The Different Faces of Motherhood Beverly Birns, Dale Hay, 2013-06-29 The Different Faces of Motherhood began during a conversation between the two editors developmental psychologists who have spent our professional careers working with infants and very young children We are well aware of the importance of infants to their mothers and of mothers to their infants However we were particularly aware of the fact that whereas our knowledge about infants increases exponentially each decade our assumptions about mothers change relatively little We were concerned about the theories that underlie the advice given to mothers and also about the assumption that mothers appear to be generic More and more we have learned about individual differences in babies but not more and more about individual differences in mothers Our second concern has been to expand our knowledge about mothers Our assumptions were few and our questions were many We believed that the experience of women would vary greatly both in outlook and in behavior depending on each woman's age marital status financial status ethnicity health education and work experience as well as a woman's own experience in her family origin and her relationship to her husband If we are to understand child development and believe that the early years are important in a child's life then it seems critical to examine our beliefs about mothers If we are to understand human development then being a mother is surely an important area of inquiry

Recreating Motherhood Barbara Katz Rothman, 2000 Selling genetically gifted human eggs on the free market for a hefty price In vitro fertilization Fetal rights Prenatal diagnosis Surrogacy All are instances of biomedical and social advancements with which we have become familiar in recent years Yet these issues are often regarded as distinct or only loosely related under the rubric of reproduction Barbara Katz Rothman demonstrates how they form a complex whole that demands of us in response a woman centered class sensitive way of understanding motherhood We need a social policy for dealing with mothers and motherhood that is consistent with feminist politics and feminist theory Her book shows how we as a society must first recognize that the real needs of mother father and

children have been swept aside in an attempt to reduce the complex process of human reproduction to a clinical event that can be controlled by medical technology Rothman suggests ways to accomplish social and legal change that would allow technological advances to affirm motherhood and the mother child relationship without cost to women s identity This new edition of *Recreating Motherhood* contains exciting updates Rothman shows how this material is key in understanding the family not just motherhood And a new chapter *Reflections on a Decade* explores how new reproductive technologies combine with new marketing and new genetics to pose troubling social questions

After the Happily Ever After: Empowering Women and Mothers in Relationships Linda Rose Ennis, 2017-09-01 This book is about the two tiered system and invisible imbalance that operates within the framework of the family It is about the fantasy of the happily ever after which the wedding industry promotes and Western society reinforces Why are we hanging onto this faux happiness at the expense of our future well being Why don t we wonder what happened after they lived happily ever after and if in fact they really do What I hope to achieve by writing this book is to rattle the cage of young brides about to embark on this journey to talk about these issues with their future partners and to set the system up in a more equal way so no one is caught off guard if and when things crumble It will be difficult to achieve this task because no one wants to think about things falling apart before the marriage even begins and most certainly it sours the sweetness of the fantasy of the happily ever after as we know it What we don t realize is that there will be less bitterness and upset for the family especially for the children if we pursue this line of thinking Isn t that the real happily ever after

God's Mother, Eve's Advocate Tina Beattie, 2002-12-01 Tina Beattie has written a stunning book on the theology of woman Her stated objective is to discern the place of the female body in the Christian story of salvation and she has done so from the very heart of Christian stylisations of the female the figures of Mary and Eve Beattie has pursued her subject with the aid of French psychoanalytic feminism these writers are preoccupied as is Catholic theology with questions of language and symbolism But

