Excerpt from Natural History With Anecdotes Illustrating the Nature Habits Manners and Customs of Animals Birds Fishes Reptiles Insects Etc Illustrations are like windows to the house of knowledge They let light in upon the understanding and they facilitate the outlook upon truth and beauty To illustrate is to help one sense by the use of another to reason by analogy and to teach the unknown by the known When definition fails illustration often carries conviction and the most successful teachers are those who make the best use of sound and telling illustrations How many lessons would have been wholly forgotten by us but for the illustrations which made their meanings clear and left their truths for ever in our minds The book of nature is full of illustrations which help the understanding of the book of life and no illustrations are more valuable and fascinating whether as revelations of the order and habits of nature herself or as parallels and parables full of suggestive application to the social and moral life of humanity than those afforded by the study of Natural History About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works **Natural**

History in Anecdote Alfred H.
