sailors in distant lands and seas Haunting voices of participants echo from two centuries ago culled from speeches diaries and letters Britain's Rise to Global Superpower in the Age of Napoleon reveals how decisively or disastrously the British army and navy wielded the art of military power during the Age of Revolution and Napoleon Essays in Naval History, from Medieval to Modern N.A.M. Rodger, 2023-05-31 The articles collected here two appearing for the first time in English cover a number of topics central to naval history and illustrate the author's contention that this is not only or even chiefly a distinct area of special study but rather a central theme running through the history of England and of the whole British Isles Though the subjects and the styles vary a good deal the studies are linked by a common approach and some common ideas Hence many examine ways in which naval history has formed a key element in such subjects as intellectual religious administrative or medical history and explored the nature and meaning of sea power as a theme At the same time naval history is a technical subject which demands a willingness to understand warships the most complex artefacts and the structure of large and complex organisations Detailed evidence about ships and weapons can build large conclusions for example about late Anglo Saxon government and military organisation or about the nature of warfare at sea in the Renaissance era While mostly written from the British point of view several essays explicitly survey naval developments over a range of countries and even the most narrowly focused are at least implicitly aware of the wider world of war at sea

Horatio Nelson Angus Konstam, 2011-07-20 The most famous admiral in history Horatio Nelson's string of naval victories helped secure Britain's place as the world's dominant maritime power a position she held for more than a century after Nelson's death A young officer during the American Revolution Nelson rose to prominence during Britain's war with Revolutionary France becoming a hero at the battle of Cape St Vincent He went on to win massive victories at the Nile and Copenhagen before leading the British to their historic victory at Trafalgar in 1805 But in that moment of his greatest glory Nelson was struck down by a French sharpshooter Today Nelson is revered as an almost mythical figure a naval genius and a national hero He was also a deeply flawed individual whose vanity ego and private life all threatened to overshadow his immense abilities This book reveals the real Nelson The Command of the Ocean N. A. M. Rodger, 2005 N A M Rodger provides reassessments of such famous figures as Pepys Hawke Howe and St Vincent The particular and distinct qualities of Nelson and Collingwood are contrasted and the world of the officers and men who made up the originals of Jack Aubrey and Horatio Hornblower is brought to life Rodger's comparative view of other navies French Dutch Spanish and American allows him to make a fresh assessment of the qualities of the British **BOOK JACKET** Battles that Changed History Spencer C. Tucker, 2010-11-11 This encyclopedic collection of more than 200 of the most decisive and important battles throughout world history gets a fresh interpretation by a noted military historian The mythic and doomed stand of the 300 Spartans at Thermopylae the siege of Carthage in 149 146 BCE which ended with Rome destroying the city and enslaving the entire remaining Carthaginian population the Battle of Hastings in 1066 arguably the most important battle ever on English soil the

Battle of Trenton that saved the American Revolutionary cause and established the military reputation of General Washington the firebombing of Tokyo on the night of March 9 10 1945 that destroyed one quarter of the city All of these conflicts and hundreds more played a crucial role in defining the direction of history and the evolution of human society This text provides high school level readers with detailed descriptions of the battlefield actions that have played the greatest parts in shaping military history and human existence Special attention is paid to the greater historical context and significance of each battle especially in relation to other events

East Sails West Stephen Davies, 2013-12-01 In December 1846 the *Keying* a Chinese junk purchased by British investors set sail from Hong Kong for London Named after the Chinese Imperial Commissioner who had signed away Hong Kong to the British manned by a Chinese and European crew and carrying a travelling exhibition of Chinese items the *Keying* had a troubled voyage After quarrels on the way and a diversion to New York culminating in a legal dispute over arrears of wages for Chinese members of the crew it finally reached London in 1848 where it went on exhibition on the River Thames until 1853 It was then auctioned off towed to Liverpool and finally broken up In this account of the ship the crew and the voyage Stephen Davies tells a story of missed opportunities with an erratic course overambitious aims and achievements born of lucky breaks a microcosm in fact of early Hong Kong and of the relations between China and the West
