Religion And Cultural Memory Ten Studies Cultural Memory In The Present:

Religion and Cultural Memory Jan Assmann, Rodney Livingstone, 2006 In ten brilliant essays Jan Assmann explores the connections between religion culture and memory Building on Maurice Halbwachs's idea that memory like language is a social phenomenon as well as an individual one he argues that memory has a cultural dimension too He develops a persuasive view of the life of the past in such surface phenomena as codes religious rites and festivals and canonical texts on the one hand and in the Freudian psychodrama of repressing and resurrecting the past on the other Whereas the current fad for oral history inevitably focuses on the actual memories of the last century or so Assmann presents a commanding view of culture extending over five thousand years He focuses on cultural memory from the Egyptians Babylonians and the Osage Indians down to recent controversies about memorializing the Holocaust in Germany and the role of memory in the current disputes between Israelis and Palestinians in the Middle East and between Protestants and Catholics in Northern Ireland

The Discursive Fight over Religious Texts in Antiquity Anders-Christian Jacobsen, 2009-04-22 The volumes of *Religion and Normativity* presents the latest research in three central fields Volume I discusses the construction of normative texts in early Christianity and Judaism including canon formation the question of authoritative

interpretation of canon and the re writing of normative texts in new situations Among other things the authors employ literary theories and memory construction *Prepare the Way of the Lord* Kirsten Marie Hartvigsen, 2012-10-30 This study analyzes an oral performance of the entire Gospel of Mark with emphasis on involvement with characters and events the emotional effects of such involvement and how these processes maintain or shape the identity of those who hear the Gospel Insights from cognitive poetics and psychonarratology are employed to illuminate the complex cognitive processes that take place when audience members experience an oral performance of the Gospel Consequently this study expands previous research on the Gospel of Mark which was conducted on the basis of narrative criticism orality criticism and performance criticism by including cognitive aspects Cognitive poetics and psychonarratology have to my knowledge not been extensively employed to illuminate an oral performance of the Gospel of Mark previously This investigation provides 1 An original coherent theoretical and methodological framework 2 An analysis of mechanisms which promote involvement with characters and events in the Markan narrative 3 An examination of the prospective emotional effects of such involvement 4 Reflections on the potential of these mechanisms with regard to identity maintenance or formation through cultural memory 5 A cognitive poetic commentary on the entire Gospel of Mark **Toward a Poetics of Genesis 1-11** Daniel D.

Lowery, 2013-04-15 Daniel Lowery commences this work by suggesting that history is a subjective enterprise it is controlled by those who record it The power of the present decides what is counted as history and how the rest of us are told about the past shapes our view of it and concomitantly our outlook for the future In this sense then history fundamentally shapes the future Few questions are more basic to human existence than Who am I Where did I come from What is my place in this world The earliest chapters of Genesis have oriented hearers and readers for millennia in their attempts to address these concerns And so in several respects Genesis shapes the future In this study Lowery sets out to understand more accurately ancient Near Eastern language and claims about origins specifically claims found in Gen 1 11 He uses Gen 4 17 22 as a test case representing the Hebrew tradition explaining how the world came to be civilized Lowery observes that this passage serves a function within the larger narrative of Gen 1 11 akin to other ancient Near Eastern traditions of civilized beginnings Moreover it occupies a place in the overarching narrative of beginnings corresponding to what we find elsewhere throughout the ancient world Lowery focuses mainly on Mesopotamia leaving other cultures for later study This study aims to demonstrate that much of the language of Gen 1 11 is similar in many ways to its Mesopotamian counterparts More explicitly here is an exploration of the nature of the language and terms of Gen 1 11 to ascertain what truths it communicates and how it communicates them At its core this is a study of the genre and generic claims of protohistory as found in Gen 1 11

Literature and Cultural Memory, 2017-03-06 Cultural Memory a subtle and comprehensive process of identity formation promotion and transmission is considered as a set of symbolic practices and protocols with particular emphasis on repositories of memory and the institutionalized forms in which they are embodied High and low culture as texts embedded

in the texture of memory as well as material culture as a communal receptacle and reservoir of memory are analysed in their historical contingency Symbolic representations of accepted and counter histories and the cultural nodes and mechanisms of the cultural imaginary are also issues of central interest Twenty six contributions tackle these topics from a theoretical and historical perspective and bring to the fore case studies illustrating the interdisciplinary agenda that underlies the volume Contributors Luis Manuel A V Bernardo Lina Bolzoni Peter Burke Pia Brnzeu Adina Ciugureanu Thomas Docherty Christoph Ehland Herbert Grabes L szl Gyapay Donna Landry Christoph Lehner Gerald MacLean Drago Manea Daniel Melo Miros awa Modrzewska Rare Moldovan C W R D Mosely Petru a N idu Francesca Orestano Maria L cia G Pallares Burke Andreea Paris Leonor Santa B rbara Hans Peter S der Jukka Tiusanen Ludmila Voln Ioana Zirra

Martínez-Vázquez, 2010-01-01 Latinas/os are the fastest growing minoritized ethnic group in the United States and Islam is one of the fastest growing religions in the United States It is therefore no surprise that the Latina/o Muslim population is one of the fastest growing communities in the United States As a minority within a minority the ways in which U S Latina/o Muslims construct their identity is not only interesting in itself but also of interest for how they challenge traditional understandings of U S Latina/o identities This book explores the process of conversion of U S Latina/o Muslims and how it becomes the foundation for the re construction of their U S Latina/o identities Furthermore since Latina/o religious experience in the United States up until now has largely assumed Christianity as the de facto religion Latina/o y Musulmán brings a whole new angle to studies in this area Martinez Vazquez lays the broader analytical foundation for how the religious experiences of non Christian U S Latinas/os shape the process of identity construction **Embedded Faith**

