

The background of the entire image is a deep space scene. In the upper left, a yellow arrow points along a golden, textured orbital path labeled 'Sun'. To the right, a large, detailed Jupiter is shown with its characteristic bands and the Great Red Spot. A smaller, greyish-blue sphere labeled 'Earth' is positioned between Jupiter and the Sun. Further to the right, a small blue sphere labeled 'Moon' is visible. Below Jupiter, a ringed planet, likely Saturn, is partially visible with its rings in shades of green and blue. The overall composition suggests a focus on celestial mechanics and geometry.

Matrix Of Creation Sacred Geometry In The Realm Of The Planets:

Matrix of Creation Richard Heath, 2004-05-15 Reveals the ancient mathematical principles refuting the notion of the solar system as an accidental creation Reveals how ancient civilizations encoded their secret knowledge of the sky in mythology music and sacred measures Shows how modern culture can benefit from the ancient astronomical and astrological worldview based on number Shows the role of ratio and harmonic proportions in the creation of the material world Humanity's understanding of number was deeper and richer when the concept of creation was rooted in direct experience But modern sensibility favors knowledge based exclusively on physical laws We have forgotten what our ancestors once knew that numbers and their properties create the forms of the world Ancient units of measurement held within them the secrets of cosmic proportion and alignment that are hidden by the arbitrary decimal units of modern mathematical thinking Sacred numbers arose from ancient man's observations of the heavens Just as base ten numbers relate to the fingers and toes in terms of counting each celestial period divides into the others like fingers revealing the base numbers of planetary creation This ancient system made the art of counting a sacramental art its units being given spiritual meanings beyond just measurement The imperial yard for example retains a direct relationship to the Equator the length of a day and a year and the angular values of Earth Moon and Jupiter The ancients encoded their secret knowledge of the skies within mythology music monuments and units of sacred measurement They understood that the ripeness of the natural world is the perfection of ratio and realized that the planetary environment and time itself is a creation of number *Sacred Geometry for Artists, Dreamers, and Philosophers* John Oscar Lieben, 2018-08-28 An illustrated guide to harmonics the sacred geometry principles that underlie the natural world and its practical applications Demonstrates how the vesica piscis is a matrix from which ideas and forms emanate connecting cosmic time cycles measures of space and musical tones Provides harmonic analyses of ancient sculpture architecture the solar system the Earth Moon relationship and the structure of water and waves Explains how to apply sacred geometry to create building floor plans pottery figures gardens and sacred ceremonial spaces We are in the midst of a revival of an ancient way of looking at the world an approach that enabled great civilizations of the past to bring forth inventions of great beauty and power This school of thought harmonics envisioned the natural world and the solar system as an interlocking matrix of harmonious numbers perfectly woven into the creative fabric of life and the surrounding universe Exploring the art and science of harmonics John Oscar Lieben shows how to create harmonious forms using the ancient tools of number geometry and musical tone an approach that resonates with nature's own ways of creation He demonstrates many practical applications that result from the study of harmonics providing analyses of ancient sculpture and architecture as well as original examples of building floor plans pottery figures based on planetary proportions gardens based on harmonic principles and ceremonial spaces that honor cosmic harmonies and sacred geometric relationships Showing how harmonics can also be applied to the mysteries of time and space the author demonstrates how the vesica

piscis and many other variations of the vesica shape reveal numerical synchronicities and correspondences that connect cosmic time cycles measures of space and musical tones The author applies harmonics and the vesica construction matrix to illustrate many of nature s wonders including the Earth Moon relationship the interactions of the Golden Number and the musical scale and how the Flower of Life symbol connects the universal field with the pattern of raindrops falling on a pond Offering an approach to sacred geometry that pairs the mystical with the practical the cosmic with the earthly the author reveals how the art and science of harmonics should be required study for both the artist and the seeker of eternal truths as well as the scientist who seeks an entrance into the sacred foundations of nature

