DON FOWLER

Lucretius On Atomic Motion A Commentary On De Rerum Natura Lines 1 33

Bill Gladhill

Lucretius On Atomic Motion A Commentary On De Rerum Natura Lines 1 33:

A Commentary on Lucretius De Rerum Natura Don Fowler,2002 Lucretius theory of atomic motion is one of the most difficult and technical parts of De rerum natura and for that reason has hitherto been neglected by commentators This is the first commentary to take account of the remarkable discoveries and re evaluations in the field of Hellenistic philosophy over the past thirty years which have been stimulated by the publication of many more Epicurean fragments from Herculaneum

The Sublime in Antiquity James I. Porter,2016-03-07 Detailed new account of the historical emergence and conceptual reach of the sublime both before and after Longinus

The Oxford Handbook of Epicurus and Epicureanism Phillip Mitsis,2020 Most complete and detailed account of all areas of Epicurus s philosophy in English Includes a detailed and authoritative account of Philodemus Examines later historical figures who were influenced by Epicureanism Explores the Herculaneum papyri and the inscription of Diogenes of Oenoanda Book jacket

Natural Theology in the Scientific Revolution Katherine Calloway,2015-10-06 In the seventeenth century scientific discoveries called into question established Christian theology It has been claimed that contemporary thinkers contributed to this conflict model by using the discoveries of the natural world to prove the existence of God Calloway challenges this view by close examination of five key texts of the period

Lucretius on Atomic Motion Don Fowler,2002 This is the first commentary on Lucretius theory of atomic motion one of the most difficult and technical parts of De Rerum Natura

Deleuze-Lucretius Encounter Ryan J. Johnson,2016-12-05 More than any other 20th century philosopher Deleuze considers himself an apprentice to the history of philosophy But scholarship has ignored one of the more formative influences on Deleuze Lucretian atomism Deleuze s encounter with Lucretius sparked a way of thinking that resonates throughout all his writings from immanent ontology to affirmative ethics from dynamic materialism to the generation of thought itself Filling a significant gap in Deleuze Studies Ryan J Johnson tells the story of the Deleuze Lucretius encounter that begins and ends with a powerful claim Lucretian atomism produced Deleuzianism

Didactic Poetry of Greece, Rome and Beyond Lilah Grace Canevaro,Donncha O'Rourke,2019-12-01 Here a team of established scholars offers new perspectives on poetic texts of wisdom learning and teaching related to the great line of Greek and Latin poems descended from Hesiod In previous scholarship a drive to classify Greek and Latin didactic poetry has engaged with the near total absence in ancient literary criticism of explicit discussion of didactic as a discrete genre The present volume approaches didactic poetry from different perspectives the diachronic mapping the development of didactic through changing social and political landscapes from Homer and Hesiod to Neo Latin didactic and the comparative setting the Graeco Roman tradition against a wider backdrop including ancient near eastern and contemporary African traditions The issues raised include knowledge in its relation to power the cognitive strategies of the didactic text ethics and poetics the interplay of obscurity and clarity playfulness and solemnity the authority of the teacher

Allusion and Allegory Boris Kayachev,2016-08-08 The Ciris has received a certain amount of scholarly

attention during the twentieth century but on the whole has failed to meet with an adequate appreciation This book aims to vindicate the *Ciris* mainly by exploring its use of pre Virgilian poetic texts largely ignored in previous scholarship The core of the book consists of a discursive literary commentary divided into chapters that examine consecutively the poem's main narrative units Viewing allusion and allegory as intrinsic features of poetic composition rather than mere artistic devices the book explores among more prominent intertexts Apollonius *Argonautica* and Callimachus *Hecale* Lucretius and Catullus 64 Allusions are also suggested to Homer and Empedocles Theocritus Moschus and Bion Nicander and Euphorion Choerilus of Samos and Asius of Samos Ennius and Cicero Through its intricate web of references to poetic intertexts the *Ciris* it is argued creates an implicit allegorical pattern with an original poetological message Allusion and Allegory is thus the first book length study to offer a coherent literary interpretation of this controversial poem Lucretius on Creation and Evolution Gordon Lindsay Campbell, 2003 Lucretius account of the origin of life the origin of species and human prehistory is the longest and most detailed account extant from the ancient world It gives an anti teleological mechanistic theory of zoogony and the origin of species that does away with the need for any divine aid or design in the process and accordingly it has been seen as a forerunner of Darwin's theory of evolution This commentary locates Lucretius in both the ancient and modern contexts and treats Lucretius ideas as very much alive rather than as historical concepts The recent revival of creationism makes this study particularly relevant to contemporary debate and indeed many of the central questions posed by creationists are those Lucretius attempts to answer **Rethinking Roman Alliance** Bill Gladhill, 2016-05-31 In this book Bill Gladhill studies one of the most versatile concepts in Roman society the ritual event that concluded an alliance a *foedus* ritual alliance *Foedus* signifies the bonds between nations men men and women friends humans and gods gods and goddesses and the mass of matter that gives shape to the universe From private and civic life to cosmology Roman authors time and time again utilized the idea of ritual alliance to construct their narratives about Rome To put it succinctly Roman civilization in its broadest terms was conditioned on ritual alliance Yet lurking behind every Roman relationship in the shadows of Roman social and international relations in the dark recesses of cosmic law were the breakdown and violation of ritual alliance and the release of social pollution *Rethinking Roman Alliance* investigates Roman culture and society through the lens of *foedus* and its consequences
