Jo Boaler,2002-12-18 NORTH AMERICAN RIGHTS ONLY This is a revised edition of Experiencing School Mathematics first published in 1997 by Open University Press Jo Boaler This revised edition is for sale in North America only The first book to provide direct evidence for the effectiveness of traditional and reform oriented teaching methods Experiencing School Mathematics reports on careful and extensive case studies of two schools that taught mathematics in totally different ways Three hundred students were followed over three years providing an unusual and important range of data including observations interviews questionnaires and assessments to show the ways students beliefs and understandings were shaped

by the different approaches to mathematics teaching The interviews that are reproduced in the book give compelling insights into what it meant to be a student in the classrooms of the two schools Questions are raised about and new evidence is provided for the ways in which traditional and reform oriented mathematics teaching approaches can impact student attitude beliefs and achievement the effectiveness of different teaching methods in preparing students for the demands of the real world and the 21st century the impact of tracking and heterogeneous ability grouping and gender and teaching styles the potential of different teaching approaches for the attainment of equity The book draws some radical new conclusions about the ways that traditional teaching methods lead to limited forms of knowledge that are ineffective in non school settings This edition has been revised for the North American market to show the relevance of the study results in light of the U S reform movement the math wars and debates about teachers assessment and tracking The details of the study have been rewritten for an American audience and the results are compared with research conducted in the U S This is an important volume for mathematics teachers and researchers education policymakers and for students in mathematics education courses NOTE This is a revised edition of *Experiencing School Mathematics* first published in 1997 by Open University Press Jo Boaler This revised edition is for sale in North America only Edexcel Higher David Baker,2001 Planned developed and written by practising classroom teachers with a wide variety of experience in schools this maths course has been designed to be enjoyable and motivating for pupils and teachers The course is open and accessible to pupils of all abilities and backgrounds and is differentiated to provide material which is appropriate for all pupils It provides spiral coverage of the curriculum which involves regular revisiting of key concepts to promote familiarity through practice This book designed for the higher level of the GCSE adheres to the Edexcel specification Sociology of Education Today J. Demaine,2001-03-13 It is almost twenty years since Macmillan published Jack Demaine s *Contemporary Theories in the Sociology of Education* This completely new book brings together important recent work of the most prominent sociologists working in the field of education today and reaffirms the reputation of sociology of education as an international discipline at the forefront of original research and analysis The book examines a wide range of empirical issues and different theoretical perspectives **The Toxic Classroom** Richard Steward,2020-06-09 The Toxic Classroom offers a wide ranging look at education today and explores in detail the pressures children experience as a result of constant change digital technology and political interference Beginning with what it is like to be a child in the classroom the book goes on to provide a detailed analysis of the curriculum assessment and accountability school structures educating for global citizenship and the plethora of social issues schools are now expected to solve Written from the perspective of a successful headteacher with over 30 years teaching experience the book considers what needs to be done to put things right and outlines a more equitable and effective school system Each chapter outlines the steps schools can implement immediately and the longer term policy changes that are needed de toxify the classroom and facilitate a genuine love of learning Offering a challenging yet compelling argument for putting education

back into the hands of teachers this book will be of great interest both to the general reader and to those working within education such as teachers and professionals who wish to improve the ways in which children learn and develop **Teach Now! Mathematics** Julia Upton, 2014-10-17 Being taught by a great teacher is one of the great privileges of life Teach Now is an exciting new series that opens up the secrets of great teachers and step by step helps trainees to build the skills and confidence they need to become first rate classroom practitioners Written by a highly skilled practitioner this practical classroom focused guide contains all the support you need to become a great mathematics teacher Combining a grounded modern rationale for learning and teaching with highly practical training approaches the book guides you through the themes of mathematics teaching and the skills needed to demonstrate learning Teach Now Mathematics also offers clear straightforward advice on classroom practice lesson planning and working in schools Teaching and learning planning assessment and behaviour management are all covered in detail with a host of carefully chosen examples used to demonstrate good practice Every example is rooted in recent experience in the mathematics classroom The commonalities of teaching pedagogy across all subjects are discussed but this book gets to the heart of the unique nature of this subject From building confidence to developing problem solving skills and mathematical literacy this book considers what the keys to success are in learning and hence teaching mathematics There are also chapters on dealing with pressure excelling in observations finding the right job and succeeding at interview Throughout the book there is a great selection of ready to use activities strategies and techniques which will help put you on the fast track to success in the classroom With a strong emphasis on sparking students interest and enthusiasm in mathematics this book is your essential guide as you start your exciting and rewarding career as an outstanding mathematics teacher *Much Ado about Nothing* Claire Crane, Juliet Walker, 2005 This title aims to provide a colourful and accessible approach to this new set text for KS3 SATs *Rationing Education* David Gillborn, Deborah Youdell, 1999-12-16 This research should make us extremely sceptical that the constant search for higher standards and for ever increasing achievement scores can do much more than put in place seemingly neutral devices for restratification Michael W Apple John Bascom Professor of Curriculum and Instruction and Educational Policy Studies University of Wisconsin Madison Recent educational reforms have raised standards of achievement but have also resulted in growing inequalities based on race and social class School by school league tables play a central role in the reforms These have created an A to C economy where schools and teachers are judged on the proportion of students attaining five or more grades at levels A to C To satisfy these demands schools are embracing new and ever more selective attempts to identify ability Their assumptions and practices embody a new IQism a simple narrow and regressive ideology of intelligence that labels working class and minority students as likely failures and justifies rationing provision to support those often white middle class boys already marked for success This book reports detailed research in two secondary schools showing the real costs of reform in terms of the pressures on teachers and the rationing of educational opportunity It will be

important reading for any teacher researcher or policymaker with an interest in equality in education **Which GCSEs?**

