Racial Narratives and the Development of Trumpism Arthur H. Garrison,2024-11-25 History is storytelling History is the selection of facts placed in a specific order to result in a specific conclusion It s the choice of facts the prioritization of facts and the ignoring of facts that creates the narrative of history the narrative of the American story The American story is the creation of specific historical events and the meanings that have been applied to them Since America is defined by ideas and not ethnicity it matters what narratives of America that Americans accept support and defend White Narratives Matter The Whitewashing of the American Story and How Racial Narratives Explain the

Development of Trumpism uses original speeches and writings of politicians and other social leaders from Thomas Jefferson to Tucker Carlson to explore how the White social conservative worldview narrative of American history developed over the past two centuries White Narratives Matter explores how this process of fact selection prioritization and development of White social conservative rhetoric of the American story has defined American politics and policies which culminated in the rise of Donald Trump and Trumpism within the American political landscape The Brink Mark Hunter, 2014-10-15 The author lays bare his own triumphs and failures while breaking down that elusive edge that turns great leaders into influencers Brad Szollose award winning author of Liquid Leadership The Brink is a method for generating leadership in an individual leader and on a team It is based on the simple assertion that leadership is created in the face of some great challenge or obstacle to overcome rather than in a vacuum or in comfortable places with no adversity The Brink model uses climbing a mountain as an analogy throughout for creating that big challenge or goal and then demonstrates how to create a team to climb it with and outlines the way to create leadership in everyone involved in the process This metaphor transfers to virtually any leadership position one holds and is organized into a clear list of ingredients essential to leadership As an adventurer I resonated with the climbing stories and analogies in The Brink However the concepts and strategies are valid and powerful for anyone looking to improve as a leader in business and life A great read Heather Hansen O'Neill author of Find Your Fire at Forty
