## **Relevance Of Canadian History Us And Imperial Perspectives:**

**John A.: 1815-1867** Richard J. Gwyn, 2007 But it wasn't easy The wily Macdonald faced constant crises throughout these years from Louis Riel's two rebellions through to the Pacific Scandal that almost undid his government and his quest to find the spine of the nation the railroad that would link east to west Gwyn paints a superb portrait of Canada and its leaders through these formative years and also delves deep to show us Macdonald the man as he marries for the second time deals with the birth of a disabled child and the assassination of his close friend Darcy McGee and wrestles with whether Riel should hang pub desc v 2 John A Richard J. Gwyn, 2009-03-18 The first full scale biography of Canada's first prime minister in half a century by one of our best known and most highly regarded political writers The first volume of Richard Gwyn's definitive biography of John A Macdonald follows his life from his birth in Scotland in 1815 to his emigration with his family to Kingston Ontario to his days as a young rising lawyer to his tragedy ridden first marriage to the birth of his political ambitions to his commitment to the all but impossible challenge of achieving Confederation to his presiding with his second wife Agnes over the first Canada Day of the new Dominion in 1867 Colourful intensely human and with a full measure of human frailties Macdonald was beyond question Canada's most important prime minister This volume describes how Macdonald developed Canada's first true national political party encompassing French and English and occupying the centre of the political spectrum To perpetuate this party Macdonald made systematic use of patronage to recruit talent and to bond supporters a system of politics that continues to this day Gwyn judges that Macdonald if operating on a small stage possessed political skills of manipulation and deception as well as an extraordinary grasp of human nature of the same calibre as the greats of his time such as Disraeli and Lincoln Confederation is the centerpiece here and Gwyn's commentary on Macdonald's pivotal role is original and provocative But his most striking analysis is that the greatest accomplishment of nineteenth century Canadians was not Confederation but rather to decide not to become Americans Macdonald saw Confederation as a means to an end its purpose being to serve as a loud and clear demonstration of the existence of a national will to survive The two threats Macdonald had to contend with were those of annexation by the United States perhaps by force perhaps by osmosis and equally that Britain just might let that annexation happen to avoid a conflict with the continent's new and unbeatable power Gwyn describes Macdonald as Canada's first anti American And in pages brimming with anecdote insight detail and originality he has created an indelible portrait of the irreplaceable man the man who made us Macdonald hadn't so much created a nation as manipulated and seduced and connived and bullied it into existence against the wishes of most of its own citizens Now that Confederation was done Macdonald would have to do it all over again having conjured up a child nation he would have to nurture it through adolescence towards adulthood How he did this is however another story He never made the least attempt to hide his vice unlike say his contemporary William Gladstone with his sallies across London to save prostitutes or Mackenzie King with his crystal ball gazing Not only was Macdonald entirely unashamed of his behaviour

he often actually drew attention to it as in his famous response to a heckler who accused him of being drunk at a public meeting Yes but the people would prefer John A drunk to George Brown sober There was no hypocrisy in Macdonald's make up nor any fear from John A Macdonald      *Liberty's Exiles* Maya Jasanoff, 2012-03-06 NATIONAL BOOK CRITICS CIRCLE AWARD WINNER This groundbreaking book offers the first global history of the loyalist exodus to Canada the Caribbean Sierra Leone India and beyond At the end of the American Revolution sixty thousand Americans loyal to the British cause fled the United States and became refugees throughout the British Empire *Liberty's Exiles* tells their story Maya Jasanoff is featured in *THE AMERICAN REVOLUTION* a film by Ken Burns Sarah Botstein and David Schmidt on PBS A smart deeply researched and elegantly written history New York Times Book Review This surprising account of the founding of the United States and the shaping of the post revolutionary world traces extraordinary journeys like the one of Elizabeth Johnston a young mother from Georgia who led her growing family to Britain Jamaica and Canada questing for a home black loyalists such as David George who escaped from slavery in Virginia and went on to found Baptist congregations in Nova Scotia and Sierra Leone and Mohawk Indian leader Joseph Brant who tried to find autonomy for his people in Ontario Ambitious original and personality filled this book is at once an intimate narrative history and a provocative analysis that changes how we see the revolution's losers and their legacies      *National Politics and Community in Canada* R. Kenneth Carty, W. Peter Ward, 1986 The authors in this collection challenge traditional notions of the minority and explore Canada's national political system and institutions as a unit      *The Construction of Canadian Identity from Abroad* Christopher Kirkey, Richard Nimijean, 2022-03-20 Migration and the impact that immigrants have on Canada is and always has been central to a robust understanding of Canadian identity However despite claims that the world needs more Canada Canadians their governments and scholars pay much less attention to the estimated 3 million Canadian expatriates who live elsewhere *The Construction of Canadian Identity from Abroad* features Canadian scholars who live and work outside Canada or have recently returned to Canada and who write and think deeply about identity construction What happens when that Canadian is a scholar whose teaching research and scholarship professional development and or community engagement focuses directly on Canada How does being abroad affect how we interpret Canada In short in what ways does externality affect how Canadian expat scholars intellectually approach construct and identify with Canada This engaging volume is ideal for university students scholars government officials and the general public      *Canada : Selected References* , 1981      *Settler Feminism and Race Making in Canada* Jennifer Anne Henderson, 2003-01-01 *Settler Feminism and Race Making in Canada* engages in a discursive analysis of three texts the narratives of Anna Jameson *Winter Studies and Summer Rambles in Canada* Theresa Gowanlock and Theresa Delaney *Two Months in the Camp of Big Bear* and the *Janey Canuck* books of Emily Murphy in order to examine how in the context of a settler colony white women have been part of the project of its governance its racial constitution and its role in British imperialism Using Foucauldian theories of governmentality to connect these first person narratives to wider

