Creating Global Capitalism Espen Storli,Marten Boon,2024-10-04 This book provides a unique insight into the world of commodity trading companies often depicted as the hidden companies of the global economy and showcases how they were instrumental in bringing about the economic integration of new commodities and far flung regions into the first global economy in the late nineteenth and early twentieth century The late nineteenth century witnessed an unprecedented phase of global economic integration As organisers of global trade trading companies specialising in commodities were instrumental in creating this first global economy From soybeans to cultural artefacts from seal hides to rubber trading companies connected far flung regions at or beyond the frontier of empires to a growing global market for these commodities Satisfying the unsatiable appetite for commodities of industrializing economies in North America Europe and East Asia their nimble organisations and specialised trading skills allowed trading companies to harness imperial geopolitics latch onto local networks and move across borders This book brings together a collection of case studies of commodity trading companies across a range of commodities and regions between the 1870s and the 1930s Through the lens of global value chains the contributions showcase how these companies continuously adapted their businesses to a world that was at once economically more integrated but politically increasingly competitive in this age of high imperialism and national competition The chapters in this book were originally published as a special issue of Business History

Ukraine's Many

Faces Olena Palko, Manuel Férez Gil, 2023-08-22 Russia's large scale invasion on the 24th of February 2022 once again made Ukraine the focus of world media. Behind those headlines remain the complex developments in Ukraine's history, national identity, culture, and society. Addressing readers from diverse backgrounds, this volume approaches the history of Ukraine and its people through primary sources from the early modern period to the present. Each document is followed by an essay written by an expert on the period and a conversational piece touching on the ongoing Russian aggression against Ukraine. In this ground-breaking collection, Ukraine's history is sensitively accounted for by scholars inviting the readers to revisit the country's history and culture. With a foreword by Olesya Khromeychuk.

Cosmopolitan Spaces in Odesa Mirja Lecke, Efraim Sicher, 2023-07-25 Cosmopolitan Spaces in Odesa A Case Study of an Urban Context is the first book to explore Odesa's cosmopolitan spaces in an urban context from the nineteenth to twenty-first centuries. Leading scholars shed new light on encounters between Jewish, Ukrainian, and Russian cultures. They debate different understandings of cosmopolitanism as they are reflected in Odesa's rich multilingual culture ranging from intellectual history and education to music, opera, and literature. The issues of language and interethnic tensions, imperialist repression, and language choice are still with us today. Moreover, the book affords a historical view of what lay behind the Odesa myth, as well as insights into the Jewish and Ukrainian cultural revivals of the early twentieth century.

Borderland Anna Reid, 2023-02-07 A beautifully written evocation of Ukraine's brutal past and its shaky efforts to construct a better future. Financial Times. Borderland tells the story of Ukraine. A thousand years ago it was the center of the first great Slav civilization, Kievan Rus. In 1240 the Mongols invaded from the east and for the next seven centuries Ukraine was split between warring neighbors: Lithuanians, Poles, Russians, Austrians, and Tatars. Again and again, borderland turned into battlefield during the Cossack risings of the seventeenth century, Russia's wars with Sweden in the eighteenth, the Civil War of 1918-1920, and under Nazi occupation. Ukraine finally won independence in 1991 with the collapse of the Soviet Union. Bigger than France and as populous as Britain, it has the potential to become one of the most powerful states in Europe. In this finely written and penetrating book, Anna Reid combines research and her own experiences to chart Ukraine's tragic past. Talking to peasants and politicians, rabbis and racketeers, dissidents and paramilitaries, survivors of Stalin's famine and of Nazi labor camps, she reveals the layers of myth and propaganda that wrap this divided land. From the Polish churches of Lviv to the coal mines of the Russian-speaking Donbass, from the Galician shtetlekh to the Tatar shantytowns of Crimea, the book explores Ukraine's struggle to build itself a national identity and identity that faces up to a bloody past and embraces all the peoples within its borders.

Jews in Russian Literature After the October Revolution Efraim Sicher, 1995-12-07 This work is an innovative and controversial study of how four famous Jews writing in Russian in the early Soviet period attempted to resolve the conflict between their cultural identity and their place in Revolutionary Russia. Babel, Mandelstam, Pasternak, and Ehrenburg struggled in very different ways to form creative selves out of the contradictions of origins, outlook,

and social or ideological pressures Efraim Sicher also explores the broader context of the literature and art of the Jewish avant garde in the years immediately preceding and following the Russian Revolution By comparing literary texts and the visual arts the author reveals unexpected correspondences in the response to political and cultural change This study contributes to our knowledge of an important aspect of modern Russian writing and will be of interest to both Jewish scholars and those concerned with Slavonic studies **Problems of Communism** ,1989
