Reinterpreting The Unspeakable Human Sexuality 2000:

A First Person History of Pediatric Psychoendocrinology John Money, 2002-10-31 John Money's career constitutes the foundation of pediatric psychoendocrinology. In this book he takes a second look at his publications on many different psychoendocrine syndromes: intersexual or hermaphroditic with respect to sex, gender, amative orientation and the love map. His own designation from an individual's experience of sexuality. His ultimate conclusion is that from prenatal life onward demasculization of development is not synonymous with feminization nor is defeminization synonymous with masculinization. This volume will serve to illuminate the evolution of Dr Money's work and point the way to future investigations in this field.

Understanding Asexuality Anthony F. Bogaert, 2015-03-06 Asexuality can be defined as an enduring lack of sexual attraction. Thus asexual individuals do not find and perhaps never have others sexually appealing. Some consider asexuality as a fourth category of sexual orientation distinct from heterosexuality, homosexuality or bisexuality. However, there is also recent evidence that the label asexual may be used in a broader way than merely as a lack of sexual attraction. People who say they have sexual attraction to others but indicate little or no desire for sexual activity are also self-identifying as asexual. Distinct from celibacy which refers to sexual abstinence by choice where sexual attraction and desire may still be present, asexuality is experienced by those having a lack of sexual attraction or a lack of sexual desire. More and more those who identify as asexual are coming out, joining up and forging a common identity. The time is right for a better understanding of this sexual orientation, written by an expert in the field who has conducted studies on asexuality and who has provided important contributions to understanding asexuality. This timely resource will be one of the first books written on the topic for general readers and the first to look at the historical, biological and social aspects of asexuality. It includes firsthand accounts throughout from people who identify as asexual. The study of asexuality as it contrasts so clearly with sexuality also holds up a lens and reveals clues to the mystery of sexuality.

Measuring Health-Related Quality of Life in Children and Adolescents Dennis Drotar, 2014-06-03 This volume's purpose is to describe concepts and methods concerning assessment of health-related quality of life (HRQOL) in children and adolescents with a special focus on chronic health conditions. The impetus for this book came from a recognition of the increasing importance of HRQOL assessments in the evaluation of treatment outcomes and the need to increase the utilization of HRQOL assessments in research and clinical applications with a range of pediatric populations. The need to develop a volume that describes new research and clinical applications concerning this topic stemmed from several recent developments. There is a continuing need for evaluations of the efficacy of medical treatments for children and adolescents including those with chronic health conditions. To address these critical unmet needs in the field of HRQOL assessment and to advance scientific methods and clinical applications in this field, a conference was held at Case Western Reserve University. The conference set out to summarize current information concerning the development and implementation of measures of HRQOL assessment to identify and consider key

conceptual and methodological issues in research concerning the measurement of HRQOL and to recommend priorities to advance the state of the art in research and clinical applications of QOL assessment in children and adolescents with chronic health conditions This volume summarizes and synthesizes the information that was presented by the conference participants in a series of lively discussions and chapters that were based on the presentations *Discursive Intersexions* Michaela Koch, 2017-06-15 Life narratives and fiction that represent experiences of hermaphroditism and intersex are at the core of Michaela Koch's study The analyzed texts from the 19th to the early 21st century are embedded within and contrasted with contemporary debates in medicine psychology or activism to reveal the processes of negotiation about the meaning of hermaphroditism and intersex This cultural studies informed work challenges both strictly essentialist and constructivist notions It argues for a differentiated perspective on intersex and hermaphrodite experiences as historically contingent fully embodied and nevertheless discursive subject positions **Current Concepts in Transgender Identity** Dallas Denny, 2013-05-13 First published in 1998 This meaningful study looks at the transsexual experience from the point of view of those that are living experts those that live transsexualism or cross dressing and have been directly affected **Pediatric Gender Assignment** Stephen A. Zderic, Douglas A. Canning, Michael C. Carr, Howard McC. Snyder III, 2012-12-06 This book represents the proceedings from a conference that took place in Dallas in the spring of 1999 which was entitled Pediatric Gender Assignment A Critical Reappraisal Some participants rightfully argued that the conference really focused on the issue of pediatric gender assignment and that reassignment was not applied in most cases Their comments were reflected in the title of this monograph This multidisciplinary meeting was sponsored by a conference grant from the National Institutes of Health and a broad inquiry into this complex topic took place from many points of view Basic scientists offered insight into mechanisms of sexual differentiation of the gonads physical phenotype and imprinting of the central nervous system Endocrinologists reviewed their experience in diagnosis and management surgeons described traditional as well as innovative approaches and there was strong representation from the ethical and behavioral sciences In putting together such a panel it was essential that we identify a cast of speakers who could address their viewpoints with strong convictions and yet not let their passions render the meeting counter productive We were not disappointed While many differing points of view were firmly expressed by the panelists and audience all viewpoints were accorded the respect they deserved The concept behind the meeting and this book really originated in 1997 shortly after Diamond and Sigmundson published their long term follow up study of the John Joan case *Group Work with Populations at Risk* Geoffrey L.
