Neighbourhoods in Transition Emmanuel Rey, Martine Laprise, Sophie Lufkin, 2021-09-25
This open access book is focused on the intersection between urban brownfields and the sustainability transitions of metropolitan areas cities and neighbourhoods It provides both a theoretical and practical approach to the topic offering a thorough introduction to urban brownfields and regeneration projects as well as an operational monitoring tool Neighbourhoods in Transition begins with an overview of historic urban development and strategic areas in the hearts of towns to be developed It then defines several key issues related to the topic including urban brownfields regeneration projects and sustainability issues related to neighbourhood development The second part of this book is focused on support tools explaining the challenges faced the steps involved in a regeneration process and offering an operational monitoring tool It applies the unique tool to case studies in three selected neighbourhoods and the outcomes of one case study are also presented and discussed highlighting its benefits The audience for this book will be both professional and academic It will support researchers as an up to date reference book on urban brownfield regeneration projects and also the work of architects urban designers urban planners and engineers involved in sustainability transitions of the built environment

Reichen & Robert, 2003 *Future Park* Amalie Wright, 2013-09-19
The first public parks were created on urban greenfields Once these designated sites had been used cities looked towards post industrial sites and built parks in places that had suffered from environmental degradation neglect abandonment and conflict With finite stocks of urban post industrial land now also approaching exhaustion more ways of making parks are required to create inclusive accessible and resilient urban places Future Park invites Australian built environment professionals and policymakers to consider the future of parks in our cities Including spectacular images of public spaces throughout the world the book describes the economic social and environmental benefits of urban parks and then outlines the threats and challenges facing cities and communities in an age when more than half the world's population are urban dwellers Future Park introduces the need to embrace new public park thinking to ensure that benefits continue to be realised Future Park illustrates imaginative and resourceful responses to real challenges by highlighting recent proposals and projects These projects coalesce around four broad themes linkages obsolescences co locations and installations responding to contemporary urban paradoxes and ensuring parks continue to play a vital role in the lives of our cities
