Stalin in Russian Satire, 1917-1991 Karen L. Ryan, 2009-11-24 During Stalin s lifetime the crimes of his regime were literally unspeakable More than fifty years after his death Russia is still coming to terms with Stalinism and the people s own role in the abuses of the era During the decades of official silence that preceded the advent of glasnost Russian writers raised troubling questions about guilt responsibility and the possibility of absolution Through the subtle vehicle of satire they explored the roots and legacy of Stalinism in forms ranging from humorous mockery to vitriolic diatribe Examining works from the 1917 Revolution to the fall of the Soviet Union in 1991 Karen L Ryan reveals how satirical treatments of Stalin often emphasize his otherness distancing him from Russian culture Some satirists portray Stalin as a madman Others show him as feminized animal like monstrous or diabolical Stalin has also appeared as the unquiet dead a spirit that keeps returning to haunt the collective memory of the nation While many writers seem anxious to exorcise Stalin from the body politic for others he illuminates the self in disturbing ways To what degree Stalin was and is in us is a central question of all these works Although less visible than public trials policy shifts or statements of apology Russian satire has subtly yet insistently participated in the protracted process of de Stalinization

Reigns of Terror M. Patricia Marchak, 2003 She argues that while these variables may be contributing factors states move toward human rights crimes because their governments can no longer sustain a particular social hierarchy Reasons for their paralysis may be economic environmental demographic or purely political In an attempt to re establish the former status quo they turn against groups low on the hierarchical scale some of which may be defined in ethnic terms If governments come into power as revolutionary forces they may commit such crimes in order to establish a new social hierarchy Other necessary but insufficient conditions for state crimes include the military capacity for committing mass murder the creation of ideology that justifies such action and the failure of independent institutions such as the mass media and universities to counter ideological and military forces
