Lucretius On The Nature Of Things

Titus Lucretius Carus

Lucretius On The Nature Of Things:

The Nature of Things Lucretius, 2007-07-26 Lucretius poem On the Nature of Things combines a scientific and philosophical treatise with some of the greatest poetry ever written. With intense moral fervour he demonstrates to humanity that in death there is nothing to fear since the soul is mortal and the world and everything in it is governed by the mechanical laws of nature and not by gods and that by believing this men can live in peace of mind and happiness. He bases this on the atomic theory expounded by the Greek philosopher Epicurus and continues with an examination of sensation, sex, cosmology, meteorology and geology, all of these subjects made more attractive by the poetry with which he illustrates them.

The Medications of Marcus Aurelius Translated by George Long. On the Nature of Things Lucretius, 2001-09-01. Martin Ferguson Smith's work on Lucretius is both well known and highly regarded. However his 1969 translation of *De Rerum Natura* long out of print is virtually unknown. Readers will share our excitement in the discovery of this accurate and fluent prose rendering. For this edition Professor Smith provides a revised translation, new Introduction, headnotes and bibliography. On the Nature of Things Titus Lucretius Carus, 2010-01-01. Titled *De rerum natura* in Latin, *On the Nature of Things* written by Titus Lucretius Carus and translated by John Selby Watson is an epic poem and philosophical essay in one. Written with the intent of explaining Epicurean philosophy to the Romans, the original poem was divided into six books and written in dactylic hexameter. The overarching principle in the book explains the human role in a universe ruled by chance. Notable is the absence of the gods the Romans depended upon though LUCRETIUS invokes the goddess Venus in the poem's opening lines he uses her merely as an allegory for sexual and reproductive power. Other themes throughout the poem include the nature of the soul and mind, why we sense and feel and think, principles of the void and atomism, the creation and evolution of the world and celestial and terrestrial phenomena and their differences. It tries to explain human life and purpose in a nutshell or the nature of the Universe a way for people to cope and understand in a confused and terrifying world. TITUS LUCRETIUS CARUS c. 99 BC - 55 BC was a Roman philosopher and poet. Very little is known about his life and his only known work is the epic poem on Epicurean philosophy *On the Nature of Things*. He dedicated the work to the famous Roman orator and poet Gaius Memmius who may have been a friend and it is thought that he may have died before he finished editing the poem as it ends rather abruptly. The book's translator JOHN SELBY WATSON 1804-1884 was a British translator and writer, convicted and sentenced to life imprisonment for murdering his wife in 1872. Lucretius on the Nature of Things Lucretius, 2011-09. Titus Lucretius Carus ca. 99-55 BCE was a Roman poet and philosopher whose only known work is an epic philosophical poem laying out the beliefs of Epicureanism. *De rerum natura* translated into English as *On the Nature of Things*. **Of the Nature of Things** Titus Lucretius Carus, 1921.

the Nature of Things Titus Lucretius Carus, 1995 Titus Lucretius Carus was probably born in the early first century B C and he died in the year 55 Writing in the waning days of the Roman Republic as Rome's politics grew individualistic and treacherous its high life wanton its piety introspective and morbid Lucretius sets forth a rational and materialistic view of the world which offers a retreat into a quiet community of wisdom and friendship Even to modern readers the sweep of Lucretius's observations is remarkable A careful observer of nature he writes with an innocent curiosity into how things are put together from the oceans lands and stars to a mound of poppy seeds from the applause of a rooster's wings to the human mind and soul Yet Lucretius is no romantic Nature is what it is fascinating purposeless beautiful deadly Once we understand this we free ourselves of superstitious fears becoming as human and as godlike as we can be The poem then is about the universe and how human beings ought to live in it Epicurean physics and morality converge Lucretius Titus Lucretius Carus, 1921 The stress on endurance self restraint and power of the will to withstand calamity can often seem coldhearted It is Epictetus a lame former slave exiled by Emperor Domitian who offers by far the most precise and humane version of Stoic ideals The Discourses assembled by his pupil Arrian catch him in action publicly setting out his views on ethical dilemmas Committed to communicating with the broadest possible audience Epictetus uses humor imagery conversations and homely comparisons to put his message across The results are perfect universal justice and calm indifference in the face of pain