strategies of race making Jennifer Henderson develops a feminist critique of the ostensible freedom that Anglo Protestant women found within nineteenth century liberal projects of rule Henderson s interdisciplinary approach including critical studies in law literature and political history offers a new perspective on these women that detaches them from the dominant colony to nation narrative and shows their importance in a tradition of moral regulation This project not only redresses problems in Canadian literary history it also responds to the limits of postcolonial nationalist and feminist projects that search for authentic voices and resistant agency without sufficient attention to the layers of historical sedimentation through which these voices speak

**Betrayal of Due Process** Hedieh Nasheri,1998 Betrayal of Due Process is a landmark study of the criminal justice systems of two common law nations the United States and Canada By focusing on plea bargaining which is one of the most dominant practices in the criminal justice system of both countries Nasheri makes a historical comparison of guilty plea practices and ideologies She draws on historical criminological sociological and political perspectives to construct her argument Because plea bargaining is a crucial part of the criminal justice system yet has received little scholarly attention this much needed book fills a wide gap in legal scholarship

*A Temperate Empire* Anya Zilberstein,2016-09-29 Controversy over the role of human activity in causing climate change is pervasive in contemporary society But as Anya Zilberstein shows in this work debates about the politics and science of climate are nothing new Indeed they began as early as the settlement of English colonists in North America well before the age of industrialization In the seventeenth and eighteenth centuries many early Americans believed that human activity and population growth were essential to moderating the harsh extremes of cold and heat in the New World In the preindustrial British settler colonies in particular it was believed that the right kinds of people were agents of climate warming and that this was a positive and deliberate goal of industrious activity rather than an unintended and lamentable side effect of development *A Temperate Empire* explores the ways that colonists studied and tried to remake local climates in New England and Nova Scotia according to their plans for settlement and economic growth For colonial officials landowners naturalists and other elites the frigid long winters and short muggy summers were persistent sources of anxiety These early Americans became intensely interested in reimagining and reducing their vulnerability to the climate Linking climate to race they assured would be migrants that hardy Europeans were already habituated to the severe northern weather and Caribbean migrants temperaments would be improved by it Even more they drew on a widespread understanding of a reciprocal relationship between a mild climate and the prosperity of empire promoting the notion that land cultivation and the expansion of colonial farms would increasingly moderate the climate One eighteenth century naturalist observed that European settlement and industry had already brought about a more temperate uniform and equal climate worldwide a forecast of a permanent global warming that was wholeheartedly welcomed

Illuminating scientific arguments that once celebrated the impact of economic activities on environmental change A Temperate Empire showcases an imperial colonial and early American history of climate change **Colony and Empire** William G. Robbins,1994 Popular writers and historians alike have perpetuated the powerful myth of the rugged individualist single handedly transforming the American West In reality William Robbins counters it was the Guggenheims and Goulds the Harrimans and Hearsts and the Morgans and Mellons who masterminded what the West was to become Remove the romance he shows and a darker West emerges a colonial like region where industrial statesmen aided by eastern U S and European capital manipulated investments in pursuit of private gain while controlling wage earning cowboys and miners Robbins argues that understanding the impact of capitalism on the West from the fur trade era to the present is essential to understanding power influence and change in the region Showing how global capitalism had a more profound impact on the modern West than individual initiative he explores violence and racism along the Texas Mexican border colonial style company towns in Montana and the Northwest contrasting traditions astride the U S Canadian boundary pace setting agribusiness and exploitation of labor in California the growing power of metropolitan centers and dependence of rural areas and the emergence of a sizable federal influence To grasp the essence of the West s dramatic transformation Robbins contends you must look to the mainstays of material relations in the region the perpetually changing character of political and economic culture the inherent instability of resources and the larger constellations of capitalist decision making Consequently he shows shy Western success and failure prosperity and misfortune and expansion and decline were all inseparably linked to the evolution of capitalism at the local regional national and global levels In the tradition of Patricia Nelson Limerick s Legacy of Conquest Robbins s study challenges some of our most revered images of the West and invigorates the ongoing debates over its history and meaning for our nation **This Kindred People** Edward Parliament Kohn,2004 Kohn shows how Americans and Canadians often referred to each other as members of the same family sharing the same blood and drew upon the common lexicon of Anglo Saxon rhetoric to undermine old rivalries and underscore shared interests Though the predominance of Anglo Saxonism proved short lived it left a legacy of Canadian American goodwill as both nations accepted their shared destiny on the continent Kohn argues that this new Canadian American understanding fostered the Anglo American special relationship that shaped the twentieth century **Three Civilizations, Two Cultures, One State** Douglas V. Verney,1986 This volume examines 150 years of Canadian political life in light if one of the country s most intractable problems its cultural identity Although many thoughtful Canadians remain dubious about the existence of a truly Canadian way of life Douglas Verney argues that in fact Canada s political traditions embody and reflect a unique culture and that although the Canadian government has been the primary instrument for nurturing this culture it has been at the same time the entity most guilty of obscuring and ignoring it **The Pacific Raincoast** Robert Bunting,1997 This work chronicles the struggle for the Douglas fir region from the first sustained contact between native American and Euro

