Of God Who Comes To Mind Meridian Stanford Calif:

Of God Who Comes to Mind Emmanuel Lévinas, 1998 The thirteen essays collected in this volume investigate the possibility that the word God can be understood now at the end of the twentieth century in a meaningful way Nine of the essays appear in English translation for the first time Among Levinas's writings this volume distinguishes itself both for students of his thought and for a wider audience by the range of issues it addresses Levinas not only rehearses the ethical themes that have led him to be regarded as one of the most original thinkers working out of the phenomenological tradition but he also takes up philosophical questions concerning politics language and religion The volume situates his thought in a broader intellectual context than have his previous works In these essays alongside the detailed investigations of Husserl Heidegger Rosenzweig and Buber that characterize all his writings Levinas also addresses the thought of Kierkegaard Marx Bloch and Derrida Some essays provide lucid expositions not available elsewhere to key areas of Levinas's thought **God and Philosophy** is perhaps the single most important text for understanding Levinas and is in many respects the best introduction to his works **From Consciousness to Wakefulness** illuminates Levinas's relation to Husserl and thus to phenomenology which is always his starting point even if he never abides by the limits it imposes In **The Thinking of Being and the Question of the Other** Levinas not only addresses Derrida's **Speech and Phenomenon** but also develops an answer to the later Heidegger's account of the history of Being by suggesting another way of reading that history Among the other topics examined in the essays are the Marxist concept of ideology death hermeneutics the concept of evil the philosophy of dialogue the relation of language to the Other and the acts of communication and mutual understanding

The Event of the Good Christopher Buckman, Melissa Bradley, Jack Marsh, James McLachlan, 2025-07-01 Centers on the ethics of Emmanuel Levinas aiming to understand this important thinker on his own terms To read Levinas in a Levinasian way means to understand this important thinker on his own terms thinking ethics as first philosophy without reducing his role to that of a contributor to some other discourse such as phenomenology deconstruction or religious traditions other than his own This volume offers a variety of interventions into how the priority of the ethical as formulated by Emmanuel Levinas and seconded by Richard A Cohen one of his preeminent interpreters reorients philosophy to its own questioning indeed to its very sense of itself as meaningful In the decades since Levinas first emerged as a profound and critical voice many have used his thought to illuminate a broad range of philosophical questions Often this has occurred in ways that have deemphasized or altered what is arguably Levinas's most radical gesture reframing philosophy indeed reframing the meaning of meaning via an ethical turn To this end the essays in this volume drawing especially on Cohen's reading of Levinas offer insights into how appropriations and assessments of his philosophy might become more in line with the urgency and full meaning of his notion of the ethical Whether discussing ethics aesthetics politics or Jewish thought when taken together they enhance our comprehension of ethics and Levinas's philosophy of responsibility

God, Death, and Time Emmanuel Lévinas, 2000 This book consists of

transcripts from two lecture courses on ethical relation Levinas delivered at the Sorbonne In seeking to explain his thought to students he utilizes a clarity and an intensity altogether different from his other writings *Nietzsche and Levinas* Jill Stauffer,Bettina Bergo,2009 This work locates multiple affinities between the philosophies of Nietzsche and L vinas finding that both questioned the nature of subjectivity and the meaning of responsibility after the death of God and argued the goodness exists independently of a na ve faith in reason *Human Conscience and Muslim-Christian Relations* Oddbjørn Leirvik,2007-01-24 Human Conscience and Muslim Christian Relations puts forward a discussion of how the notion of conscience may unite Muslim and Christians across religious divides as well as examining the relation between selfhood and otherness in interfaith dialogue The author explores how the notion of conscience has been dealt with by modern Egyptian authors and discusses their works in light of how Christian Muslim relations in Egypt have evolved during the modern period

Letter and the Spirit of Nineteenth-Century American Literature Thomas Loebel,2005 Moving back to the trial of Anne Hutchinson in Puritan Massachusetts and the captivity narrative of Mary Rowlandson in order to analyse theo political signification Loebel provides a new context for examining the politically performative function of language in such texts as The Scarlet Letter Uncle Tom s Cabin and Waiting for the Verdict He also argues however that a specific theo logic manifests itself in the political rhetoric of the nation such that the afterlife of the New Jerusalem resonates not just in the Blessings of Liberty enshrined in the Constitution but also in the shift from a religious understanding of union with Jesus to that of the Union of States as a nation theorising representation as a political theological legal and literary issue that has continued currency both in twentieth century literature and in the political discourse of America s global vision such as the axis of evil and the new world order Anyone interested in American literature and culture will view the relationship between ethics and justice differently after reading this book *Cross and Khôra* Marko Zlomislíć,Neal DeRoo,2010-01-01 This volume poses the question of the relationship between the two main influences on the thought of John D Caputo one of the most well known philosophers of religion working in North America today Jacques Derrida and Jesus Christ Given the seemingly abstract character of Derrida s account of the messianic how can one reconcile deconstruction and the concrete messianism of Christianity as Caputo tries to do over and over again How can one hold together the love of a God willing to be crucified and the dry desert khora which doesn t care This collection of essays from world renowned scholars seeks to illuminate the difficulties inherent in this seemingly contradictory pair of influences With his trademark wit and humor Caputo responds to his interlocutors while clarifying his position on numerous matters of interest to the church and in the academy In addition to dealing with the concern for issues of hermeneutics phenomenology and negative theology for which Caputo has become famous these essays also evaluate Caputo s legacy in fields previously not thought to be affected by his deconstructive version of religion feminism sacramental theology Analytic philosophy of religion and Christology *American Book Publishing Record* ,2004 **Is It Righteous to Be?** Emmanuel Lévinas,Jill Robbins,2001 In the twenty interviews collected

in this volume seventeen of which appear in English for the first time Levinas sets forth the central features of his ethical philosophy and discusses biographical matters not available elsewhere *Convergence amidst Difference* Calvin O. Schrag, 2012-02-01 Calvin O Schrag one of America s leading philosophers traverses the literal and metaphysical boundaries of Bulgaria England France Russia and the Czech Republic and offers a new examination of hermeneutics phenomenology subjectivity and transnational identity He presents his notion of rationality transversal rationality with unusual clarity and simplicity while encouraging the continuing philosophic dialogue of humankind across cultures
