Nature Of Personal Reality A Seth:

The Nature of Personal Reality (A Seth Book) Jane Roberts, 2011-10-01 In this perennial bestseller Seth challenges our assumptions about the nature of reality and shows us how we create our personal reality through our conscious beliefs about ourselves others and the world His message is clear we are not at the mercy of the subconscious or helpless before forces we cannot understand We are Gods couched in creaturehood Seth says We are given the ability to form our experience as our thoughts and feelings become actualized Seth was one of my first metaphysical teachers He remains a constant source of knowledge and inspiration in my life Marianne Williamson I would like to see the Seth books as required reading for anyone on their spiritual pathway The amazing in depth information in the Seth books is as relevant today as it was in the early 70s when Jane Roberts first channeled this material Louise Hay

The Nature of Personal Reality Jane Roberts, Seth (Spirit), 1978 The words of Seth the personality channeled through Jane Roberts show readers that they possess hidden powers within themselves that have the potential to transform their lives By learning to control their own experiences they can create a new fulfilling reality

Nature of Personal Reality Jane Roberts, 1982-06

The Unknown Reality, Volume One Jane Roberts, 2011-07-08 From the Bestselling Author of Seth Speaks and The Nature of Personal Reality In this mind stretching journey into the very frontiers of consciousness Seth reveals the multidimensional nature of the human soul In Seth Speaks Seth introduced the concept of probable realities in which our idle daydreams and unfulfilled impulses do take place in which all possible choices are fully experienced by other portions of the self Now in this first volume of The Unknown Reality Seth explains the dazzling labyrinths of unseen probabilities involved in any decision and how our awareness of these can enrich the waking life we know In a fascinating exploration of the cosmic web of our existence Seth reveals The purpose of dreams and how they are often fulfilled unconsciously Misconceptions about death and the afterlife How different probable realities intersect and influence one another The relationship between physical health and inner reality A series of exercises to help you discover the unknown portions of your greater identity The self is multidimensional when it is physically alive It is a triumph of spiritual and psychological identity ever choosing from a myriad of probable realities its own clear unassailable focus When you don't realize this then you project upon life after death all of the old misconceptions The fact is that in life you poise delicately and yet perfectly between realities and after death you do the same Jane Roberts Speaking for Seth

The Individual and the Nature of Mass Events Jane Roberts, 2011-07-08 From the Bestselling Author of Seth Speaks Speaking exclusively through Jane Roberts Seth has repeatedly stressed the concept that we create our own reality according to our individual beliefs But how do our realities merge and combine to form mass reactions such as the overthrow of governments the birth of a new religion wars epidemics earthquakes and new periods of art architecture and technology In this pioneering work Seth explores the connection between personal beliefs and world events He pinpoints the unconscious and often negative beliefs pervading science and religion medicine and mythology and