she deliberately puts herself at odds with neo orthodoxy and feminist liberal theology she believes that theologians like von Balthasar depart from the best Patristic tradition of Marian theology with disastrous effect Nor does she offer any solace to the Marina Warners of this world in a book which is strong in defence of classical Marian theology She defends with passion and theological insight not only the Virgin Birth the Immaculate Conception and the Assumption but also the perpetual virginity of Mary Virginal desire according to Beattie need not be seen negatively but as an affirmation of the integrity of women s desire before God in a way not dependent on the phallus nor reducible to genitality *Essentially a Mother* Jennifer Hendricks,2023-05-02 *Essentially a Mother* argues that the law of pregnancy and motherhood has been overrun by sexist ideology Courts have held that a pregnant woman s nine months of gestation hardly count in her claim to parent the child she bears and that a man s brief moment of ejaculation matters more than a woman s labor Armed with such dubious arguments courts have stripped women of the right to abortion treated surrogate mothers as mere vessels and handed biological fathers even those who became fathers through rape automatic rights over women and their children In this incisive and groundbreaking book Jennifer Hendricks argues that feminists must overthrow the skewed value system that subordinates women devalues caregiving and denies too many the right to parent Iranian Motherhood Mohaddeseh Ziyachi,2023-09-29 This book characterises the problematic status of motherhood in present day Iranian society that is problem in the Foucauldian sense of an object of thought and a source of tension not as a pathological issue and explains the historical processes contributing to this problematisation Taking an interdisciplinary approach the author draws on a cognitive anthropological perspective whilst incorporating ethnographic historical and evolutionary viewpoints By applying this perspective to the current cultural model of motherhood and considering specific social political and economic factors in Iran the author provides an exhaustive contextualised understanding of the motherhood problem and its multidirectional changes throughout time The book follows a multi method framework and combines qualitative ethnographic and auto ethnographic data with historical evidence and comparative data As such it also contributes to the women s movement in Iran by fostering discussion on women s issues and demystifying women s understandings and experiences The book will appeal to those working in a range of disciplines including gender studies cognitive anthropology and Iranian history Written in non technical language and providing insights into the problem of motherhood in comparable contexts the book will also be of interest to general readers Women, Mothers, Subjects Maura Sheehy,2015-10-14 This collection drawn from twelve years of the influential journal *Studies in Gender and Sexuality* offers a groundbreaking advance in thinking and theorizing about what happens to women when they become mothers It explores how women are changed and shaped by interaction with their children and the cultural constructs about motherhood in which they are embedded Distinguished psychoanalysts philosophers feminists gender and cultural theorists explore the meeting place of cultural representations of motherhood maternal theory and mothers interacting in the clinical setting and with their children to illuminate how the process of

becoming a mother creates and informs female subjectivity identity desire expression aggression ambition shame envy and relationships Contributors find mothers to be complex subjects negotiating rich hybrid identities that explode received notions of maternal and even female subjectivity in their complexity They create an exciting and very accessible new set of ideas and templates for thinking about mothers and women that will be of value to clinicians academics and mothers alike This book was originally published as a special issue of Studies in Gender and Sexuality *Transitions into Parenthood* Sampson Lee Blair, Rosalina Pisco Costa, 2019-11-25 Around the globe the very conceptualization of family is associated with the relationship between a parent and a child The birth of a child represents both the end of one experience and the beginning of another *Same Sex Couples - Comparative Insights on Marriage and Cohabitation* Macarena Sáez, 2015-05-06 This book shows six different realities of same sex families They range from full recognition of same sex marriage to full invisibility of gay and lesbian individuals and their families The broad spectrum of experiences presented in this book share some commonalities in all of them legal scholars and civil society are moving legal boundaries or thinking of spaces within rigid legal systems for same sex families to function In all of them there have been legal claims to recognize the existence of same sex families The difference between them lies in the response of courts Regardless of the type of legal system when courts have viewed claims of same sex couples and their families as problems of individual rights they have responded with a constitutional narrative protecting same sex couples and their families When courts respond to these claims with rigid concepts of what a family is and what marriage is as if legal concepts were unmodifiable same sex couples have remained outside the protection of the law Until forty years ago marriage was the only union considered legitimate to form a family Today more than 30 countries have granted rights to same sex couples including several that have opened up marriage to couples of the same sex Every day there is a new bill being discussed or a new claim being brought to courts seeking formal recognition of same sex couples Not all countries are open to changing their legal structures to accommodate same sex couples but even those with no visible changes are witnessing new voices in their communities challenging the status quo and envisioning more flexible legal systems [Relationship Therapy with Same-Sex Couples](#) Jerry Bigner, Joseph L. Ross,2016-12-30 It has been four decades since the publication of Adrienne Rich s Of Woman Born but her analysis of maternity and the archetypal Mother remains a powerful critique as relevant today as it was at the time of writing It was Rich who first defined the term motherhood as referent to a patriarchal institution that

was male defined male controlled and oppressive to women To empower women Rich proposed the use of the word mothering a word intended to be female defined It is between these two ideas that of a patriarchal history and a feminist future that the introductory text Interrogating Motherhood begins Ross explores the topic of mothering from the perspective of Western society and encourages students and readers to identify and critique the historical social and political contexts in which mothers are understood By examining popular culture employment public policy poverty other mothers and mental health Interrogating Motherhood describes the fluid and shifting nature of the practice of mothering and the complex realities that define contemporary women s lives
