Reinventing The Middle Ages The Renaissance:

Reinventing the Middle Ages & the Renaissance William F. Gentrup, 1998 The fourteen essays presented in this volume contribute substantially to the study of the reinvention of the Middle Ages and the Renaissance They take an historicized approach to constructions of the past and most address the relatively new field of Medievalism All of them focus on how and why the present of any period uses the past to promote its own opinions beliefs doctrines or views In particular the volume demonstrates that reinventions of past eras or figures can be motivated by a nationalistic desire to create cultural roots to discover origins that justify a regime or group s self identity to appropriate a cultural icon or neglected author for a particular political agenda or to reflect on contemporary social issues via a remote time and place Reworkings or adaptations of earlier culture often tell us more about the age in which they were produced than the one revived or revisited This volume features five essays that treat medieval subjects four focus on Tudor and Stuart figures religion or politics and five concentrate on nineteenth century uses of medieval or early modern events literary conventions settings and themes

continued relevance of the texts concepts and materials of the ancient near east specifically to early modern culture and scholarship

The Long Twelfth-Century View of the Anglo-Saxon Past Martin Brett, David A. Woodman, 2016-03-03

Scholars have long been interested in the extent to which the Anglo Saxon past can be understood using material written and produced in the twelfth century and simultaneously in the continued importance or otherwise of the Anglo Saxon past in the generations following the Norman Conquest of England In order to better understand these issues this volume provides a series of essays that moves scholarship forward in two significant ways Firstly it scrutinises how the Anglo Saxon past continued to be reused and recycled throughout the longue dur e of the twelfth century as opposed to the early decades that are usually covered Secondly by bringing together scholars who are experts in various different scholarly disciplines the volume deals with a much broader range of historical linguistic legal artistic palaeographical and cultic evidence than has hitherto been the case Divided into four main parts The Anglo Saxon Saints Anglo Saxon England in the Narrative of Britain Anglo Saxon Law and Charter and Art history and the French Vernacular it scrutinises the majority of different genres of source material that are vital in any study of early medieval British history In so doing the resultant volume will become a standard reference point for students and scholars alike interested in the ways in which the Anglo Saxon past continued to be of importance and interest throughout the twelfth century

and finally Victor Burton's in conceiving the book cover. In part, some of the ideas stated here resulted from special contributions by dear friends such as Fabiana Izaga, Andr Luiz Pinto, Eucana Ferraz, and Graça Matias Ferraz. Some topics were discussed in the creative environment of the Graduate Program in Urbanism at FAU/UFRJ. I thank my children, Pedro, Tiago, and Aninha, who took care of me with tenderness and understood my effort to conclude these texts. I owe a special thanks to the Rio de Janeiro city government and its Culture Department for promoting this book using the ISS Incentive Law, as well as to the sponsoring companies Grupo Globo, Icatu, and STX Empreendimentos. Both the book and I were extremely honored by the references made by Ruy Castro, Zuenir Ventura, and Luiz Fernando Janot, whom I thank in the hope of living up to their expectations. However, I count on their generosity and yours, dear reader, in understanding that this is but a small amount of mortar to help build better cities. It is hope.
