Gemeinsam wie Wien 1900 oder Budapest 1905 werden aus drei Blickwinkeln untersucht: dem österreichischen, dem ungarischen und jenem der Doppelmonarchie. William M Johnston bietet eine opulente Fülle neuartiger Interpretationen von zahllosen Figuren, Ideen und historischen Thesen und leistet so einen wesentlichen Beitrag zu einer völlig neuen Sicht auf die Kulturgeschichte der ausgehenden Monarchie und ihres Nachlebens. *Contemporary Translation in Transition* Maria Khotimsky, Friederike Reents, Henrieke Stahl, William Waters, 2025-01-07 This book investigates the hybrid multi-form nature of contemporary poetry with particular emphasis on recent Russian lyric and its translations into German and English. Poetry translation thriving and obstinately open-ended is not so much a defined process as a practice of ongoing transit across linguistic and national borders. The book's innovative format invites contemporary poets into dialogue with literary translators, editors, publishers and scholars; the conversations among their wide-ranging essays, poems and exchanges both model and investigate the work of transcultural dialogue. As a kind of transition, poetry translation engages the composition and disintegration of forms, revises relations of producers to receivers, mixes and rethinks genres and media, translates itself as multilingual writing or language experiment. Multiple translations of a poem do not compete but interact, reshaping the putative gulf between source and target language. In the end, this volume underscores the aesthetic productivity of poetry translation and the need to nurture it. A must-read for anyone interested in the dynamic interplay of poetry, language and culture. **Rainer Maria Rilke, 1893-1908: Poetry as Process - A Poetics of Becoming** Ben Hutchinson, 2017-12-02 Rainer Maria Rilke's early verse is often seen as having little relevance to the great achievement of the middle years, the *Neue Gedichte*. Yet the very different styles of the juvenilia and this new maturity are united by a preoccupation with processes of motion and growth which governs both his life and work. In this meticulous philological study, Ben Hutchinson reassesses every level of Rilke's early poetry from its motives and metaphors to its very grammar and syntax in order to trace what he terms a poetics of becoming. With careful attention to rhythm, resonance and linguistic detail, he illuminates both the hidden patterns of the poetry and the artistic context of the fin de siècle. From its roots in the intellectual climate of the 1890s to the poems inspired by Rodin in 1908, Rilke's stylistic development is set against the surprising consistency with which he pursues this poetics of becoming. Reading with a Difference Arthur F. Marotti, 1993 *Reading with a Difference* is a collection of eighteen essays that examines how issues of gender, race and cultural identity inform texts from the seventeenth century to the present. Together, the contributions document recent significant shifts occurring in the theoretical approach to the texts they study and illustrate how shifts in each of these categories affect how the others are viewed. The first section of this anthology explores the notion that identity, particularly gender identity, is a cultural construct. The essays in the second section consider ways in which race and gender intersect with cultural identity and how encounters between different cultures challenge any identity constructed in isolation. First published in the journal *Criticism*, these essays offer no blueprint for reading. Instead, they encourage a rereading of canonical texts and a questioning of how these texts face matters of

gender race and cultural identity how they respond to the differences and the incongruities within the cultures from which they arise and to which they speak

The Translingual Imagination Steven G. Kellman, 2000-01-01 It is difficult to write well even in one language Yet a rich body of translingual literature by authors who write in more than one language or in a language other than their primary one exists The Translingual Imagination is a pioneering study of the phenomenon which is as ancient as the use of Arabic Latin Mandarin Persian and Sanskrit as *linguae francae* Colonialism war mobility and the aesthetics of alienation have combined to create a modern translingual canon Opening with an overview of this vast subject Steven G. Kellman then looks at the differences between ambilinguals those who write authoritatively in more than one language and monolingual translinguals those who write in only one language but not their native one Kellman offers compelling analyses of the translingual situations of African and Jewish authors and of achievements by authors as varied as Mary Antin Samuel Beckett Louis Begley J. M. Coetzee Joseph Conrad Eva Hoffman Vladimir Nabokov and John Sayles While separate studies of individual translingual authors have long been available this is the first in-depth study of the general phenomenon of translingual literature