Children of the Fifth World P. M. H. Atwater, 2012-10-24 Our species is evolving in preparation for the new world on the horizon Explains how the increase in intuitive creative and abstract thinking abilities of children as well as incidences of ADHD dyslexia and autism signal evolutionary changes at work in humanity the emergence of the Fifth Root Race Connects the appearance of these traits with ancient myths and evolutionary calendars as well as predictions by Teilhard de Chardin Edgar Cayce and other visionary seers Reveals how these new kids act as agents for world change by reflecting back every misguided aspect of business politics religion and culture The past 30 years have seen a quantum leap in the intuitive creative and abstract thinking abilities of children as well as an unprecedented rise in incidences of ADHD dyslexia and autism spectrum disorders As P M H Atwater explains we are witnessing evolution at work The changes in consciousness and brain function evident in these new kids signal the widespread emergence of the Fifth Root Race and fortuitously coincide with our transition into the Fifth World Providing a resource for parents and new kids themselves Atwater explains what is happening to our species and our world from neurological changes and climate upheavals to the drive to be constantly connected through screen based technology and the unnecessary widespread use of drug therapies Sharing individual case histories underscoring the traits of the new child personality she reveals how these children born with universal consciousness encoded in their DNA act as agents for world change by reflecting back every misguided aspect of business politics religion entertainment technology and culture so we can t ignore what needs to be repaired Atwater shows how children labeled as autistic or otherwise damaged have enormous potential for greatness Connecting recent events and cultural shifts with creation myths evolutionary calendars and historical records from every culture as well as predictions by Teilhard de Chardin Sri Aurobindo Edgar Cayce and other visionary seers Atwater shows how the genetic shift now occurring follows the Rule of Thirds in its progression Exploring timelines for the next several hundred years she explains that the coming new world will be tailored specifically for the new kids who will lead the way in the Great Shift from old world to new

The Sacred Center John Michell, 2009-03-02 The symbolism and power behind sacred locations in ancient and modern times Explains the need and role for ritual centers in modern society Examines ancient territorial centers in ancient Egypt Greece Africa and Asia and Iceland and the British Isles Reveals the code of number and geometry behind the idealistic social structure of the ritual center formed to imitate the

heavenly order Symbols of ritual centers are among the most persistent elements of myth and belief between cultures widely separated in time and space Every tribe and state had its generation center a sacred area within its heartland where its legendary founders gave birth to its people and established their laws Within the inner sanctum of the sanctuary was an altar or pillar the omphalos or navel stone that marked the midpoint of the home territory and represented the world pole on which everything revolved It was the focus of a perpetual cycle of rituals and festivals that passed with the seasons around the country and held its people under the spell of a golden age In this book John Michell reveals the precise methods by which the ancients located the appropriate centers and adopted them as sanctuaries The same principles of ritual geography in the siting of Akhenaten's capital in Egypt and Megalopolis in classical Greece apply also to the traditional centers of small territories and islands The rediscovery of these sites such as the spot at the center of Ireland where the Celtic High Kings were installed sheds new light on the ritualized order of prehistoric societies and the sacred scientific code on which they were founded These revelations from the distant past are of great significance in present times for in them are the secrets of harmony on every scale from the personal to the universal Restoring the sacred center to its former place of prominence offers the possibility of a renaissance of human culture ideally centered upon the image of a perfectly ordered Cosmos

