(Frater),2001 HARNESS THE MOST POWERFUL ENERGIES YOU HAVE EVER EXPERIENCED Unlock the powerful energies raised during the sex act and use them to manifest your deepest desires During the sex act your attention becomes focused into a laser beam of concentration This power of concentrated thought is the foundation of all magical systems Sex Magic s secret is that it s a tremendously powerful and easily learned way to consciously direct sexual energy and accomplish material and personal goals Male and female energies are often entirely different and it would be folly to deny this but experience shows that female magicians can be particularly successful in using and developing Sex Magic Consequently this book is aimed at both male and female readers unlike more traditional teachings written for men Of all secret lore Sex Magic has been reputed through the centuries to be the most dangerous Today we know that this attitude was largely a reflection of the hostility held towards the flesh held by repressive religions If we learn one thing from the shamanic cultures it is the strong emphasis upon the role of the body in magic Mind and Body are two facets of the One Thing in which Will Imagination and Gnostic Trance are the three pillars of success Contrary to the principles of Eastern Tantra Western Sex Magic emphasizes the importance of actual orgasm both male and female Orgasm is the moment when the walls between consciousness and subconsciousness are sundered and direct access to the deeper levels of the psyche become possible freeing up possible paranormal powers Orgasm itself is sufficient to achieve gnostic trance provided that control is maintained and one does not simply lose consciousness as most people do at the moment of ecstasy Secrets Western Sex Magic teaches one of the oldest disciplines of this secret lore It is a complete system of Sex Magic in theory and practice with exercises to develop related abilities for visualization concentration breath control psychic energy arousal and flow along with full instructions on the projection of sexual energies for healing and manifestation their use in Sigil Magic and the charging of Amulets Talismans Group Ritual and the assumption of god forms when working as a priestly couple and the divine Chymical Marriage of ultimate union This book is also an introduction to the entire field of practical magic using our natural interest and involvement in sexual pleasure to illustrate and develop magical abilities and techniques [Magic and Mysticism](#) Arthur Versluis,2007 Provides overview from antiquity onwards on various Western religious esoteric movements This book includes topics such as alchemy Gnosticism Hermeticism Rosicrucianism Theosophy and more *The Temple of High Magic* Ina Custers-van Bergen,2010-03-09 A practical guide to pathworking and other esoteric techniques from the

ancient mystery schools predating Christianity Explains the dynamics of both group ritual and solo practice Shows that temples of high magic are not mere physical structures but inner edifices created by sustained meditative practice Explains why this practice is sometimes called the Yoga of the West Before the advent of Christianity early civilizations had at the heart of their spiritual traditions mystery schools that offered a corpus of training methods in what is now called magic The persecution of heresies that followed the establishment of Christianity as Rome's state religion a persecution that reached its high point during the Middle Ages forced the degradation and disappearance of this training system While the knowledge of these mystery traditions jealously guarded by secret societies has begun to emerge the actual techniques and practices of spiritual magic have remained hidden The Temple of High Magic provides the practical knowledge of these techniques for modern spiritual seekers who wish to incorporate the proven esoteric techniques of the magi into their lives This book explains the dynamics of group ritual and solo practice as well as the critical role played by the kabbalistic tree of life the key to inner knowledge Ina C sters van Bergen shows that temples of high magic are not mere physical structures but are the inner edifices willed into being by a sustained meditative practice and pathworking using key symbols from ancient Hebraic and Egyptian traditions Sometimes called the Yoga of the West this spiritual magic is a system of esoteric development that seeks to create full union between the magician and the divine

Religion and Magic in Western Culture

Daniel Dubuison, 2016-04-08 In the history of Western culture theology and science a strict dichotomy exists between religion and magic religion as the intellectually and morally superior one magic as the primitive superstitious demonic other The present work aims to break with this tradition and traces the origin of this dichotomy as well as its many purposes Whose powers does it serve Which interests and ideological stakes does it conceal Moreover the author proposes a new epistemological framework for the study of magisms as well as their rehumanisation and argues for a rehabilitation of their studies

Magic and the Supernatural in Medieval English Romance Corinne J. Saunders, 2010 This study looks at a wide range of medieval English romance texts including the works of Chaucer and Malory from a broad cultural perspective to show that while they employ magic in order to create exotic escapist worlds they are also grounded in a sense of possibility and reflect a complex web of inherited and current ideas Book Jacket

