The Concept of Self in Hinduism, Buddhism, and Christianity and Its Implication for Interfaith Relations Kiseong Shin, 2017-05-05 This is the first comparative study of the self and no self in Hinduism Buddhism and Christianity In spite of doctrinal differences within these three belief systems they agree that human beings are in a predicament from which they need to be liberated Indian religions including Hinduism and Buddhism share the belief that human nature is inherently perfectible while the epistemological and psychological limitation of the human being is integral to Christian belief Regarding the immortality of the human being Hinduism and Christianity traditionally and generally agree that human beings as atman or soul possess intrinsic immortality On the contrary Buddhism teaches the doctrine of no self anatta Further in their quest to analyze the human predicament and attempt a way out of it they employ different concepts such as sin and salvation in Christianity attachment tanka and enlightenment nirvana in Buddhism and ignorance avidya and liberation moksha in Hinduism This volume seeks to show that that behind these concepts are deep concerns related to human existence and its relationship with the whole creation These common concerns can be a basis for a greater understanding and dialogue between Christians Hindus and Buddhists

Overcoming Our Evil Aaron Stalnaker, 2006-07-26 Can people ever really change Do they ever become more ethical and if so how Overcoming Our Evil focuses on the way ethical and religious commitments are conceived and nurtured through the methodical practices that Pierre Hadot has called spiritual exercises These practices engage thought imagination and sensibility and have a significant ethical component yet aim for a broader transformation of the whole personality Going beyond recent philosophical and

historical work that has focused on ancient Greco Roman philosophy Stalnaker broadens ethical inquiry into spiritual exercises by examining East Asian as well as classical Christian sources and taking religious and seemingly aesthetic practices such as prayer ritual and music more seriously as objects of study More specifically *Overcoming Our Evil* examines and compares the thought and practice of the early Christian Augustine of Hippo and the early Confucian Xunzi Both have sophisticated and insightful accounts of spiritual exercises and both make such ethical work central to their religious thought and practice Yet to understand the two thinkers recommendations for cultivating virtue we must first understand some important differences Here Stalnaker disentangles the competing aspects of Augustine and Xunzi s ideas of human nature His groundbreaking comparison of their ethical vocabularies also drives a substantive analysis of fundamental issues in moral psychology especially regarding emotion and the complex idea of the will to examine how our dispositions to feel think and act might be slowly transformed over time The comparison meticulously constructs vivid portraits of both thinkers demonstrating where they connect and where they diverge making the case that both have been misunderstood and misinterpreted In throwing light on these seemingly disparate ancient figures in unexpected ways Stalnaker redirects recent debate regarding practices of personal formation and more clearly exposes the intellectual and political issues involved in the retrieval of classic ethical sources in diverse contemporary societies illuminating a path toward a contemporary understanding of difference

Redescribing Paul and the Corinthians Society of Biblical Literature,2011 This second volume of studies by members of the SBL Seminar on Ancient Myths and Modern Theories of Christian Origins reassesses the agenda of modern scholarship on Paul and the Corinthians The contributors challenge the theory of religion assumed in most New Testament scholarship and adopt a different set of theoretical and historical terms for redescribing the beginnings of the Christian religion They propose explanations of the relationship between Paul and the recipients of 1 Corinthians the place of Paul s Christ myth for his gospel the reasons for a disinterest in and rejection of Paul s gospel and or for the reception and attraction of it and the disjunction between Paul s collective representation of the Corinthians in 1 Corinthians and the Corinthians own engagement with Paul in mythmaking and social formation including mutual mis translation and mis appropriation of the other s discourse and practices

The Hebrew Bible and Philosophy of Religion Jaco Gericke,2012-11-01 This study pioneers the use of philosophy of religion in the study of the Hebrew Bible After identifying the need for a legitimate philosophical approach to Israelite religion the volume traces the history of interdisciplinary relations and shows how descriptive varieties of philosophy of religion can aid the clarification of the Hebrew Bible s own metaphysical epistemological and moral assumptions Two new interpretative methodologies are developed and subsequently applied through an introduction to what the biblical texts took for granted about the nature of religious language the concept of deity the properties of Yhwh the existence of gods religious epistemology and the relation between religion and morality

