# RELATION OF LITERATURE TO LIFE

There is an intimate, deep, connection between literature and life. It is, in fact, life which is the subject matter of literature. Life provides the raw material on which literature imposes, establishes, an artistic form. Literature, as we defined in the previous section, is the communication of the writer's experience of life. But this connection between literature and life is not so simple as it seems. This problem has been discussed by some of the greatest literary critics of the world, and their conclusions have been sometimes contradictory.

Plato, the great Greek philosopher, was the first to give a serious thought to this problem—the relation of literature to life. In his discussions he referred mainly to poetry, but what he said about poetry can be equally applied to literature as a whole. He regarded poetry as a mere, small, "imitation" of life, and thus he condemned, disapproved, the poets. His opposition to poetry was based on his theory of knowledge. According to him, true reality consists, rests, in the *Ideas* of things, of which individual objects are but reflections or imitations. For example, when we say a *black dog*, a *good dog*, a *lame dog* etc., we are comparing the dog which we actually see with the *ideal* dog, our *idea* of the dog, which is the true, unchanging reality, while the dogs which we name as *black*, *good*, *lame* etc. are mere reflections and imitations of that reality. Thus the poet, who imitates those objects which are themselves imitations of reality, is obviously producing something, which is still further removed from ultimate reality. Plato developed this argument first with reference to the painter. Painting is an imitation of a specific object or group of objects, and if it is nothing but that, if reality lies not in individual objects but in general ideas or forms, then, from the point of view of the philosopher, whose main interest is in apprehending reality, the painter is not doing anything particularly valuable. Just as the painter only imitates what he sees and does not know how to make or to use what he sees (he could paint a bed, but not make it), so the poet imitates reality without necessarily understanding it. Poetry or literature as a whole is an imitation of imitation and thus twice removed from truth.

There is an obvious error in Plato's reasoning. Being too much of a philosopher and moralist, he could not see clearly the relation between literature and life. He is right when he says that the poet produces something which is less than reality it purports to represent, but he does not perceive that he also, creates something more than reality. This error was corrected by Plato's pupil, Aristotle. In his *Poetics* he undertook, took a charge, to examine the nature and qualities of imaginative literature with a view to demonstrating that it is true, and not false as Plato had shown it. He agreed with Plato that poetry is an imitation of reality, but according to him, this imitation is the objective representation of life in literature or, in other words, the imaginative reconstruction of life. Poetry is thus not connected with the outside world in the simple and direct fashion, form, supposed by Plato. The poet first derives an inspiration from the world by the power of his imagination; the art of poetry then imitates this imaginative inspiration in language. The art of poetry or literature as a whole exists to give shape and substance to a certain kind of imaginative impulse, thought; the existence of the art implies, signifies, the existence of the impulse. Now it is just possible to imagine life exactly as it is; but the exciting thing is to imagine life as it might be, and it is then that imagination becomes an impulse capable of inspiring poetry.

**Reprint)** Charles Dudley Warner, 2018-01-11 Excerpt from *The Relation of Literature to Life* Innumerable were the devices of the builders to keep their inventions afloat. Some paid great attention to the form of the hull, others to the kind of cargo and the loading of it, while others and these seemed the majority trusted more to some new sort of sail or new fashion of rudder or new application of propelling power. And it was wonderful to see what these new ingenuities did for a time. And about the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. *Educated Imagination and Other Writings on Critical Theory, 1933-1962* Northrop Frye, 2006-01-01 In 1933 Northrop Frye was a recent university graduate beginning to learn his craft as a literary essayist. By 1963, with the publication of *The Educated Imagination*, he had become an international academic celebrity. In the intervening three decades Frye wrote widely and prodigiously, but it is in the papers and lectures collected in this installment of the *Collected Works of Northrop Frye* that the genesis of a distinguished literary critic can be seen. Here is Frye tracing the first outlines of a literary cosmology that would culminate in *The Anatomy of Criticism* (1958) and shape *The Great Code* (1982) and *Words with Power* (1990). At the same time that Frye garnered such international acclaim, he was also a working university teacher, lecturing in the University of Toronto's English Language and Literature program. In her lively introduction, Germaine Warkentin links Frye's evolution as a critic with his love of music, his passionate concern for his students, and his growing professional ambition. The writings included in this volume show how Frye integrated ideas into the work that would consolidate the fame that *Fearful Symmetry* (1947) had first established.

*The Life of John Middleton Murry* F.A. Lea, 2021-09-11 First Published in 1959, *The Life of John Middleton Murry* is the first biography of one of the most controversial figures in English letters. Many people know Middleton Murry in one or other of his capacities: as editor of the avant-garde magazine *Rhythm*, while he was still an undergraduate of *The Athenaeum* in its last, most brilliant phase; *The Adelphi* in the 1920s; *Peace News* in the 40s, as the foremost critique of his day; as author of some forty books on literary, religious, and social questions; as the husband of Katherine Mansfield and intimate of D.H. Lawrence; as prophet, politician, or farmer. Few even of his most vigorous champions or opponents discerned the consistent purpose uniting all his multifarious activities. To trace that is the principal aim of this book. Believing that the duty of the official biographer is rather to present than interpret, the author makes no attempt to evaluate Murry's theories objectively, confining himself to showing how intimately they grew out of his strange, tragic, and occasionally comic experience. At the same time, he makes no secret of his own view of Murry's significance, both as a thinker and as the representative figure of an age of breakneck social transition. *The Life of John Middleton Murry* will be of interest
