Nazismo Y Cultura:

Architecture and the Nazi Cultural Landscape David H. Haney, 2022-09-13 This book traces cultural landscape as the manifestation of the state and national community under the Nazi regime and how the Nazi era produced what could be referred to as a totalitarian cultural landscape For the Nazi regime cultural landscape was indeed a heritage resource but it was much more than that cultural landscape was the nation The project of Nazi racial purification and cultural renewal demanded the physical reshaping and reconceptualization of the existing environment to create the so called new Nazi cultural landscape One of the most important components of this was a set of monumental sites thought to embody blood and soil beliefs through the harmonious synthesis of architecture and landscape This special group of landscape bound architectural complexes was interconnected by the new autobahn highway system itself thought to be a monumental work embedded in nature Behind this intentionally aestheticized view of the nation as cultural landscape lay the all pervasive system of deception and violence that characterized the emerging totalitarian state This is the first historical study to consider the importance of these monumental sites together with the autobahn as evidence of key Nazi cultural and geographic strategies during the pre war years This book concludes by examining racial and nationalistic themes underlying cultural landscape concepts today against this historic background

Cultural Translation and Knowledge Transfer on Alternative Routes of Escape from Nazi Terror Susanne Korbel, Philipp Strobl, 2021-08-05 The book investigates and compares the role of artistic and academic refugees from National Socialism acting as cultural mediators or agents of knowledge between their origin and host societies By doing so it locates itself at the intersection of the recently emerging field of the history of knowledge transnational history migration exile as well as cultural transfer studies The case studies provided in this volume are of global scope focusing on routes of escape and migration to Iceland Italy the Near East Portugal and Shanghai and South Central and North America The chapters examine the hybrid ways refugees envisaged managed organized and subsequently mediated their migrations It focuses on how they dealt with their escape in their art and science The chapters ask how the emigrants located themselves did they associate with ethnic religious and or cultural affiliations specific social classes or specific parts of society and how such identifications were portrayed in their knowledge transfer and cultural translations Building on such possible avenues for research this volume aims to offer a global analysis of the multifarious processes not only of cultural translation and knowledge transfer affecting culture sciences networks but also everyday life in different areas of the world

Nicosia,2006 Culture and the arts played a central role in the ideology and propaganda of National Socialism from the early years of the movement until the last months of the Third Reich in 1945 This volume s essays explore these and other aspects of the arts and cultural life under National Socialism **Jewish Art in Nazi Germany** Dana Smith,2022-03-27 This book provides a social and cultural history of

Jewish art in Nazi Germany with a focus on the Jewish artists art critics and audiences in Nazi Bavaria From the time of its conceptualization in the autumn of 1933 until its final curtain call in November 1938 the Jewish Cultural League in Bavaria sustained three departments music visual arts and adult education The Bavarian example steps outside the highly professional cultural milieu of Jewish Berlin and instead looks at relatively unknown efforts of Bavarian Jewish artists as they used art to define what it now meant to them to be Jewish under Nazism Insightful and engaging this book is ideal for advanced undergraduate students graduate students and scholars interested in social and cultural histories of Jews in Germany **Social Outsiders in Nazi Germany** Robert Gellately,Nathan Stoltzfus,2018-06-05 When Hitler assumed power in 1933 he and other Nazis had firm ideas on what they called a racially pure community of the people They quickly took steps against those whom they wanted to isolate deport or destroy In these essays informed by the latest research leading scholars offer rich histories of the people branded as social outsiders in Nazi Germany Communists Jews Gypsies foreign workers prostitutes criminals homosexuals and the homeless unemployed and chronically ill Although many works have concentrated exclusively on the relationship between Jews and the Third Reich this collection also includes often overlooked victims of Nazism while reintegrating the Holocaust into its wider social context The Nazis knew what attitudes and values they shared with many other Germans and most of their targets were individuals and groups long regarded as outsiders nuisances or problem cases The identification the treatment and even the pace of their persecution of political opponents and social outsiders illustrated that the Nazis attuned their law and order policies to German society history and traditions Hitler s personal convictions Nazi ideology and what he deemed to be the wishes and hopes of many people came together in deciding where it would be politically most advantageous to begin The first essay explores the political strategies used by the Third Reich to gain support for its ideologies and programs and each following essay concentrates on one group of outsiders Together the contributions debate the motivations behind the purges For example was the persecution of Jews the direct

result of intense widespread anti-Semitism or was it part of a more encompassing and arbitrary persecution of unwanted populations that intensified with the war The collection overall offers a nuanced portrayal of German citizens showing that many supported the Third Reich while some tried to resist and that the war radicalized social thinking on nearly everyone's part In addition to the editors the contributors are Frank Bajohr Omer Bartov Doris L Bergen Richard J Evans Henry Friedlander Geoffrey J Giles Marion A Kaplan Sybil H Milton Alan E Steinweis Annette F Timm and Nikolaus Wachsmann
