Women of Color in the Aviation Industry Shannon McLoughlin Morrison, 2023-08-04 Women of Color in the Aviation Industry offers a critical look at the reasons why the aviation industry remains underrepresented with minoritized groups particularly women of color Despite the increased efforts to advocate for diversity equity and inclusion within the industry the diversity of its employees remains stagnant Through interviews and conversations with a number of women of color this book argues that the industry is not doing enough to create and sustain a more equitable workforce In this book readers will discover why less than 4% of qualified commercial airline pilots are women and of that less than 1% are Black women The numbers of Latinx Indigenous people Asian and other people of color working in the aviation industry are lacking This book explores how the aviation industry often fails to incorporate the experiences of women of color when

developing and implementing diversity equity and inclusion initiatives and offers different perspectives on why it remains challenging to recruit and retain minoritized people to the industry By bringing in the experiences of a variety of women this book asks readers to reflect on what it means for an organization to describe itself as one that supports diversity equity and inclusion This timely important book is a valuable resource for a wide spectrum of researchers and students in aviation as well as gender race and ethnic studies Whilst the examples in this book serve as a case study for aviation it can be used to examine other fields encountering similar challenges in creating a more equitable workforce