offers thought provoking reflections on Darwinism Freudianism religions cults and medical beliefs With fascinating and inspiring implications Seth asserts that the personal impulses we are often taught to see as dangerous chaotic or contradictory are instead crucial to the best interests of the species and the natural world for they lead us to live not only as loving caretakers but as partners with other species Only people who trust their spontaneous impulses can be consciously wise enough to choose from a myriad of probable futures the most promising events Jane Roberts Speaking for Seth **The Unknown Reality, Vol 2** Jane Roberts, 2011-07-08 From the Bestselling Author of Seth Speaks In this second volume of The Unknown Reality Seth radically expands our conceptions of self by showing us that the human personality is literally infinite in its scope and potential He discloses precisely how probable realities combine to create our waking lives and how our higher selves make decisions regarding our everyday existence In a far reaching exploration of the dynamics of desire and free will he asserts that each atom molecule and cell has its own consciousness and powers of choice With humor and simple analogies Seth leads us beyond our ordinary level of awareness into a spectacular discovery of the multidimensional nature of the self including Consciousness units as the basis of our universe The relevance of extrasensory perception in understanding our world The worlds we visit in dreams and out of body states Dreaming as a science to create present and future realities Families of consciousness we choose to belong to Practical methods for exploring your own unknown reality There is an unknown reality I am part of it and so are you Each individual is a part of the unknown reality To explore the unknown reality you must venture within your own psyche travel inward through invisible roads as you journey outward on physical ones I hope that in this book the reader can see the greater dimensions that touch ordinary living and sense the psyche's greater magic Jane Roberts Speaking for Seth **Summary of Jane Roberts's The Nature of Personal Reality** Everest Media, 2022-07-02T22:59:00Z Please note This is a companion version not the original book Sample Book Insights 1 The world as you see it is a reflection of what you are a reflection not in glass but in three dimensional reality The smallest blade of grass or flower is aware of this connection and without reasoning comprehends its position its uniqueness and its source of vitality 2 You are the living picture of yourself Your feelings thoughts and events all affect your physical appearance You did not just happen to be thin or fat tall or short healthy or ill Those characteristics were chosen by your inner self 3 Ruburt was correct in the insight that his book was not dictation He was more intrigued with questions concerning consciousness and personality since beginning his novel He did not realize that he created the personalities free of time and organized them under the leadership of the conscious mind 4 Your experience in the world of physical matter flows outward from the center of your inner psyche You perceive this experience and from it the most minute areas of your outer experience spring Your feelings have electromagnetic realities that rise outward and affect the atmosphere itself *Miller's Illustrated, Industrial-Strength Metaphysics* Jim Miller, 2010-08-05 The author uses the story of his life as a vehicle to tell what he has learned along the way about metaphysics It is not a scholarly treatise but the record of one person's attempt to understand

what lies beyond the physical From another point of view the book can be seen as a comment on the gods of organized religion and a project to pose a metaphysical alternative

The Nature of the Psyche Jane Roberts, 2011-07-08 Seth speaking exclusively through Jane Roberts reveals a startling new concept of self answering questions about the secret language of love human sexuality the real origins and incredible powers of dreams and how we choose our physical death sometimes years in advance For the first time Seth explains Why love is the basic language from which all others spring The bisexual nature of humanity and its biological and spiritual importance The true basis of homosexuality and lesbianism along with their private and social effects The benefits of recalling our dreams and consciously participating in them How dreams can prevent chronic illnesses by providing important therapeutic information Simple exercises you can do to expand your awareness of the deeper portions of your psyche and stretch your abilities to their fullest potential The psyche is a gestalt of aware energy in which your own identity resides inviolate yet ever changing as you fulfill your potentials You are your psyche s living expression its human manifestation Yet you allow yourselves often to become blind to brilliant aspects of your own existence Jane Roberts Speaking for Seth

The Oversoul Seven Trilogy Jane Roberts, 2011-07-08 Inspired by Jane Roberts own experiences as the author of the immensely popular Seth books these three novels now collected in one volume are one of the most imaginative tales ever written Jane Roberts beloved character Oversoul Seven an ageless student of the universe explores the entire framework of our existence As we follow Seven s education our own beliefs about life death dreams time and space are challenged and stretched leaving us with a refreshing and provocative perspective on the true nature of reality In *The Education of Oversoul Seven* Seven explores the true nature of his being as he learns to communicate with four of his incarnations four all too human people whose lives are separated by centuries yet who also coexist In *The Further Education of Oversoul Seven* the adventure continues with Seven facing new lessons as his human incarnations struggle with the problems of sanity free will and even godhood In the third saga of this exuberant adventure *Oversoul Seven and the Museum of Time* Seven is instructed to take up residence in a human body while also journeying to the Museum of Time in search of the Codicils The Codicils are eternal truths that bring about the greatest opportunities for vitality understanding and fulfillment The adventures of Oversoul Seven are at once an intriguing fantasy a mind altering exploration of our inner being and a vibrant celebration of life