Carlton Johnstone, 2013-12-04 Embedded Faith explores the way Christian faith journeys of young adults are embedded within church communities It discusses why young adults go to church why they change churches why some are involved in the practice of church two timing and what they are looking for in a church Embedded Faith also provides valuable insight into the relationship between geographic mobility and belonging to a faith community in a transient age Embedded Faith discusses areas where young adults are engaging and disengaging with church life such as preaching and worship It

addresses how stage of life transitions and life experience impact on one's experience and involvement in church. This book will enable anyone working with young adults in a church context to give shape to a ministry that is more sensitive and connected to the realities faced by young adults and will call you to the importance of listening to the lived experience of young adults as it relates to faith and church. Good Queen Mothers, Bad Queen Mothers Ginny

Brewer-Boydston, 2023-07-19 The regnal formulas in 1-2 Kings list the name of the king's mother for Judah, signaling an importance of her position and place within the book's theological presentation. This book investigates the passages in which the king's mother appears outside of the formulas through narrative criticism and integrates that study with a theological discussion of the formulas in order to demonstrate 1-2 Kings' view of the queen mother's place in the monarchy. She held a sanctioned position within the court and had such great influence upon her son that she receives blame as part of the monarchy for the exile. **Intercultural Theology** Judith Gruber, 2017-12-04 Recent years have seen a paradigm shift in

Christian self-understanding. In place of the eurocentric model of Christendom, a new understanding is emerging of Christianity as a world movement with considerable cultural variety. Concomitant with this changing self-perception, a new theological discipline begins to take shape which analyzes the inter- and transcultural character and performance of global Christianity. **Intercultural Theology** Judith Gruber discusses this nascent theological approach in two parts. She first gives a critical analysis of its historical development. In the first part of the book, two theological sub-disciplines of particular relevance are analysed: 1. missiology and its reflection on the encounter of Western Christianity with other cultures in the context of colonialism; 2. contextual theologies which focus on the particularity and dignity of the diverse cultural contexts of theological practice but fail to sufficiently integrate the universal dimension of Christianity into their theological reflections. Secondly, this study offers a constructive theological approach to intercultural theology. It does that by bringing systematic theology into conversation with cultural studies. This interdisciplinary approach adds significant complexity to existing reflections on Intercultural Theology. Re-reading the theological history of Christianity within the critical framework of cultural theories exposes a host of disparate and conflictive Christianities underneath its dominant master narrative and moreover, it no longer allows a recourse to essentialist concepts of Christian identity with which previous approaches to Intercultural Theology have mitigated this unsettling cultural plurality of Christianity. After the Cultural Turn, which has made a metaphysical epistemology untenable, new ways for thinking the unity and universality of Christianity have to be paved. The book draws on Paul Ricoeur's and Michel Foucault's concept of the event and on Michel de Certeau's proposal of a Weak Christianity in order to develop such a post-metaphysical framework which allows to conceive of the unity and universality of Christianity without concealing its cultural plurality and contingency. *The Social World of Deuteronomy* Don C

Benjamin, 2017-04-27 The book of Deuteronomy is not an orphan. It belongs to a diverse family of legal traditions and cultures in the world of the Bible. *The Social World of Deuteronomy: A New Feminist Commentary* brings these traditions and cultures

to life and uses them to enrich our understanding and appreciation of Deuteronomy today Don C Benjamin uses social scientific criticism to reconstruct the social institutions where Deuteronomy developed as well as those that appear in its traditions He uses feminist criticism to better understand and appreciate how powerful elite males in Deuteronomy view not only the women daughters mothers wives and widows in their households but also their powerless children liminal people slaves prisoners outsiders livestock and nature Through the lens of feminist theory Benjamin explores important aspects of the daily lives of these often overlooked peoples in ancient Israel

Locating the Sacred Claudia Moser, Cecelia Feldman, 2014-01-01 Ritual happens in distinct places in temples in caves along pilgrimage routes and religious activities there incorporate a diverse set of objects such as holy water cult statues and sacred texts Understanding religious ritual requires viewing it not as a disembodied event but as emplaced grounded in both built and natural surroundings and integrated with its associated material objects Here authors examine various religious practices in the Greco Roman world and pilgrimage routes in contemporary Israel Other contributions focus on the East on domestic religion in prehistoric Taiwan and the palimpsest of ritual activity in Buddhist China One author considers not just ritual s built and natural setting but also the landscape of the human mind By way of conclusion many of the recurring issues concerning the material and topographic matrix of ritual practice are expanded upon in a final meditation on sacred space The papers in this volume with their disciplinary geographic and chronological diversity will serve as a resource for theoretical approaches to the study of ritual practice that may have broad cross cultural application and provide new insight into the relationship between ritual and place The volume is based on a conference held at Brown University

Reading the Dead Sea Scrolls George J. Brooke, 2013-10-01 The Dead Sea Scrolls which have long captured the public imagination are now all available in principal editions and accessible translations This book addresses the next stage in their analysis by raising questions about how they should be read and studied The essays

collected here illustrate two approaches First some essays argue that traditional methods of studying ancient texts need to be refined and broadened in the light of the Scrolls The volume thus contains studies on text criticism literary traditions lexicography historiography and theology Second the book also argues that innovative methods of study applied fruitfully in other areas now also need to be applied to the Scrolls such as studies that consider the relevance for the Scrolls of deviance theory cultural memory hypertextuality intertextuality genre theory spatial analysis and psychology Many of the examples in these studies relate to how authoritative scripture was handled and appropriated by the groups that gathered the Scrolls together in the caves at and near Qumran so some of the same texts are analyzed from several different perspectives
