**Matter In Motion** Gary A Wegner, 2021-11-24 All matter including galaxy clusters galaxies and their constituents follow orbits and flows driven by the net attraction of near and distant masses The book presents the development of studies of peculiar motions along with discoveries in large scale structure the cosmic microwave background baryonic oscillations gravity waves and their relation to current work on gravitation and dark matter The results of peculiar motion measurements in the late 20th century are described as they were used to search for the dipole of the galaxy motions a determination of cosmic density and to compare with the cosmic microwave dipole which led to the discovery of galactic flows and the Great Attractor Newer detailed measurements from surveys in the 21st century have helped resolve the nature of these structures Some prospects for future investigations are discussed

**Selected Works of Yakov Borisovich Zeldovich, Volume II**

Yakov Borisovich Zeldovich, 2017-03-14 This is the second volume of a two volume collection of over 100 articles spanning half a century of work by the late Soviet scientist Yakov Borisovich Zeldovich The breadth and depth of Zeldovich s work is staggering Author of over twenty books and more than 500 scientific articles he made fundamental contributions in chemical catalysis and kinetics combustion and the hydrodynamics of explosive phenomena nuclear chain reactions and nuclear energy the physics of elementary particles and the large scale structure of the universe and cosmology The importance of this collection lies not only in its documentary value as a collection of key scientific works by a man of genius Zeldovich himself considered his most valuable role to be that of a teacher to convey to young scientists the how of science The author of several excellent textbooks on topics ranging from elementary mathematics to advanced methods of mathematical physics he saw this collection of works enlarged from the original Russian edition as a contribution to that end Commentaries by the author and the editors are included with each paper serving to enhance both the historical and the pedagogical value of this edition The passing of Yakov Borisovich Zeldovich in December 1987 was a loss felt deeply by scientists all over the world This collection of his works serves as a tribute to him as a man a scientist and above all a teacher Originally published in 1993 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of