Practical Magic and the Western Mystery

Tradition Walter Ernest Butler, 1986

Ritual Embodiment in Modern Western Magic

Damon Zacharias Lycourinos, 2017-11-15 In the Western world magic has often functioned as an umbrella term for various religious beliefs and ritual practices that seek to influence events by harnessing supernatural power The definition of these myriad occult and esoteric traditions have however usually come from those that are opposed to its practice notably authorities in religious legal and intellectual spheres This book seeks to provide a new perspective directly from the practitioners of modern Western magic by exploring how a distinctive mode of embodiment and consciousness can produce a transition from an ordinary to a magical worldview Starting with an introduction to the study of magic in the Western academy the book then

presents the author's own participant observation of five ethnographic case studies of modern Western magic. The focus of these ethnographic case studies is directed towards ideas and methods the informants employ to self-legitimise and self-represent as magicians. It concludes by discussing the phenomenological implications and issues around embodiment that are inherent to the contemporary practice of magic. This is a unique insight into the lived experience of practitioners of modern magic. As such, it will be of keen interest to scholars of the Occult and New Religious Movements as well as Religious Studies academics examining issues around the embodiment and the anthropology of religion. **Magic and Alchemy** Robert Michael Place, 2009. The word magic evokes many ideas from a stage magician performing illusions to the pyrotechnics of witches and wizards depicted in movies and on television. This book covers the history, practices and philosophies of magic and alchemy in Western history. It also looks at the tools used by magicians and alchemists. **A Worldbuilder's Guide to Magic** Brent A. Stypczynski, 2021-10-25. Constructing a functional system of magic that helps readers suspend disbelief is a crucial part of worldbuilding in the fantasy genres. Yet creating a believable, compelling and original fictional universe can be daunting. To help inspire writers, this guide provides an overview of how magic has been understood in history and used in myth, legend and modern fiction. Different forms of magic are explored, and a broad range of stories from Nordic myths to modern novels are described and referenced. Discussion explores how magic as a concept shapes and is shaped by fictional worlds and societies. **Challenging Realities: Magic Realism in Contemporary American Women's Fiction** M. Ruth Noriega Sánchez, 2011-11-28. Les arrels del realisme màgic en els escrits de Borges i altres autors d'Amèrica Llatina han estat ampliament reconeguts i ben documentades, produint una sèrie d'estudis crítics molts dels quals figuren en la bibliografia d'aquest treball. Dins d'aquest marc, aquest llibre presenta als lectors una varietat d'escriptors de grups ètnics coneguts i menys coneguts i les col·loca en un context literari en el que es tracten tant a nivell individual com a escriptors així com a nivell col·lectiu com a part d'un moviment artístic més ampli. Aquest llibre és el resultat del treball realitzat a les universitats de Sheffield i la de València i representa una valuosa investigació i una important contribució als estudis literaris.

Introduction to Magic, Volume II Julius Evola, The UR Group, 2019-03-12. Authentic initiatic practices, rituals and wisdom collected by the UR Group. Shares a rigorous selection of initiatory exercises including instructions for creating the diaphanous body of the Opus magicum, establishing initiatic consciousness after death and the construction of magical chains, the enchained awareness of initiates. Offers studies of mystery traditions throughout history, presenting not only the principles themselves but also witnesses to them and their continual validity today. The Gruppo di UR was a group of Italian esotericists who collaborated from 1927 to 1929. The purpose of this group was to study and practice ancient rituals gleaned from the mystery traditions of the world, both East and West, in order to attain a state of superhuman consciousness and power to allow them to act magically on the world. They produced a monthly journal containing techniques for spiritual realization, accounts of personal experiences, translations of ancient texts and original essays on esoteric topics. The group

included a distinguished line up of occultists neo pagans freemasons Anthroposophists orientalist poets and members of high society The prime movers of the group were Arturo Reghini 1878 1946 a Pythagorean mathematician and reviver of a spiritual Freemasonry and Julius Evola 1898 1974 then a young philosopher with a precocious mastery of the esoteric doctrines of East and West Many years later in 1971 Evola gathered these essays into three volumes Inner Traditions published Volume I in 2001 under the title Introduction to Magic Rituals and Practical Techniques for the Magus This volume the second in the series complements the first one yet they are not strictly sequential and their contents can be read in any order Volume II shares authentic initiatic wisdom and a rigorous selection of initiatory exercises including instructions for creating the diaphanous body of the Opus magicum establishing initiatic consciousness after death and the construction of magical chains the enchained awareness of initiates It offers studies of mystery traditions throughout history presenting not only the principles themselves but also witnesses to them and their continual validity today This series shows that the Magic of the UR Group meant an active and affirmative attitude toward individual development handed down from a primordial tradition and discernable in alchemy Hermetism esoteric religious doctrines indigenous practices Tantra Taoism Buddhism Vedanta and the pagan mysteries of the West Although some of the practical experiments demanded extraordinary efforts both individual and collective there is incalculable value here even for the less heroic for merely reading these essays leaves a permanent mark on the reader

Handbook of Contemporary Paganism Murphy Pizza,James R. Lewis,2009
