Theology in the Context of World Christianity Timothy C. Tennent, 2009-05-26 Thinking more globally about the formation of theology enriches our understanding of what it means to be a Christian It is no secret that the center of Christianity has shifted from the West to the global South and East While the truths of the Christian faith are universal different contexts and cultures illuminate new questions understandings and expressions What does this mean for theology as Western theologians understand it Timothy Tennent argues that the Christian faith is culturally and theologically translatable Theology in the Context of World Christianity is written to expand our ecclesiastical cartography by highlighting within each of the major themes of systematic theology studies that are engaging the global church such as Anthropology with studies drawn from the different views of human identity between Eastern and Western cultures Christology with a focus on the emphases that African Christians place on the characteristics of Christ Pneumatology by looking at the role of the Holy Spirit in Latin American Pentecostalism Eschatology by focusing on how this branch of theology shapes world missions and evangelism Each of the ten chapters examines traditional theological categories in conversation with theologians from across the globe making this volume valuable for students pastors missionaries and theologians alike Theological reflection is active and exciting in the majority world church and Tennent invites you to your own reflection and celebration of Christ's global church These are perspectives that should be heard considered and brought into conversation with Western theologians Global theology can make us aware of our own blind spots and biases and has much to offer toward the revitalization of Western Christianity **The Encyclopedia Britannica**, 1922 *The Encyclopedia Americana* Frederick Converse Beach, George Edwin Rines, 1904 [Mini-India](#) Philipp Zehmisch, 2018-02-15 Often called Mini India the Andaman Islands have been a crucial site of encounter between different regimes subjects castes creeds languages and ethnicities Since 1858 subaltern

convicts refugees repatriates and labourers from South and Southeast Asia have moved to the islands condemned to or in search of a new life While some migrants have achieved social mobility others have remained disenfranchised and marginalized This ethnographic study of the Andaman settler society analyses various shades of inequality that arise from migrant communities material and representational access to the state The author employs the concept of subalternity to investigate political negotiations of island history collective identity ecological sustainability and resource access Interpreting characteristic views practices and voices of subaltern interlocutors the author untangles their collective agency and consciousness in migration settlement and place making processes Further the book highlights particular subaltern strategies in order to achieve autonomy and peaceful cohabitation through movement cultural and social appropriation and multi layered methods of resistance
