be of value to a wide readership including cultural historians museum practitioners policy makers and scholars of heritage ethnology and folkloristics *The Scandinavian Early Modern World* Jonas Monié Nordin, 2020-05-14 *The Scandinavian Early Modern World* explores the early modern colonialism globalization and modernity in Scandinavia along with its colonies and its role in the shaping of the modern world Scandinavians played an active role in early modern globalization and were present as traders as colonialists and as consumers in competition and collaboration with indigenous agents and other colonial actors in America Africa and India This story is rarely told The joint study of history historical landscape and material culture from a Scandinavian vantage point

provides for a comprehensive and original interpretation of the birth of globalization and modernity New perspectives and data are presented deepening and challenging our knowledge of the long seventeenth century In depth analysis of case studies encompassing four continents and their material entanglement makes this book a unique contribution to historical archaeology The Scandinavian Early Modern World aims at students and scholars of anthropology archaeology and history alike taking interest in the global connections of the long seventeenth century and the role of Scandinavia in that process

*Denmark, 1513-1660* Paul Douglas Lockhart, 2007-08-23 One of the largest states in Europe and the greatest of the Protestant powers Denmark in the sixteenth and seventeenth centuries was at the height of its influence Embracing Norway Iceland portions of southern Sweden and northern Germany the Danish monarchy dominated the vital Baltic trade However its geopolitical importance far exceeded its modest resources Paul Douglas Lockhart examines the short and perhaps unlikely career of Denmark as the major power of northern Europe exploring its rise to the forefront of European affairs and its subsequent decline in fortunes following its disastrous involvement in the Thirty Years War Using the latest research from Danish and other Scandinavian scholars Lockhart focuses on key issues from the dynamic role of the Oldenburg monarchy in bringing about Denmark s European integration to the impact of the Protestant Reformation on Danish culture The multi national character of the Danish monarchy is explored in depth in particular how the Oldenburg kings of Denmark sought to establish their authority over their sizable and oftentimes contentious Norwegian Icelandic and German minorities Denmark s participation in international politics and commerce is also investigated along with the power struggle between Denmark and its rival Sweden over Baltic dominion and the Danes unique approach to internal governance

*Northern Atlantic Islands and the Sea* Andrew Jennings, Silke Reeploeg, Angela Watt, 2017-05-11 Iceland the Faroe Islands Orkney Shetland and to some extent the Hebrides share both a Nordic cultural and linguistic heritage and the experience of being surrounded by the ever present North Atlantic Ocean This has been a constant in the islanders history forging their unique way of life influencing their customs and traditions and has been instrumental in moulding their

identities This volume is an exploration of a rich intimate and at times terrifying relationship It is the result of an international conference held in April 2014 when scholars from across the North Atlantic rim congregated in Lerwick Shetland to discuss maritime traditions islands in Old Norse literature insular archaeology folklore and traditional belief The chapters reflect the varied origins of the contributors Icelanders are well represented as are scholars based in Orkney and Shetland indicating the strength of scholarship in these seemingly isolated archipelagos Peripheral they may be to the UK but they lie at the heart of the North Atlantic at the intersection of British and Nordic cultures This book will be of interest to scholars of a wide range of disciplines such as those involved in island studies cultural studies Old Norse literature Icelandic studies maritime heritage oceanography linguistics folklore British studies ethnology and archaeology Similarly it will also appeal to researchers from a wide geographical area particularly the UK and Scandinavia and indeed anywhere where there is an interest in the study of islands or the North Atlantic *Cities and Economy in Europe* Katalin Szende,Erika

**Military Revolution and the Thirty Years War 1618-1648** Olli Bäckström, 2023-11-08 Military Revolution and the Thirty Years War 1618 1648 investigates change and decline in military institutions during a period of protracted and destructive European warfare Conceptual background is provided by the Military Revolution thesis which argues that changes in military technology and tactics drove revolutionary transformation in the way states organised and waged war in the early modern era This transformation of military institutions became evident during the long and destructive Thirty Years War in 1618 1648 The outcome of the Military Revolution was the centralised fiscal military state that possessed a strong claim to the monopoly of violence within its territorial boundaries The book examines how the Thirty Years War accelerated and even initiated transformation in four military institutions that defined land warfare feudal cavalry services militias regular armies and war commissariats The regional scope of the investigation covers the Holy Roman Empire France Spain Portugal Sweden Denmark and the Dutch Republic The book combines military

historical inquiry with ancillary sciences of sociology and economics It argues that the Military Revolution of the Thirty Years War stimulated institutions capable of increased complexification and specialisation while curtailing those that were locked in stasis and immutability The institutional legacy of the Thirty Years War was the emergence of complex military organisations that are characteristic to the modern society and its self renewing social subsystems Previous scholarship on the Military Revolution has concentrated on military technicalities and the wider process of early modern state formation This book proposes an alternative way of viewing early modern military transformations from the perspectives of institutions and systems System analytical survey of change and decline in the military institutions of the Thirty Years War introduces qualifications to the Military Revolution theory and offers a novel way of conceptualising early modern military history

*Early Modern European Diplomacy* Dorothee Goetze, Lena Oetzel, 2023-12-31 New Diplomatic History has turned into one of the most dynamic and innovative areas of research especially with regard to early modern history It has shown that diplomacy was not as homogenous as previously thought On the contrary it was shaped by a multitude of actors practices and places The handbook aims to characterise these different manifestations of diplomacy and to contextualise them within ongoing scientific debates It brings together scholars from different disciplines and historiographical traditions The handbook deliberately focuses on European diplomacy although non-European areas are taken into account for future research in order to limit the framework and ensure precise definitions of diplomacy and its manifestations This must be the prerequisite for potential future global historical perspectives including both the non-European and the European world