American cultures to 1900 when Fredrick Weyerhaeuser's purchase of some of the area completed one of the largest land deals in US history

**The Canadian Historical Review**, 1923

**Entomology, Ecology and Agriculture** Paolo Palladino, 2013-05-13 This study is facilitated by following economic entomologists and ecologists changing ideas about different pest control strategies chiefly chemical biological and integrated control The author then follows the efforts of one specific group of entomologists at the University of California over three generations from their advocacy of biological controls in the 1930s and 40s through their shifting attention to the development of an integrated pest management in the context of big biology during the 1970s

Science, God, and Nature in Victorian Canada Carl Berger, 1983-12-15 Professor Berger aims in this book to explore the rise expression and relative decline of the idea of natural history in Canada during the age of Victoria Science particularly natural science was then accessible to the general public in a way scarcely imaginable today Natural history societies were set up in a number of cities and provided a focus for the descriptive and collecting activities of amateurs and incipient professionals These societies acted as social clubs and vehicles for self improvement as well as providing excellent training for the amateur scientist The Baconian assumptions that inspired the Victorian collectors and scientists were one of the major victims of the Darwinian revolution and their demise brought about the gradual decline of the natural history societies Professor Berger considers also the sense of wonder and reverence with which Victorian Canadians like their British contemporaries looked at the varieties and delights of nature The British tradition of natural theology had a great impact on the pursuit of science in Victorian Canada leading naturalists and poets alike to seek in the uncharted flora and fauna of their new land the handiwork of a benevolent God The author examines the impact of the discoveries of Darwin on this tradition and on the relations between science and religion as the creator and the act of creation became more and more distant in time and more tenuously connected to the world of nature around us His study provides many rich insights into the practice and theory of natural history in an age when even a veteran politician could look back and recall with understanding and in detail the world of nature in the countryside of his youth

**Prejudice and Pride** Damien-Claude Bélanger, 2011-01-01 As a country with enormous economic military and cultural power the United States can seem an overwhelming neighbour one that demands consideration by politicians thinkers and cultural figures Prejudice and Pride examines and compares how English and French Canadian intellectuals viewed American society from 1891 to 1945 Based on over five hundred texts drawn largely from the era's periodical literature the study reveals that English and French Canadian intellectuals shared common preoccupations with the United States though the English tended to emphasize political issues and the French cultural issues Damien Claude Belanger's in depth analysis of anti American sentiment during this era divides Canadian thinkers less along language lines and more according to their political stance as right wing left wing or centrist Significantly the era's discourse regarding American life and the Canadian American relationship was less an expression of nationalism or a reaction to US policy than it was about the expression of wider attitudes concerning modernity

Past Futures Ged Martin, 2004-12-15 By nature human beings seek to make sense of their past Paradoxically true historical explanation is ultimately impossible Historians never have complete evidence from the past nor is their methodology rigorous enough to prove causal links Although it cannot be proven that A caused B by redefining the agenda of historical discourse scholars can locate events in time and place history once again at the heart of intellectual activity In Past Futures Ged Martin advocates examining the decisions that people take most of which are not the result of a process but are reached intuitively Subsequent rationalizations that constitute historical evidence simply mislead All historians can do is to locate them in time to explain not why a decision was taken but why then To illustrate Martin asks a number of questions What is a long time in history Are we close to the past or remote from it Is democracy a recent experiment or proof of our arrival at the end of a journey through time Can we engage in a historical dialogue with the past without making clear our own ethical standpoints Although explanation is ultimately impossible humankind can make sense of its location in time through the concept of significance a device for highlighting events and aspects of the past In so doing Martin suggests a radical new approach to historical discourse
