Ocular Immunology Today:

Ocular Immunology Today Masahiko Usui, Shigeaki Ohno, Koki Aoki, 1990 Organized around the following seven themes animal models molecular biology allergy immunotherapy cytokines infection and general ocular immunology the present volume constitutes a selection of the many interesting papers and review articles presented at the 5th International Symposium on the Immunology and Immunopathology of the Eye Containing the most up to date and interesting information this book will serve as a valuable reference source for both active researchers and students in the field of ophthalmology immunology and immunopathology *Immunology, Inflammation and Diseases of the Eye* Darlene A. Dartt, 2011-05-05 This selection of articles from the Encyclopedia of the Eye provides a comprehensive overview of immunological features diseases and inflammation of the eye and its support structures and organs Rather than taking an immunological focus that is strictly suitable for clinicians the volume offers a considerable basic science background and addresses a broad range of topics the immune system of the eye its various disorders mechanisms of inflammation of the eye and visual system treatment wound healing mechanisms stem cells and more The first single volume to integrate comparative studies into a comprehensive resource on the neuroscience of ocular immunology Chapters are carefully selected from the Encyclopedia of the Eye by the world's leading vision researchers The best researchers in the field provide their conclusions in the context of the latest experimental results **Annual Report** National Eye Institute, Ocular Immunology Gilbert Smolin, George Richard O'Connor, 1986 *A History of Immunology* Arthur M. Silverstein, 2009-05-30 Written by an immunologist *A History of Immunology* traces the concept of immunity from ancient times up to the present day examining how changing concepts and technologies have affected the course of the science It shows how the personalities of scientists and even political and social factors influenced both theory and practice in the field With fascinating stories of scientific disputes and shifting scientific trends each chapter examines an important facet of this discipline that has been so central to the development of modern biomedicine With its biographical dictionary of important scientists and its lists of significant discoveries and books this volume will provide the most complete historical reference in the field Written in an elegant style by long time practicing immunologist Discusses the changing theories and technologies that guided the field Tells of the exciting disputes among prominent scientists Lists all the important discoveries and books in the field Explains in detail the many Nobel prize winning contributions of immunologists **Current Catalog** National Library of Medicine (U.S.), 1991 First multi year cumulation covers six years 1965-70 Immuno-Ophthalmology U. Pleyer, M. Zierhut, W. Behrens-Baumann, F. Bandello, 1999-07 Although considerable light has been shed on the mechanisms of ocular immunity over the past 20 years a complete understanding still eludes our grasp To many ophthalmologists immunology itself is a comparatively new field This volume will bring the latest findings in immunological research and the resulting new therapy methods to the ophthalmologist in practice The scope of the topics goes from general principles of immuno ophthalmology to more specific ones such as

immunology of corneal transplantation or immune regulation of uveoretinal inflammation With its broad scope of contributions this publication will not only be significant to the ophthalmologist but also to pediatricians specialists in internal medicine as well as dermatologists confronted with eye diseases *Published Scientific Papers of the National Institutes of Health* National Institutes of Health (U.S.), National Institutes of Health (U.S.), 1990 Presents the broad outline of NIH organizational structure the professional staff and their scientific and technical publications covering work done at NIH Biology and Physiology of the Blood-Brain Barrier Pierre-Olivier Couraud, Daniel Scherman, 2013-06-29 The endothelial cells of the cerebral vasculature constitute together with perivascular elements astrocytes pericytes basement membrane the blood brain barrier BBB which strictly limits and specifically controls the exchanges between the blood and the cerebral extracellular space The existence of such a physical enzymatic and active barrier isolating the central nervous system has broad physiological biological pharmacological and pathological consequences most of which are not yet fully elucidated The Cerebral Vascular Biology conference CVB 95 was organized and held at the Carre des Sciences in Paris on July 10-12 1995 Like the CVB 92 conference held in Duluth Minnesota three years ago the objectives were to provide a forum for presentation of the most recent progresses and to stimulate discussions in the field of the biology physiology and pathology of the blood brain barrier The Paris conference gathered more than 50 participants including investigators in basic neuroscience physicians and students who actively contributed to the scientific program by their oral or poster presentations This volume contains a collection of short articles that summarize most of the new data that were presented at the conference Six thematic parts focus on physiological transports drug delivery multidrug resistance P glycoprotein signal transduction at the BBB interactions between the immune system and the cerebral endothelial cells and the blood brain barrier related pathologies in the central nervous system In addition two introductory articles present new insights in the rapidly evolving topics of cerebral angiogenesis and gene transfer to the brain New Treatments in Noninfectious Uveitis E. Miserocchi, G. Modorati, C. S. Foster, 2012-04-20 Uveitis is a potentially blinding inflammatory disease that presents one of the most serious and complicated therapeutic challenges in the field of ophthalmology During the last decade the therapeutic armamentarium of the uveitis specialist has enormously expanded Novel biologic agents and intraocular therapy are becoming a valuable alternative treatment to control ocular inflammatory diseases and inflammatory macular edema the most important cause of visual loss in patients with uveitis This publication is designed to bring together the principles of therapy of patients with noninfectious uveitis and the most recent therapeutic options available General ophthalmologists uveitis specialists as well as residents will find it a useful update on the latest innovative treatment options for patients with noninfectious uveitis