Dickson, 2025-06-30 This seminal volume fills a gap in current literature on education gender and development by giving voice to the Arab Gulf region contrasting key issues with those felt globally in order to support a more sustainable gender equitable future of education in the region Heavily linked to Sustainable Development Goal 4 which calls for an inclusive and equitable quality of education for all this book presents case studies on a wide range of issues such as school attainment academic performance and gender disparities within higher education in the Arabian Gulf using quantitative research qualitative interviews and documentary analysis to make broader connections to issues of global significance Exploring a deeper and more holistic understanding of the external factors which affect both participation and performance within education and academic settings this book considers the influence of home support systems as well as cultural and familial factors which can lead to large scale gendered differences in learning attitudes attendance and even testing in the region Ultimately supporting those in the education sector through frameworks of gender inclusion in both schools and higher educational settings this volume will be of use to researchers scholars and postgraduate students involved with higher education school leadership management and administration sociology of education and gender studies in the Arab Gulf region more broadly **Inequality and Flourishing** Mariama Ifode-Blease , 2022-06-30 It is no surprise that Christians

have long been involved in education the quest for human flourishing and wholeness is at the heart of the gospel and education is critical to that quest Good education has the power to transform our relationships with ourselves with each other with and within communities and ultimately between nation states But what is surprising is our theological silence in the face of the deep injustices which lie at the heart of our education system In Inequality and Flourishing Mariama Ifode Blease explores and exposes these inequalities and calls for a greater remembrance of the bountiful and daunting gift of stewardship we have as we educate young people Drawing on interviews she offers a fresh vision of education as being about

giving children the best tools to be stewards of their minds and bodies our communities and ultimately our planet *High Performers* Alistair Smith, 2011-03-07 Alistair Smith trainer author and consultant and described as the UK's leading trainer in modern learning methods has identified and visited the top performing schools to find out what makes them successful This timely book is aimed at decision makers in schools and gives sound evidence based guidance on how to embark on the learning journey and where to head once the journey has begun For classroom practitioners there is also a great deal of practical guidance It focuses on Core Purpose Outcomes Independent Learning Classroom Learning Curriculum Professional Development The school as a Community and Parents and Carers This is not intended to be a book of tips Rather it is a sound how to guide based on the findings of a detailed study of the best of the best schools and how they have achieved their success

Teaching and Learning in Diverse and Inclusive Classrooms Gill Richards, Felicity Armstrong, 2010-10-18 How can you develop effective teaching strategies so that all the children in your classroom are included in meaningful and enriching learning experiences What can you do to help young people from diverse backgrounds achieve their full potential Addressing the wide variety of issues of diversity and inclusion routinely encountered in today's classrooms this comprehensive text provides both a theoretical background and practical strategies Chapters from leading figures on inclusive education present and analyse the latest debates research studies and current initiatives including considerations for teaching and learning and concluding with key questions for reflection and additional resources Moving beyond simple theory about diversity to what this means for real teachers practice the contributions focus on issues relating to values and professional practice for teachers emphasising inclusive approaches and the importance of understanding the perspectives of learners Topics discussed include understanding inclusive education ethnic and cultural diversity challenging behaviour bullying gender identity and sexuality gifted and talented learners traveller children special educational needs collaborative working in schools the perspective of parents Designed to stimulate and strengthen teachers professional understanding the book also reflects on legislative duties personal values and the importance of listening to the voice of individuals who experience disadvantage in educational settings *Teaching and Learning in Diverse and Inclusive Classrooms* is a key resource for teachers supporting their learning throughout their initial training and early professional development It will also be of interest to more experienced teachers interested in diversity and inclusion particularly those mentoring NQTs through their induction and Masters level studies

Advanced Work-based Practice in the Early Years Samantha McMahon, Mary Dyer, 2018-09-03 Inspired by the first hand experiences of those studying early childhood education and care this book supports students as they gain advanced knowledge and skills and embark on the journey from inexperienced student to graduate professional Bringing together advanced theory links to research and illustrative case studies *Advanced Work based Practice in the Early Years* enables students to consolidate learning by applying theory to practice and identifying the skills knowledge and personal traits which will help them succeed as a graduate practitioner Chapters

address a wealth of topical issues relating to both the development of the child and the student's own professional development. Areas of focus include ethical practice, safeguarding and child protection, the voice of the child, the role of the mentor, observation, assessment and the social and cultural factors which may impact on a child's development. Including reflective activities, practical tips and examples of student experience throughout, this is an essential text for all early years students as they make the transition from academic study to professional practice.

Adopting the Track of Term: An Mental Symphony within **Maths Now Gcse Higher**

In a global consumed by displays and the ceaseless chatter of quick connection, the melodic beauty and emotional symphony produced by the written term usually diminish into the back ground, eclipsed by the persistent sound and disruptions that permeate our lives. Nevertheless, located within the pages of **Maths Now Gcse Higher** a marvelous literary prize filled with fresh feelings, lies an immersive symphony waiting to be embraced. Constructed by a wonderful composer of language, that fascinating masterpiece conducts visitors on a psychological trip, well unraveling the concealed tunes and profound impact resonating within each cautiously constructed phrase.