Sacred Number and the Origins of Civilization Richard Heath, 2006-12-26 An exploration of the origins and influences of number from prehistory to modern time Reveals the deeper meaning of the symbols and esoteric knowledge of secret societies Explains the numerical sophistication of ancient monuments Shows how the Templar design for Washington D C represents the New Jerusalem The ubiquitous use of certain sacred numbers and ratios can be found throughout history influencing everything from art and architecture to the development of religion and secret societies In *Sacred Number and the Origins of Civilization* Richard Heath reveals the origins widespread influences and deeper meaning of these synchronous numerical occurrences and how they were left within our planetary environment during the creation of the earth the moon and our solar system Exploring astronomy harmony geomancy sacred centers and myth Heath reveals the secret use of sacred number knowledge in the building of Gothic cathedrals and the important influence of sacred numbers in the founding of modern Western culture He explains the role secret societies play as a repository for this numerical information and how those who attempt to decode its meaning without understanding the planetary origins of this knowledge are left with contradictory cryptic and often deceptive information By examining prehistoric and monumental cultures through the Dark Ages and later recorded history *Sacred Number and the Origins of Civilization* provides a key to understanding the true role and meaning of number

The Resonance Key Marie D. Jones, Larry Flaxman, 2009-08-01 What if the true nature of reality were like an onion made up of layer upon layer that when peeled back would reveal a creative self regenerating weblike core A center that could contain the whole of all that is was and will be As physicists search for a Theory of Everything those who dare explore the paranormal are similarly searching for a unifying theory to explain the vast unknown from UFOs ghosts and

cryptoids to clairvoyance remote viewing and teleportation How do these things occur Where do they come from What triggers their manifestation in our simple three dimensional reality Scientists and paranormal researchers alike are looking to resonance as the theory that could bridge the gap between science and the supernatural and explain every facet of reality in between The Resonance Key dives into the most amazing new ideas theories and research that link vibration mind and matter including What ancient civilizations knew about resonance and the use of vibratory patterns found in art nature and science and how they incorporated resonance into their sacred temples megaliths and churches The most cutting edge research into the brain and human consciousness and their roles in perceiving and creating reality Why the Zero Point Grid may be the most foundational infrastructure of reality itself The Resonance Key opens the door to a stunning new vision of what may finally be the holy grail of science and the paranormal

Genesis of the Cosmos Paul A. LaViolette, 2004-04-15 Provides compelling evidence that creation myths from the dawn of civilization correspond to cutting edge astronomical discoveries Exposes the contradictions in current cosmological theory and offers a scientific basis for the ancient myths and esoteric lore that encode a theory of continuous creation By the scientist who was the first to disprove the Big Bang theory on the basis of observational data Recent developments in theoretical physics including systems theory and chaos theory are challenging long held mechanistic views of the universe Many thinkers have speculated that the remnants of an ancient science survive today in mythology and esoteric lore but until now the scientific basis for this belief has remained cloaked in mystery Paul LaViolette reveals the remarkable parallels between the cutting edge of scientific thought and creation myths from the dawn of civilization With a scientific sophistication rare among mythologists LaViolette deciphers the forgotten cosmology of ancient lore in a groundbreaking scientific tour de force In direct nontechnical language he shows how these myths encode a theory of cosmology in which matter is continually growing from seeds of order that emerge spontaneously from the surrounding subquantum chaos Exposing the contradictions that bedevil the big bang theory LaViolette offers both the specialist and the general reader a controversial and highly stimulating critique of prevailing misconceptions about the seldom questioned superiority of modern science over ancient cosmology By restoring and reanimating this ancient scientific worldview *Genesis of the Cosmos* leads us beyond the restrictive metaphors of modern science and into a new science for the 21st century

Bright Morning Star Kraig Russell, 2015-11-17 *Decoding the Message of the Pulsars* Paul A. LaViolette, 2006-04-21 A new interpretation of nearly 40 years of interstellar signals and the prophetic message they contain Contains extensive analysis of pulsar data revealing new ideas about the origins and functions of pulsars Provides proof of an extraterrestrial communication network Includes information about the formation of crop circles and force field beaming technology In 1967 astronomers began receiving and cataloging precisely timed radio pulses from extraterrestrial sources which they called pulsars These pulsars emit laserlike radio beams that penetrate through space much like searchlight beams Paul LaViolette who has been researching pulsars for over 25 years shows that while these pulsars have long been assumed

