Navies And Foreign Policies:

Navies and Foreign Policy (Routledge Revivals) Ken Booth, 2014-06-27 First published in 1977 this study offers a comprehensive systematic and integrated survey of the important relationship between navies and the making and execution of foreign policy Ken Booth explains the functions navies can perform in both war and peace the influence they have on particular situations and how the relevant organisations can affect the character of naval actions Ultimately navies are regarded as indispensable instruments of the state by a number of countries whilst all countries with a coast find some need to threaten a degree of force at sea This book provides students and academics with the intellectual framework with which to assess the changing character of the navy

The Contemporary German Navy as an Instrument of Foreign Policy

Moritz Brake, 2024-12-06 Since the Cold War and beyond the Zeitenwende Germany has increasingly come to rely on its navy as an instrument of foreign policy The German Navy supports comprehensive maritime security and ocean governance and its missions not only reflect its own evolution but also change within Germany This is a marked shift for the continental power Germany and forms a substantial component of its much broader maritime turn in the 21st century Changes in strategic context new security challenges and Germany's evolving international role after reunification have altered the perception of the navy's utility Its share in the Bundeswehr's personnel has grown and the navy has seen proportionally higher investment or relatively less cuts owing to the post Cold War peace dividend than either army or airforce The author shows that the navy has markedly changed and become increasingly useful for Germany's foreign policy something which in the stormy seas of geopolitical escalation of the Zeitenwende has already paid dividends

Victory with Honour

Olusegun Ferreira,2021-04-12 Victory with Honour is an account of my stewardship whilst I was onboard NNS OKPABANA as the Commanding Officer from 2015 2016 The book renders a chronological narrative of my operational and command experience onboard the ship beginning with an opening chapter giving an expos on the essence of sea power and the concept of navies a brief historical perspective of the NN in the second and the third chapter begins with my own story In between I also gave my view of the maritime security situation in the Gulf of Guinea and how to address the challenges being experienced therein The book then continues with a personal account of the various exercises and operations that the ship participated in whilst I was in command Chapter Eighteen being the last chapter gave some leadership principles though navy centric could apply to almost any sphere of life Largely esoteric in nature I believe the readership would be inspired to draw lessons from my experiences and also add to the corporate institutional knowledge of the Nigerian Navy as a whole I also believe more needs to be laid out in the public space on how Nigeria as a maritime nation has potentials to become a sea

Michael MccGwire,2010-12-01 This study concentrates on the military roots of Soviet policy It concentrates on how planning for the contingency of a world war shapes and distorts Soviet policy while producing a military posture and structure of forces that appear to the West as being far in excess of any legitimate defense needs The focus is on the military technical aspects of doctrine which is the responsibility of the military to implement The study does not dwell on the decisions that the Soviet political leaders would face in the course of a war except to note how the hierarchy of objectives would influence those decisions **Documents on British Foreign Policy, 1919-1939** Great Britain.
