Oddity Odyssey:

Oddity Odyssey James Chenoweth, 2000-12 Take a trip through New England's quirky past Playfully masquerading as a guided tour through each of New England's six states Oddity Odyssey is an engaging compendium of lore celebrating the region's unique landscape and history Author James Chenoweth has gathered the most memorable stories and retells them here in his own dryly humorous style There's a legendary oddity at every turn Visit the burial site of Samuel Jones leg and ponder the mystery of where the rest of him lies Where is the ghost parking lot Find out how Sin and Flesh Brook got its name Why was John Wickes buried headfirst Which New Hampshire man nearly assassinated President John F Kennedy Where is the bridge that love lost How was the clambake invented Did an apple tree really absorb the body of Roger Williams Why was John Childs banned from flying in Boston in 1757 Packed to the rafters with tales bizarre and unusual for travelers on the road or in an armchair Michael Allred Christopher Irving, 2015-10-15 Michael Allred b 1962 stands out for his blend of spiritual and philosophical approaches with an art style reminiscent of 1960s era superhero comics which creates a mixture of both postmodernism and nostalgia His childhood came during an era where pop art and camp embraced elements of kitsch and pastiche and introduced them into the lexicon of popular culture Allred's use of both in his work as a cartoonist on his signature comic book Madman in the early 1990s offset the veiled autobiography of his own spiritual journey through Mormonism and struggles with existentialism Thematically Allred's work deals heavily with the afterlife as his creations struggle with the grander questions whether his modern Frankenstein hero Madman cosmic rock n roller Red Rocket 7 the undead heroine of iZombie co created with writer Chris Roberson or the cast of superhero team book The Atomics Allred also enjoys a position in the creator driven generation that informs the current batch of independent cartoonists and has experienced his own brush with a major Hollywood studio's aborted film adaptation of Madman Allred's other brushes with Hollywood include an independent adaptation of his comic book The G Men from Hell an appearance as himself in Kevin Smith's romantic comedy Chasing Amy where he provided illustrations for a fictitious comic book the television adaptation of iZombie and an ongoing relationship with director Robert Rodriguez on a future Madman film Michael Allred Conversations features several interviews with the cartoonist from the early days of Madman's success through to his current mainstream work for Marvel Comics To read them is to not only witness the ever changing state of the comic book industry but also to document Allred's growth as a creative genius **The Third Reich** Michael Burleigh, 2001-11 Michael Burleigh's The Third Reich presents a major study of one of the twentieth century's darkest periods Until now there has been no up to date one volume international history of Nazi Germany despite its being among the most studied phenomena of our time The Third Reich restores a broad perspective and intellectual unity to issues that have become academic subspecialties and offers a brilliant new interpretation of Hitler's evil rule Filled with human and moral considerations that are missing from theoretical accounts Michael Burleigh's book gives full weight to the experience of ordinary people who were swept up in or repelled by

Hitler's movement and emphasizes how international themes for Nazi Germany appealed to many European nations. It also focuses on the Nazi's wartime conduct to dominate the Continental economy and involve gigantic population transfers and exterminations, recruitment of foreign labor and multinational armies. *David Bowie* Martin Popoff, 2024-09-17 This value-priced reissue of *Bowie at 75* celebrates the beloved rock star with expert commentary and hundreds of images. Hendrix, Joplin, Mercury: few rock artists garner as much adulation after passing as they did in life. In *David Bowie*, veteran rock journalist Martin Popoff examines the rocker's extraordinary life through the lens of 75 significant career achievements and life events, guiding you through all 27 studio albums as well as a curated selection of earworm singles. But Popoff delves deeper to reveal the events that helped chart the course of Bowie's career. Guest appearances with artists like Iggy Pop, Lou Reed, Tina Turner, and Queen. Key performances such as Live Aid. Collaborations with an incredible roster of guitarists that included Mick Ronson, Adrian Belew, Robert Fripp, Stevie Ray Vaughan, Nile Rodgers, and Earl Slick. Film and television roles, *Romance*, and more. From his eponymous 1967 debut LP and ending with *Blackstar* released just two days before his death, Bowie is regarded as one of the most influential musicians and performers of the previous five decades during which he constantly redefined himself. In examining 75 touchstones, Popoff gives you a unique view of Bowie's career arc from folkie to the breakthrough single *Space Oddity* to his flamboyant glam rock alter ego Ziggy Stardust and beyond. Illustrated with live concert and candid offstage photography and more, this book is a stunning tribute to one of the most influential and admired stars in rock history. **Bowie at 75** Martin Popoff, 2022-09-06 *Bowie at 75* celebrates the anniversary of the rock icon's birth with this beautifully produced retrospective of 75 touchstone achievements and life events. **Strange Stars** Jason Heller, 2018-06-05 A Hugo Award-winning author and music journalist explores the weird and wild story of when rock n roll met the sci-fi world of the 1970s. As the 1960s drew to a close and mankind trained its telescopes on other worlds, old conventions gave way to a new kind of hedonistic freedom that celebrated sex, drugs, and rock n roll. Derided as nerdy or dismissed as fluff, science fiction rarely gets credit for its catalyzing effect on this revolution. In *Strange Stars*, Jason Heller recasts sci-fi and pop music as parallel cultural forces that depended on one another to expand the horizons of books, music, and out-of-this-world imagery. In doing so, he presents a whole generation of revered musicians as the sci-fi obsessed conjurers they really were: from Sun Ra lecturing on the black man in the cosmos to Pink Floyd jamming live over the broadcast of the Apollo 11 moon landing; from a wave of Star Wars disco chart toppers and synthesizer-wielding post-punks to Jimi Hendrix distilling the purplish haze he discovered in a pulp novel into psychedelic song. Of course, the whole scene was led by David Bowie, who hid in the balcony of a movie theater to watch *2001: A Space Odyssey* and came out a changed man. If today's culture of Comic Con fanatics, superhero blockbusters, and classic sci-fi reboots has us thinking that the nerds have won at last, *Strange Stars* brings to life an era of unparalleled and unearthly creativity in magazines, novels, films, records, and concerts to point out that the nerds have been winning all along. Reading Programs for Young Adults Martha Seif

Simpson,2015-11-16 School and public libraries often provide programs and activities for children in preschool through the sixth grade but there is little available to young adults For them libraries become a place for work the place to research an assignment or find a book for a report but the thought of the library as a place for enjoyment is lost So how do librarians recapture the interest of teenagers This just might be the answer Here you will find theme based units such as Cartoon Cavalcade Log On at the Library Go in Style Cruising the Mall Space Shots Teens on TV and 44 others that are designed for young adults Each includes a display idea suggestions for local sponsorship of prizes a program game to encourage participation 10 theme related activities curriculum tie in activities sample questions for use in trivia games or scavenger hunts ideas for activity sheets a bibliography of related works and a list of theme related films The units are highly flexible allowing any public or school library to adapt them to their particular needs

Dieses Buch ist eine wahre Fundgrube zum richtigen sprachlichen und inhaltlichen Verständnis von mehr als 300 legendären Pop, Folk und Rocksongs der 60er und 70er Jahre. Berücksichtigt wurden sowohl Songs, die es in diesen Jahren bis weit nach oben in die Charts schafften, ebenso wie Folk und Rocksongs, die auch ohne großen Charts-Erfolg zu Legenden ihrer Musik wurden. Wenn in diesem Buch Titel wie *Imagine* oder *Yesterday* nicht erwähnt werden, dann liegt das ausschließlich daran, dass diese wunderbaren Lieder gar keine erklärenden Textpassagen aufweisen.
