Distant Mental Influence William Braud, 2003-12-01

Professionals in modern psychology behavioral medicine and psychoneuroimmunology are exploring ways in which we can mentally influence our own bodies through hypnosis imagery visualization attention intention and other forms of self regulation for fostering physical and psychological health and well being Is it possible for us to use such techniques to influence others even at a distance for purposes of healing Is it possible for us to influence the images thoughts behaviors and physiological reactions of other persons separated by distance without conventional sensory means of interaction Can these abilities extend to animals and even to cells e g human red blood cells Might these abilities be involved in the efficacy of distant mental or spiritual healing and intercessory prayer Might these influences even extend to events distant in time even backwards in time Do these influences have major implications for our scientific theories our human identity the interconnections between ourselves and nature and our relationships with others Careful laboratory work described in detail in this book suggests that the answer to all these questions is a resounding Yes A personal introduction and 12 detailed chapters describe the evidence that support these important claims The book also describes the factors that make such distant mental influences more or less likely so that anyone might use these distant influence skills more effectively and consistently for their own benefit and for the benefit of others Reiki Plus Natural Healing David G. Jarrell, 1984-09 A thorough text providing instruction in the techniques and spiritual philosophy of Reiki it offers an explanation for the secrets of some of history s great healers such as Jesus It has been useful to students and teachers of all the branches of Reiki

Parapsychology Caroline Watt, 2017-07-05 Many people believe that they have experienced paranormal phenomena and others claim to possess psychic abilities For the past hundred years or so researchers have undertaken systematic and scientific work into these alleged experiences and abilities This collection of articles provides readers with a general sense of the methods used in this research the findings that have been obtained and the controversies generated by this work They cover a wide range of issues including the psychology of paranormal belief investigations into ghosts and hauntings laboratory research into extra sensory perception and psychokinesis and controlled tests of psychics and mediums An introductory essay sets each of the selected papers in context and provides additional references for those wishing to delve deeper into the issues surrounding each of the areas covered **Reiki** Walter Lubeck, 2003-03 FOR SALE IN SOUTH ASIA ONLY

Good Clean Food Samuel Epstein, Beth Leibson, 2013-06-01 Did you know that American milk and meat are banned in Europe because of the health risks they pose Or that one in three items on supermarket shelves contains genetically modified ingredients How about that forty pesticides in use today have been linked to certain types of cancer Between GMOs hormones and pesticides it sometimes feels like our food has become so artificial that shopping smart is impossible How can we know for sure that the food we buy isn t putting us at risk If you ve got questions this practical

positive guide has answers In it leading public health advocate Samuel Epstein MD and coauthor Beth Leibson provide all of the information you need to make the best food choices for you and your family in language you don t need a PhD in biology to understand You ll learn how to choose wisely when shopping for Beef Chicken Milk and dairy Eggs Soy Corn Snack foods Potatoes Lettuce Strawberries Grapes Baby food And much more Before your next trip to the supermarket make sure you read this helpful handbook and you ll be on your way to a lifetime of good clean food *Parapsychology* Etzel Cardeña, John Palmer, David Marcusson-Clavertz, 2015-07-25 Many people have experienced such unusual phenomena as dreams that later seem to correspond with unforeseeable events thinking of a long lost friend just before he or she unexpectedly calls or the ability to feel the presence of deceased loved ones What many do not realize is that these types of experiences have been researched for more than a century by eminent scientists including Nobel laureates Most of these researchers have concluded that some of these phenomena do occur although we are far from explaining them to everyone s satisfaction This book is the first in almost 40 years to provide a comprehensive scientific overview of research in the field of parapsychology explaining what we know and don t know about so called psi phenomena such as telepathy precognition or psychokinesis Contributors evaluate the evidence for these phenomena accounting for factors such as selective memory wish fulfillment and incorrect methods or analyses in some cases offering psychological physical and biological theories Instructors considering this book for use in a course may request an examination copy here *The Star Gate Archives* Edwin C. Freeman, 2008-06-09. Providing a comprehensive overview, this text includes practical, clinically relevant coverage of complementary and alternative medicine, with commentary by well-known experts, descriptions of recent medical advances, case studies, and the history and philosophy of each discipline, along with indications, contraindications, practical application, and clinical trials for each topic. Research is critically reviewed, with examples of exceptional and flawed studies. You'll gain an understanding of the most commonly used alternative therapies, as well as those most likely to be integrated with conventional medical treatment. More than 200 photographs and illustrations, and 15 new line drawings, clarify the material and make learning easier. A highly readable style simplifies complex concepts and keeps the material interesting. Current research-based information explores the efficacy of many therapies, so you can make decisions with confidence. Healing methods are emphasized rather than systems. A topical organization lets you use what you need for your own practice without having to read through extraneous detail. Chapter openers show why the content of the chapter is important, what is covered, and what objectives will be met. Features include: Why Read this Chapter, Chapter at a Glance, Chapter Objectives, An Expert Speaks, boxes highlight the personal experience of well-known researchers and practitioners in each discipline, discussing the historical context of research, current contributions, and future directions.
