Lucien Leuwen 2 The Telegraph:

Lucien Leuwen Stendhal, 1951 *The Return of Thematic Criticism* Werner Sollors, 1993 In the glory days of high modernist formalism it was anathema to speak about the content of a work of art Those days are gone and critical practice now is largely thematic practice A focus on the themes of literature informs feminist new historicist ethnic and even second generation deconstructionist approaches However such practice is not always recognized The specter of theoretically impoverished positivism still haunts thematic analysis making it the approach to literature that dare not speak its name This volume brings together for the first time an international group of writers critics and theoreticians who have thought deeply about this issue How can we determine the theme of a given text May the focus on form be the theme of a certain moment Can the motif be understood as a formal category What operations permit us to say that three or four texts constitute variants of the same theme The contributors challenge the conventional dismissal of merely thematic approaches and offer the reader different ways of tackling the issue of what a piece of writing is about The work here comes out of such diverse intellectual traditions as Russian film theory French phenomenology Foucault narratology the Frankfurt School intellectual history Geistesgeschichte psychoanalytic criticism linguistics ideological criticism Proppian folklore studies and computerized plot summary models In addition to a collection of aphorisms from Plato to Robert Coover and a group of general and theoretical essays this volume contains examples of practical engagement with such topics as literary history Shakespeare autumn poetry anti-Semitism fading colors bachelors Richard Wagner and the Mexican Revolution No comparable volume exists *The Strange Liberalism of Alexis de Tocqueville* Roger Boesche, 2019-05-15 The Strange Liberalism of Alexis de Tocqueville places Tocqueville's political thought in the context of his time and place and shows why his ideas defy easy classification Responding to the twentieth century tendency to impose anachronistic political categories on Tocqueville Roger Boesche reminds us that like Stendhal Balzac Hugo Lamartine Flaubert and other writers of his generation he was a nineteenth century Frenchman reacting to contemporary French concerns aspirations and anxieties
