Near Dark:

Near Dark Stacey Abbott,2020-10-29 First released in 1987 *Near Dark* is a vampire film set in the contemporary American Midwest that tells the story of Caleb a half vampire trying to decide whether to embrace his vampire nature or return to his human family The film an early work of the now established director Kathryn Bigelow skilfully mixes genre conventions combining gothic tropes with those of the Western road movie and film noir while also introducing elements of the outlaw romance genre Stacey Abbott s study of the film addresses it as a genre hybrid that also challenges conventions of the vampire film The vampires are morally ambiguous and undermine the class structures that have historically defined stories of the undead These are not aristocrats but instead they capture the allure and horror of the disenfranchised and the underclass As Abbott describes *Near Dark* was crucial in consolidating Bigelow s standing as a director of significance at an early point in her career not simply because of her visual art background but because of the way in which she would from *Near Dark* onward re envision other traditionally mainstream genres of filmmaking

The Cinema of Kathryn Bigelow Deborah Jermyn,Sean Redmond,2003 Kathryn Bigelow is one of Hollywood s most significant female film makers well known in popular terms for films such as *Near dark* *Blue steel* and *Point break* yet remaining relatively unexplored in academia Placing particular emphasis on *Strange days* her most ambitious and controversial picture to date this collection explores Bigelow s role within New Hollywood as a film maker that blurs genre conventions reinscribes gender identities and produces a breathless cinema of attractions Back cover

The Artemis Archetype in Popular Culture Susan Redington Bobby,Eileen M. Harney,2016-03-02 Many female figures in recent fiction film and television embody the Artemis archetype modeled on the Greco Roman goddess of the hunt These characters are often identified as heroines and recognized as powerful and

progressive pop icons Some fit the image of the tough resourceful female in a science fiction or fantasy setting while others are more relatable inhabiting a possible future a recent past or a very real present Examining both iconic and lesser known works this collection of new essays analyzes the independent and capable female figure as an ideal representation of women in popular culture **Kathryn Bigelow** Susan Dudley Gold,2014-08-01 Director of Zero Dark Thirty The Hurt Locker and other films Bigelow was the first female to win the Academy Award for Best Director

Celluloid Vampires Stacey Abbott,2009-03-06 In 1896 French magician and filmmaker George M li s brought forth the first celluloid vampire in his film Le manoir du diable The vampire continues to be one of film s most popular gothic monsters and in fact today more people become acquainted with the vampire through film than through literature such as Bram Stoker s classic Dracula How has this long legacy of celluloid vampires affected our understanding of vampire mythology And how has the vampire morphed from its folkloric and literary origins In this entertaining and absorbing work Stacey Abbott challenges the conventional interpretation of vampire mythology and argues that the medium of film has completely reinvented the vampire archetype Rather than representing the primitive and folkloric the vampire has come to embody the very experience of modernity No longer in a cape and coffin today s vampire resides in major cities listens to punk music embraces technology and adapts to any situation Sometimes she s even female With case studies of vampire classics such as Nosferatu Martin Blade and Habit the author traces the evolution of the American vampire film arguing that vampires are more than just blood drinking monsters they reflect the cultural and social climate of the societies that produce them especially during times of intense change and modernization Abbott also explores how independent filmmaking techniques special effects makeup and the stunning and ultramodern computer generated effects of recent films have affected the representation of the vampire in film