to be spinning stars the true nature of these radio sources has been grossly misunderstood In Decoding the Message of the Pulsars LaViolette shows that pulsars are distributed in the sky in a nonrandom fashion often marking key galactic locations and that their signals are of intelligent origin Using extensive scientific data to corroborate his theory he presents evidence of unusual geometric alignments among pulsars and intriguing pulse period relationships Equally compelling is the message LaViolette contends is being sent by these extraterrestrial beacons a warning about a past galactic core explosion disaster that could recur in the near future Earth Under Fire Paul A. LaViolette,2005-10-25 In Earth Under Fire Paul LaViolette investigates the connection between ancient world catastrophe myths and modern scientific evidence of a galactic destruction cycle demonstrating how past civilizations accurately recorded the causes of these cataclysmic events knowledge of which may be crucial for the human race to survive the next catastrophic superwave cycle **Beyond the Indigo**

Children P. M. H. Atwater,2005-09-29 Connects the arrival of a new type of children with the fulfillment of the Fifth World of the Mayan Calendar and other great prophecies Provides detailed information about the world changes that will take place before and after December 21 2012 Explores the seven root races representing the genetic gene pool of the human family and the phenomenon of soaring intelligence Explains the grand sweep of human evolution and the worldwide ascension of energy now occurring which will take humanity to the next level of development According to prophecy the fifth sun or fifth world of the Mayan calendar moves into a higher octave of vibration or ascension on December 21 2012 This date represents a gateway of planetary development that will open humanity to new ways of living and new worlds of opportunity Ancient traditions have foretold that our successful passage through this gateway depends on the fifth root race new stock in the human gene pool destined to help us through the exciting and massive changes ahead In Beyond the Indigo Children P M H Atwater illuminates the characteristics of the fifth root race the capstone being the extraordinary new children those brilliant and irreverent kids born since 1982 She explores the relationship of the new children to the prophecies in the Mayan calendar and other traditions providing extensive background information about the seven root races the sixth and seventh of which haven't yet appeared and the great shifting of consciousness already underway She reveals the connection of the seven root races to the seven chakras and how the fifth chakra the chakra of willpower will be opened for humankind as the new children grow to maturity She also discusses the phenomenon of soaring intelligence and undeveloped potential and provides concrete guidance and tools for those who seek to understand and help the new children achieve their full potential Beyond the Indigo Children is the first major study of today's children and their place in our rapidly changing world that combines objective research with mystical revelation and prophecy **Precessional Time and the Evolution of**

Consciousness Richard Heath,2011-06-23 How stories enable us to identify the inner spiritual aspects within our material world and participate in the evolution of human consciousness foretold by ancient myths Reveals the heightened creativity necessary and available during a precessional shift between ages Identifies where and how cosmic energies of consciousness

and creativity can be found using principles developed by G I Gurdjieff and John G Bennett Explores how myths megaliths language and cave art enabled narratives shaped by sacred proportion All of culture can be said to be made up of stories In fact it is stories more than language tools or intellect that make us human Our Neolithic and Megalithic ancestors recognized this and stored within their mythic narratives an understanding of how sky changes evoke changes in consciousness as human cultures progress through each Zodiacal Age of the precessional cycle As we enter the Age of Aquarius it is time to recognize the profound power of stories to give our world meaning Exploring how ancient myths megalithic structures the formation of language and even prehistoric cave art are narratives shaped by sacred proportion Richard Heath explains that stories enable us to identify the inner spiritual aspects within our material world and participate in the evolution of human consciousness He reveals how the precessional myth of the hero's journey to steal fire from heaven describes a necessary search for new cultural modes that occurs at the end of an Age as the dominant culture begins to falter and how the massive information bubble created by our modern world while drowning us in meaningless narratives also contains the components for an evolutionary shift in consciousness Presenting key principles advanced by G I Gurdjieff and John Bennett to help us awaken to the continuing evolution of our consciousness Heath shows how to access the spiritual intelligence and heightened creativity available during the galactic alignment of the current twilight between two precessional ages

