Ming Dong Gu, 2012-02-01 This ambitious work provides a systematic study of Chinese theories of reading and writing in intellectual thought and critical practice The author maintains that there are two major hermeneutic traditions in Chinese literature the politico-moralistic mainstream and the metaphysico-aesthetical undercurrent In exploring the interaction between the two Ming Dong Gu finds a movement toward interpretive openness In this the Chinese practice anticipates modern and Western theories of interpretation especially literary openness and open poetics Classic Chinese works are examined including the *Zhouyi* the *I Ching* or *Book of Changes* the *Shijing* the *Book of Songs* or *Book of Poetry* and selected poetry along with the philosophical background of the hermeneutic theories Ultimately Gu relates the Chinese practices of reading to Western hermeneutics offering a cross-cultural conceptual model for the comparative study of reading and writing in general

The Pattern Seekers Simon

Baron-Cohen, 2020-11-10 A groundbreaking argument about the link between autism and ingenuity Why can humans alone invent In *The Pattern Seekers* Cambridge University psychologist Simon Baron-Cohen makes a case that autism is as crucial to our creative and cultural history as the mastery of fire Indeed Baron-Cohen argues that autistic people have played a key role in human progress for seventy thousand years from the first tools to the digital revolution How Because the same genes

that cause autism enable the pattern seeking that is essential to our species's inventiveness. However, these abilities exact a great cost on autistic people, including social and often medical challenges, so Baron Cohen calls on us to support and celebrate autistic people in both their disabilities and their triumphs. Ultimately, *The Pattern Seekers* isn't just a new theory of human civilization but a call to consider anew how society treats those who think differently. *Annual Report of the Department of Agriculture, for the Province of Ontario* Ontario.