Stalnaker,2012-11-09 This book contains essays on current projects from several rising figures in religious ethics collected into a field shaping anthology of new work As a whole the book argues that religious ethics should make cultural and moral diversity central to its analysis This can include three main aspects in various combinations first describing and interpreting particular ethics on the basis of historical anthropological or other data second comparing such ethics in the plural which requires rigorous reflection on the methods and tools of inquiry and third engaging in normative argument on

the basis of such studies and thereby speaking to particular moral controversies as well as contemporary concerns about overlapping identities cultural complexity and plurality universalism and relativism and political problems regarding the coexistence of divergent groups

Voice of the Buddha Maria Heim, 2018-09-12 What would a Buddhist theory of texts look like through the lens of the 5th century thinker Buddhaghosa In *Voice of the Buddha* Maria Heim reads from the principal commentator editor and translator of the Theravada intellectual tradition yielding fresh insight into all three collections of the early Pali texts Vinaya the Suttas and the Abhidhamma Buddhaghosa considered the Buddha to be omniscient the Buddha's words to be oceanic Every word passage book indeed the corpus as a whole is taken to be endless and immeasurable in Buddhaghosa's view Commentarial practice thus requires disciplined methods of expansion drawing out the endless possibilities for meaning and application Heim considers Buddhaghosa's theories of texts and follows his practices of exegesis to discover how he explored scripture's infinity By examining the significance of the immeasurability of scripture in commentarial practice and as a general principle this book offers new tools to understand the huge scriptural and commentarial literature of the Pali tradition And by taking seriously a traditional commentator's theory of texts it beckons us to learn from commentaries themselves how we might read and interpret them and the texts on which they comment

Pain and Its Ending Carol Anderson, 2013-10-11 Demonstrates how the four noble truths are used throughout the Pali canon as a symbol of Buddha's enlightenment and as a doctrine within a larger network of Buddha's teachings Their unique nature rests in their function as a proposition and as a symbol in the Theravada canon

[This Life](#) Martin Hägglund, 2019 Hägglund argues that a faith not in God or eternal life but in the finite temporal life we lead here on earth is one that gives that life far greater depth of meaning In contrast to the traditional religious faith in eternity he proposes a secular faith in the value of living in time His book provides not only a critique of religious ideals but also a positive alternative understanding of the beliefs and values that can motivate us to live lives of meaning in the here and now adapted from jacket

Freedom and Tradition in Hegel Thomas A. Lewis, 2005-05-12 Freedom and Tradition in Hegel stands at the intersection of three vital currents in contemporary ethics debates over philosophical anthropology and its significance for ethics reevaluations of tradition and modernity and a resurgence of interest in Hegel Thomas A. Lewis engages these three streams of thought in light of Hegel's recently published *Vorlesungen über die Philosophie des Geistes* Drawing extensively on these lectures Lewis addresses an important lacuna in Hegelian scholarship by first providing a systematic analysis of Hegel's philosophical anthropology and then examining its fundamental role in Hegel's ethical and religious thought Lewis contends that Hegel's anthropology seeks to account for both the ongoing significance of the religious and philosophical traditions in which we are raised and our ability to transcend these traditions Pursuing the implications of the integral role of practice in Hegel's anthropology Lewis argues for a more progressive interpretation of Hegel's ethics and a Hegelian critique of Hegel's most problematic statements on political and social issues Lewis concludes that Hegel offers a powerful strategy for reconciling freedom and tradition This fresh interpretation of Hegel's work provides a challenging new perspective on his ethical and religious thought It will be of significant value to students and scholars in religious studies philosophy and political theory

questions concerning tourism and religion this book focuses on the nature of cultural exchange spiritual tourism and religious choice in modernity With an aim of reframing questions of religious modernity each chapter offers a new perspective on the phenomenon of spiritual seeking in Thailand Offering an analysis of why meditation practices appeal to non Buddhists this book contends that religions do not travel as whole entities but instead that partial elements resonate with different cultures and are appropriated over time Drifting Through Samsara Masoumeh Rahmani,2022 Introduction 1 Conversion Career 2 Tacit Conversion 3 Pragmatic Leaving 4 Vipassana Disaffiliation Narratives 5 Disaffiliation Trajectories 6 Deconversion Breathing New Self into Not Self Bibliography Appendix 1 Vipassana Ten day Course Timetable Appendix 2 Participants Information Liberalism Versus Postliberalism John Allan Knight,2013 The book provides an original analysis of the central philosophical differences between liberal and postliberal theology Knight argues that important developments in philosophy of language reveal serious problems with the central methodological commitments of liberalism and postliberalism and suggest ways in which the divide can be bridged
