Matthew Arnold Literature In Perspective:

Matthew Arnold Michael Thorpe,1969 **Twenty-First Century Perspectives on Victorian Literature** Laurence W. Mazzeno,2014-03-06 Victorian literature's fascination with the past its examination of social injustice and its struggle to deal with the dichotomy between scientific discoveries and religious faith continue to fascinate scholars and contemporary readers During the past hundred years traditional formalist and humanist criticism has been augmented by new critical approaches including feminism and gender studies psychological criticism cultural studies and others In *Twenty First Century Perspectives on Victorian Literature* twelve scholars offer new assessments of Victorian poetry novels and nonfiction Their essays examine several major authors and works and introduce discussions of many others that have received less scholarly attention in the past General reviews of the current status of Victorian literature in the academic world are followed by essays on such writers as Charles Dickens Alfred Tennyson Thomas Hardy and the Brontë sisters These are balanced by essays that focus on writing by women the development of the social problem novel and the continuity of Victorian writers with their Romantic forebears Most importantly the contributors to this volume approach Victorian literature from a decidedly contemporary scholarly angle and write for a wide audience of specialists and non specialists alike Their essays offer readers an idea of how critical commentary in recent years has influenced and in some cases changed radically our understanding of and approach to literary study in general and the Victorian period in particular Hence scholars teachers and students will find the volume a useful survey of contemporary commentary not just on Victorian literature but also on the period as a whole *Matthew Arnold* Harold Bloom,1987 **The Comparative Perspective on Literature** Clayton Koelb,2019-06-30 Few would deny that comparative literature is rapidly moving from the periphery toward the center of literary studies in North America but many are still unsure just what it is *The Comparative Perspective on Literature* shows by means of twenty two exemplary essays by many of the most distinguished scholars in the field how comparative literature as a discipline is conceived of and practiced in the 1980s Nearly all of them published here for the first time the essays discuss and themselves reflect significant changes at the core of the field as well as evolving notions as to what comparative literature is and should be The volume editors Clayton Koelb and Susan Noakes have included essays that address the scope and concerns of comparative literature today historical and international contexts of the field and the relationship of literary criticism to other disciplines as well as affording comparative perspectives on current critical issues **Windows to the World: Literature in Christian Perspective** Leland Ryken,2000-04-10 This is a teacher's book written by an able teacher Most people are interested in literature because of a deep love for literature itself They want to understand the reasons for that love Ryken helps us do this but he also helps Christians understand and validate their love for literature Ryken has also provided a solid means for non Christians to understand a Christian perspective on literature *It Windows to the World* comes closer to defining the goal and task of the teacher of literature than any work I have read *Christianity and Literature*