The Harmonic Origins of the World Richard Heath, 2018-03-20 A profound exploration of the simple numerical ratios that underlie our solar system its musical harmony and our earliest religious beliefs Reveals how the orbits of Jupiter Saturn and Uranus relate to the Moon and the inner planets as an octave with musical scales Explores how this harmonic planetary knowledge was encoded within ancient monuments and temples then spread within oral traditions Explains how the solar system functions as a musical instrument and how this led to the rise of intelligent life civilization and culture on our planet As modern humans first walked the Earth roughly 70 000 years ago the Moon s orbit came into harmonic resonance with the outer planets of Jupiter Saturn and Uranus The common denominators underlying these harmonic relationships are the earliest prime numbers of the Fibonacci series two three and five the same numbers that interact to give us the harmonic relationships of music Exploring the simple mathematical relationships that underlie the cycles of the solar system and the music of Earth Richard Heath reveals how Neolithic astronomers discovered these ratios using megalithic monuments like Stonehenge and the Carnac stones discoveries that informed later myths and stories

including the Epic of Gilgamesh the Resurrection of Osiris the Rg Veda the Hebrew Bible Homer's epic tales and the Return of Quetzalcoatl He explains how this harmonic planetary knowledge formed the basis of the earliest religious systems in which planets were seen as gods and shows how they spread through Sumer Egypt and India into Babylon Judea Mexico and archaic Greece He exposes how the secret knowledge encoded within the Bible's god YHWH was lost as Greek logic and reason steadily weakened mythological beliefs Revealing the mysteries of the octave and of our musical scales Heath shows how the orbits of the outer and inner planets gave a structure to time which our Moon's orbit could then turn into a harmonic matrix He explains how planetary time came to function as a finely tuned musical instrument leading to the rise of intelligent life on our planet He demonstrates how this harmonic science of numbers can be read in the secret symbolism and sacred geometry of ancient cities such as Teotihuacan and in temples such as the Parthenon connecting the higher worlds of planetary time and harmonics with the spiritual and physical life on Earth Recasting our understanding of the solar system Heath seeks to reawaken humanity's understanding of how sacred numbers structure reality offering an opportunity to recover this lost harmonic doctrine and reclaim our intended role in the outer life of our planet

A New Formula for Creation Judith K. Moore, 2006-05-08 This book brings an inspiring positive message regarding the future of our planet Earth is experiencing the Shift of the Ages a time marked by massive Earth changes and social upheaval This is foretold in many prophecies including Hopi prophecies and the biblical Revelations They warn that raising consciousness is the only way to avert a massive cataclysm The message in this book is unique for it speaks of a grand cosmic plan in which Earth plays a crucial role Our planet has gone through seven cycles of Creation ending in destruction It is now completing the eighth cycle and will not enter destruction The ninth cycle of Creation will be in the Now consciousness of harmony unity and oneness The world as we know it is a holographic projection manifested by the ultimate force of Creation which is love A distortion developed in this hologram a dense energy that separated and did not know itself as part of the love of Creation This resulted in the cycles and a new Creation had to rise from the ashes of the old This distortion is identified as a chip in the blueprint of Creation The chip has been discovered and removed A new Creation is being birthed a Creation not impeded by the distortion which manifests as fear hatred greed and power A new life unto life principle of Creation is coming into being eliminating cyclical destruction Judith Moore's new book A New Formula for Creation is a must read if you want to know how the Divine plan is manifesting the transformations occurring on planet Earth now A new multidimensional cosmic order of interconnectedness at the micro and macro levels is explained in a new light from the ultimate source of consciousness to the emanation of vibrations to sound and light to form and then to matter When I started reading this book I could not stop Fadel Behman PhD
