Volume 1** Tibor Kiss, Artemis Alexiadou, 2015-02-17 This Handbook represents the development of research and the current level of knowledge in the fields of syntactic theory and syntax analysis Syntax can look back to a long tradition Especially in the last 50 years however the interaction between syntactic theory and syntactic analysis has led to a rapid increase in analyses and theoretical suggestions This second edition of the Handbook on Syntax adopts a unifying perspective and therefore does not place the division of syntactic theory into several schools to the fore but the increase in knowledge resulting from the fruitful argumentations between syntactic analysis and syntactic theory It uses selected phenomena of individual languages and their cross linguistic realizations to explain what syntactic analyses can do and at the same time to show in what respects syntactic theories differ from each other It investigates how syntax is related to neighbouring disciplines and investigate the role of the interfaces especially the relationship between syntax and phonology morphology compositional semantics pragmatics and the lexicon The phenomena chosen bring together renowned experts in syntax and represent the consensus reached as to what has to be considered as an important as well as illustrative

syntactic phenomenon The phenomena discussed do not only serve to show syntactic analyses but also to compare theoretical approaches with each other

Sixty years of Swedish computational lexicography Dana Dannélls, Kristian Blensén, Lars Borin, 2025-06-02 Swedish computational lexicography has a long history at the University of Gothenburg both in its primary role as a central aspect of the scientific study of vocabulary and also as an infrastructural component for conducting research based on language data Starting in the 1960s the Språkdata research group pioneered corpus supported lexicography for Swedish forming the basis for successive editions of two main descriptive dictionaries of contemporary Swedish SAOL and SO Language technological lexical resources for Swedish have been developed by the research unit research infrastructure Språkbanken Text since the turn of the millennium most recently in the framework of the Swedish FrameNet initiative After two decades of separation these two largely mutually independently developed strands of computational lexicography have now joined forces under the umbrella of Språkbanken's lexical research infrastructure to advance the field technically methodologically and scientifically The result is a vibrant and multifaceted research environment intertwined with and supported by a closely integrated cutting edge computational infrastructure for working with lexical data
