The Reinventing Government Workbook David Osborne, Victor Colon Rivera, 1999-08-11 A revolution is stirring in America People are angry at governments that spend more but deliver less frustrated with bureaucracies that give them no control and tired of politicians who raise taxes and cut services but fail to solve the problems we face Reinventing Government is both a call to arms in the revolt against bureaucratic malaise and a guide to those who want to build something better It shows that there is a third way that the options are not simply liberal or conservative but that our systems of governance can be fundamentally reframed that a caring government can still function as efficiently and productively as the best run businesses Authors Osborne and Gaebler describe school districts that have used choice empowerment and competition to quadruple their students performance sanitation departments that have cut their costs in half and now beat the private sector in head to head competition military commands that have slashed red tape decentralized authority and doubled the effectiveness of their troops They describe a fundamental reinvention of government already underway in part beneath the bright lights of Capitol Hill but more often in the states and cities and school districts of America where the real work of government goes on From Phoenix to St Paul Washington D C to Washington state entrepreneurial public managers have discarded budget systems that encourage managers to waste money scrapped civil service systems developed for the nineteenth century and jettisoned bureaucracies built for the 1930s They have replaced these industrial age systems with more decentralized more entrepreneurial more responsive organizations designed for the rapidly changing information rich world of the 1990s Osborne and Gaebler isolate and describe ten principles around which entrepreneurial public organizations are built They 1 steer more than they row 2 empower communities rather than simply deliver services 3 encourage competition rather than monopoly 4 are driven by their missions not their rules 5 fund outcomes rather than inputs 6 meet the needs of the customer not the bureaucracy 7 concentrate on earning not just spending 8 invest in prevention rather than cure 9 decentralize authority 10 solve problems by leveraging the marketplace rather than simply creating public programs Reinventing Government is not a partisan book It focuses not on what government should do but on

how government should work As such it has been embraced by both liberals and conservatives Democrats and Republicans

George Frederickson,Jocelyn M. Johnston,1999-05-24 Leading scholars present the most complete as well as the most advanced treatment of public management reform and innovation available The subject of reform in the public sector is not

new indeed its latest rubric reinventing government has become good politics Still as the contributors ask in this volume is good politics necessarily good government Given the growing desire to reinvent government there are hard questions to be asked Is the private sector market model suitable and effective when applied to reforming public and governmental organizations What are the major political forces affecting reform efforts in public management How is public management reform accomplished in a constitutional democratic government How do the values of responsiveness professionalism and managerial excellence shape current public management reforms In this volume editors H George Frederickson and Jocelyn M Johnston bring together scholars with a shared interest in empirical research to confront head on the toughest questions public managers face in their efforts to meet the demands of reform and innovation Throughout the book the authors consider the bureaucratic resistance that results when downsizing and reinvention are undertaken simultaneously the dilemma public managers face when elected executives set a reform agenda that runs counter to the law and the mistaken belief that improved management can remedy flawed policy

Summary of NLRB Cases United States. National Labor Relations Board. Division of Information, 1996 The Future of Merit James P. Pfiffner, Douglas A. Brook, 2000-09-12 Passage of the Civil Service Reform Act was controversial and there is still controversy over its effectiveness A book of this sort will be well received and anxiously read by specialists in public

administration public policy and public personnel administration H George Frederickson University of Kansas The Civil Service Reform Act of 1978 was the most far reaching reform of the federal government personnel system since the merit system was created in 1883 The Future of Merit reviews the aims and rates the accomplishments of the 1978 law and assesses the status of the civil service How has it held up in the light of the National Performance Review What will become of it in a globalizing international system or in a government that regards people as customers rather than citizens Contributors examine the Senior Executive Service whose members serve between presidential appointees and the rest of the civil service These crucial executives must transform legislative and administrative goals into administrative reality but are often caught between opposing pressures for change and continuity In the concluding chapter Hugh Heclo many of whose ideas informed the 1978 reform act argues that the system today is often more responsive to the ambitions of political appointees and the presidents they serve than to the longer term needs of the polity On the other hand the ambition of creating a government wide cadre of career general managers with highly developed leadership skills has not been fulfilled Other contributors helped to frame the 1978 act helped to implement it or study it as scholars of public administration

Environmentalism Unbound Robert Gottlieb,2002-08-02 A call for a broadened environmental movement that addresses issues of everyday life In Environmentalism Unbound Robert Gottlieb proposes a new strategy for social and environmental change that involves reframing and linking the movements for environmental justice and pollution prevention According to Gottlieb the environmental movement s narrow conception of environment has isolated it from vital issues of everyday life such as workplace safety healthy communities and food security that are often viewed separately as industrial community or agricultural concerns This fragmented approach prevents an awareness of how these issues are also environmental issues After tracing a history of environmental perspectives on land and resources city and countryside and work and industry Gottlieb focuses on three compelling examples of this new approach to social and environmental change The first involves a small industry dry cleaning and the debate over pollution prevention approaches the second involves a set of products janitorial cleaning supplies that may be hazardous to workers and the third explores the obstacles and opportunities presented by community or regional approaches to food supply in the face of an increasingly globalized food system
