workshops around the world the authors have discovered that when one immerses oneself in accounts of NDEs one can experience love hope healing and a sense of purpose This is the only book that systematically encourages the reader to create a spiritual and psychological healing practice based on NDEs Each chapter includes an account of a fascinating NDE followed by a series of questions meditations exercises and video links The reader is encouraged to contemplate these stories and their own lives It is truly a profound guide to both living and dying

Redundant God? Christian Faith in the Light of Evolution David de Pomerai,2020-11-24 Does evolution make faith superfluous Part One of this book looks across the whole spectrum of biology from molecules to ecosystems to human societies and at the fossil history of life on earth concluding that evolution is the only explanatory concept that makes sense of it all Doesn t this demolish the core Christian claim that God created the entire universe Part Two explores whether God might instead embrace that universe with love and compassion without micromanaging or interfering Jesus bears witness to such a God in his kingdom teaching calling Christians to follow his example of humility serving others and valuing what the world considers unimportant This suggests paths of repentance and restraint that are urgently needed in a world facing rapid climate change and likely mass extinction
