**Reinventing Technology** Michael Goldhaber, 1986-01-01      **Handbook of Public Policy Evaluation** Stuart S. Nagel, 2002 This handbook deals with many aspects of public policy evaluation including methods examples professionalism studies perspectives concepts substance theory applications dispute resolution interdisciplinary interaction      **Critical Perspectives on Nonacademic Science and Engineering** Paul T. Durbin, 1991 This volume is an attempt to get philosophers to concentrate on what scientists and engineers actually do      **Education/Technology/Power** Michael W. Apple, Hank Bromley, 1998-07-10 Is the enormous financial investment school districts are making in computing technology a good idea With a focus on educational computing Education Technology Power examines how technological practices align with or subvert existing forms of dominance      **Theory of Technology** David Clarke, 2017-07-12 The history of technology is often troubled by good ideas that do not for one reason or another take off right away sometimes for millennia Sometimes technology comes to a standstill and sometimes it even reverses itself Thus unlike science which seems to proceed at a reasonable and calm rate the progress of technology is difficult to theorize about While in science many developments are predictable to a certain extent and this predictability may at times direct or stymie science's progress as with stem cell research and cloning technological advances such as the Internet are often sudden and unpredictable and therefore frightening In Theory of Technology David Clarke brings together nine authors who try to understand technology from a variety of viewpoints Rias van Wyk in Technology parses the concept into many angles including its anatomy taxonomy and evolution Karol Pelc in Knowledge Mapping discusses tracking the evolution of the emerging discipline of technology management Jon Beard in Management of Technology pursues a similar mapping endeavor but looks to the patterns of the literature of technology management Thomas Clarke in Unique Features of an R D Work Environment and Research Scientists and Engineers takes the reader on a tour of how people of technology present unique challenges to not just management but whole organizations Richard Howey in Understanding Software Technology places enterprise software into a meaningful pattern of technology management Fred Foldvary and Daniel Klein in The Half Life of Policy Rationales discuss how new technology affects old policy issues John Cogan in Some Philosophical Thoughts on the Nature of Technology maintains that our Aristotelian search for the essence of technology is doomed And Peter Bond in The Biology of Technology establishes a basis for the development of a socio biological approach to understanding the pheno      International Policy Studies Stuart S. Nagel, David Rosenblum, 2000 The basic elements of this book involve integrating five policy problems and four fields of knowledge The five policy problems are economic technology social political and legal The four developing regions are Africa Asia Eastern Europe and Latin America The four fields of knowledge are natural science social science humanities and law      Thinking through Technology Carl Mitcham, 2024-05-31 What does it mean to think about technology philosophically Why try These are the issues that Carl Mitcham addresses in this work a comprehensive critical introduction

to the philosophy of technology and a discussion of its sources and uses Tracing the changing meaning of technology from ancient times to our own Mitcham identifies the most important traditions of critical analysis of technology the engineering approach which assumes the centrality of technology in human life and the humanities approach which is concerned with its moral and cultural boundaries Mitcham bridges these two traditions through an analysis of discussions of engineering design of the distinction between tools and machines and of engineering science itself He looks at technology as it is experienced in everyday life as material objects from kitchenware to computers as knowledge including recipes rules theories and intuitive know how as activity design construction and use and as volition knowing how to use technology and understanding its consequences By elucidating these multiple aspects Mitcham establishes criteria for a more comprehensive analysis of ethical issues in applications of science and technology This book will guide anyone wanting to reflect on technology and its moral implications

**Cyber-Marx** Nick Dyer-Witheford,1999 In this highly readable and thought provoking work Nick Dyer Witheford assesses the relevance of Marxism in our time and demonstrates how the information age far from transcending the historic conflict between capital and its laboring subjects constitutes the latest battleground in their encounter Dyer Witheford maps the dynamics of modern capitalism showing how capital depends for its operations not just on exploitation in the immediate workplace but on the continuous integration of a whole series of social sites and activities from public health and maternity to natural resource allocation and the geographical reorganization of labor power He also shows how these sites and activities may become focal points of subversion and insurgency as new means of communication vital for the smooth flow of capital also permit otherwise isolated and dispersed points of resistance to connect and combine with one another Cutting through the smokescreen of high tech propaganda Dyer Witheford predicts the advent of a reinvented autonomist Marxism that will rediscover the possibility of a collective communist transformation of society Refuting the utopian promises of the information revolution he discloses the real potentialities for a new social order in the form of a twenty first century communism based on the common sharing of wealth

*Teaching Against the Grain* Roger Simon,1992-04-20 Conceiving of pedagogy as a form of cultural politics and teachers therefore as cultural workers Simon offers a fresh vision of the notion of pedagogy Grounded in an ethical and political stance devoted to the advancement of human dignity Simon reflexively considers the basis on which teachers form their own dispositions and feelings and urges them to consider not only what they

might do as teachers but what social visions are supported by their practices In this in depth discussion of the requirements for a pedagogy of possibility Simon highlights the significance of his theoretical commitment as applied to educational practice To illustrate the ways that pedagogy is implicated in the construction of a social imaginary Simon explores how the substance of schooling might be recast in a way that involves the work of teaching in reconstituting a progressive moral project for education that can constitute part of a broadly based social transformation He subsequently offers a social vision on which a pedagogy of possibility might be founded and shows how schools along with other sites of cultural production may be understood as integral to the struggle to establish such a vision In addition he discusses in detail how a practice of pedagogy might be conceptualized that would help establish concrete forms of hopeful practice

**Science in the Service of Human Rights** Richard Pierre Claude, 2002 5 Health and Medical Ethics Mother Jones Magazine , 1987-01 Mother Jones is an award winning national magazine widely respected for its groundbreaking investigative reporting and coverage of sustainability and environmental issues

**Quilt Culture** Cheryl B. Torsney, Judy Elsley, 1994 As a blanket a commemorative covering and a work of art the quilt is a nearly universal cultural artifact In recent years it has been recognized as one of our most compelling symbols of cultural diversity and the power of women In this collection Cheryl B Torsney and Judy Elsley bring together eleven provocative essays on the quilt as metaphor in literature history politics and philosophy This interdisciplinary approach makes Quilt Culture an extraordinarily rich exploration of a cultural artifact whose meaning is far more complex than that of a simple bed covering Publishers website
