Love Sick Lessons On Relationships From Biological Psychiatry

Jonathan Savitz, Robert H. Yolken

Love Sick Lessons On Relationships From Biological Psychiatry:

Love Sick Andrew Abarbanel,2000-08 From women who love too much and men who dance away to men from Mars addicted to women from Venus there have been dozens of books about the symptoms of failed relationships Now a renowned psychiatrist offers a look behind the symptoms and goes right to the source his belief that imbalances in the brain chemistry undermine a tremendous number of relationships **Psychiatry September 2001--August 2002** Phillip Richard Slavney,2001 **American Book Publishing Record** ,2005 *The British National Bibliography* Arthur James Wells,2002

Microorganisms and Mental Health Jonathan Savitz,Robert H. Yolken,2023-02-21 This volume contains up to date contributions written by leading experts in the role played by various microorganisms in psychiatric and neurological illness The initial chapters present an evolutionary framework for the impact of microorganisms on behavior This is followed by historical and epidemiological perspectives of the role of viruses in psychiatric illness Subsequent chapters focus on different classes of microorganisms and psychiatric illnesses and emphasize diverse research approaches ranging from preclinical models to therapeutic interventions **Forthcoming Books** Rose Arny,2000 Mental Health, Race and Culture Suman Fernando,2010-01-28 This powerful text offers a unique analysis of the impact of race and culture on contemporary issues in mental health Drawing on extensive international experience Fernando challenges the traditional ideas that inform practice in clinical psychology and psychiatry in order to promote new and alternative ways of thinking Covering both theoretical perspectives and practical implications this insightful text discusses perceptions of ethnicity and identity compares practices around the world and looks at racism in mental health services This fully revised expanded and updated edition of a seminal text offers students and practitioners alike a comprehensive and reliable study of both western and non western psychiatry and mental health practices New to this Edition Covers trauma and psychosocial support Looks at the new discourses in mental health of recovery spirituality and well being Examines the mental health of refugees Refers to specific developments in low income countries including Asia and Africa *Structural Competency in Mental Health and Medicine* Helena Hansen,Jonathan M. Metzl,2019-03-28 This book documents the ways that clinical practitioners and trainees have used the structural competency framework to reduce inequalities in health The essays describe on the ground ways that clinicians educators and activists craft structural interventions to enhance health outcomes student learning and community organizing around issues of social justice in health and healthcare Each chapter of the book begins with a case study that illuminates a competency in reorienting clinical and public health practice toward community institutional and policy level intervention based on alliances with social agencies community organizations and policy makers Written by authors who are trained in both clinical and social sciences the chapters cover pedagogy in classrooms and clinics community collaboration innovative health promotion approaches in non health sectors and in public policies offering a view of effective care as structural intervention and a road map toward its implementation *Structural Competency in Mental Health and Medicine* is a cutting

edge resource for psychiatrists primary care physicians addiction medicine specialists emergency medicine specialists nurses social workers public health practitioners and other clinicians working toward equality in health *Being Human: Relationships and You* Knud S. Larsen, Reidar Ommundsen, Kees van der Veer, 2015-04-08 This book represents a new look at social psychology and relationships for the discerning reader and university student The title of the book argues forcefully that the very nature of being human is defined by our relationships with others our lovers family and our functional or dysfunctional interactions Written in easy to follow logical progression the volume covers all major topical areas of social psychology with results of empirical research of the most recent years included A common project between American and European social psychologists the book seeks to build a bridge between research findings in both regions of the world In doing so the interpretations of the research takes a critical stand toward dysfunction in modern societies and in particular the consequences of endless war and repression Including topics as varied as an overview of the theoretical domains of social psychology and recent research on morality justice and the law the book promises a stimulating introduction to contemporary views of what it means to be human A major emphasis of the book is the effect of culture in all major topical areas of social psychology including conceptions of the self attraction relationships and love social cognition attitude formation and behavior influences of group membership social influence persuasion hostile images aggression and altruism and moral behavior Sex and Seclusion, Class and Custody ,2016-08-29 This innovative collection of essays employs historical and sociological approaches to provide important case studies of asylums psychiatry and mental illness in England Wales Scotland and Ireland Leading scholars in the field working on a variety of geographical temporal socio cultural economic and political contexts show how class and gender have historically affected and conditioned the thinking language and processes according to which society identified and responded to the mentally ill Contributors to this volume focus on both class and gender and thus are able to explore their interaction whereas previous publications addressed class or gender incidentally partially or in isolation By adopting this dual focus as its unifying theme the volume is able to supply new insights into such interesting topics as patient careers the relationship between lay and professional knowledge of insanity the boundaries of professional power and the creation of psychiatric knowledge Particularly useful to student readers and to those new to this academic field is a substantive and accessible introduction to existing scholarship in the field which signposts the ways in which this collection challenges adjusts and extends previous perspectives
