Winks, 1999 This volume investigates the shape and the development of scholarly and popular opinion about the British Empire over the centuries **Representing the South Pacific** Rod Edmond, 1997-11-20 This book examines how the South Pacific was represented by explorers missionaries travellers writers and artists between 1767 and 1914 by drawing on history literature art history and anthropology Edmond engages with colonial texts and postcolonial theory criticising both for their failure to acknowledge the historical specificity of colonial discourses and cultural encounters and for continuing to see indigenous cultures in essentially passive or reactive terms The book offers a detailed and grounded reading back of these colonial discourses into the metropolitan centres which gave rise to them while resisting the idea that all representations of other cultures are merely self representations Among its themes are the persistent myth making around the figure of Cook the western obsession with Polynesian sexuality tattooing cannibalism and leprosy and the Pacific as a theatre for adventure and as a setting for Europe s displaced fears of its own cultural extinction *Islands* Steven Roger Fischer, 2013-02-15 When Lost s Oceanic Airlines Flight 815 crashed the survivors found themselves on a seemingly deserted island In Defoe s novel Robinson Crusoe spends twenty eight years on a remote tropical island near Trinidad while in the

movie Castaway Tom Hanks survives over four years on a South Pacific island And Jurassic Park kept its dinosaur population confined to an island off the coast of Central America Islands often find themselves at the center of imagined worlds secluded and sometimes mystical locales filled with strange creatures and savage populations The cannibals raptors and smoke monsters that exist on the islands of popular culture aside the more than one million islands and islets on the planet are indeed small geological biological and cultural laboratories From Britain to Japan from the Galapagos to Manhattan this book roams the planet to provide the first global introduction to these waterlocked landforms Longtime island dweller Steven Roger Fischer shows that since time began islands have been one of the primary birthplaces for plants animals and proto humans These eyots of stone and sand whether in ocean lake or river fostered the human race and Fischer recounts how humanity then exploited these remarkable habitats as stepping stones to global dominion He explores island economics warfare and politics and he examines the role they have played in literature art and psychology At the same time he sparks our imagination with visions of islands from Atlantis to Tahiti Treasure Island to Hawaii Ultimately he reveals these isolated mini worlds are a measure of humankind itself An engaging account of the islets that have enriched lured terrified and inspired us Islands shines new light on these cradles of earth and human history Thirteen Bones Tom King, 2009-09

Thirteen Bones is fiction incorporating facts uncovered by The International Group for Historic Aircraft Recovery TIGHAR during twenty years of investigation into Earhart s and Noonan s disappearance It includes the flurry of telegrams that went between Settlement Scheme Administrator Gerald B Gallagher and his superiors in Fiji reporting the discovery and deciding what to do about it It proposes a geopolitical reason that the British authorities did not report the discovery to the Americans even though the bones were suspected to be Earhart s
