Of Spirit Jacques Derrida, 1989 I shall speak of ghost of flame and of ashes These are the first words of Jacques Derrida's lecture on Heidegger It is again a question of Nazism of what remains to be thought through of Nazism in general and of Heidegger's Nazism in particular It is also politics of spirit which at the time people thought they still want to today to oppose to the inhuman Derrida's ruminations should intrigue anyone interested in Post Structuralism This study of Heidegger is a fine example of how Derrida can make readers of philosophical texts notice difficult problems in almost imperceptible details of those texts David Hoy London Review of Books Will a more important book on Heidegger appear in our time No not unless Derrida continues to think and write in his spirit Let there be no mistake this is not merely a brilliant book on Heidegger it is thinking in the grand style David Farrell Krell Research in Phenomenology The analysis of Heidegger is brilliant provocative elusive Peter C Hodgson Religious Studies Review

Of Derrida, Heidegger, and Spirit David Wood, 1993 Jacques Derrida's *De l'esprit Heidegger et la question* is one of his most interesting and accessible later works In it Derrida attempts to come to terms with Heidegger's Nazi connections by way of an extended reflection on Heidegger's use of the term *Geist* In *Of Derrida Heidegger and Spirit* David Wood presents a variety of powerful and distinctive responses to Derrida's book

Interpreting Hegel's Phenomenology of Spirit Ivan Boldyrev, Sebastian Stein, 2021-11-29 This book focuses on the interpretations of Hegel's *Phenomenology of Spirit* that have proved influential over the past decades Current readers of Hegel's *Phenomenology* face an abundance of interpretive literature devoted to this difficult text and confront a plethora of different philosophical presuppositions research strategies and hermeneutic efforts To enable a better orientation within the interpretative landscape the essays in this volume summarize contextualize and critically comment on the issues and currents in contemporary Phenomenology scholarship

There is a common set of three questions that each of the contributions seeks to answer 1 What kind of text is The Phenomenology of Spirit 2 What do the different strategies of interpretation conceptually bring to the text 3 How do different interpreters justify their verdict on whether the Phenomenology is still a viable project Derrida and Disinterest Sean Gaston,2005-04-14 Disinterest has been a major concept in Western philosophy since Descartes Its desirability and importance have been disputed and its definition reworked by such pivotal figures as Nietzsche Shaftesbury Locke and Kant In this groundbreaking book Sean Gaston looks at the treatment of disinterest in the work of two major modern Continental philosophers Jacques Derrida and Emmanuel Levinas He identifies both as part of a tradition obscured since the eighteenth century that takes disinterest to be the opposite of self interest rather than the absence of all interest Such a tradition locates disinterest at the centre of thinking about ethics The book argues that disinterest plays a significant role in the philosophy of both thinkers and in the dialogue between their work In so doing it sheds new light on their respective contributions to moral and political philosophy Moreover it traces the history of disinterest in Western philosophy from Descartes to Derrida taking contributions and in the of major philosopher in both the analytic Anglo American and Continental traditions Locke Shaftesbury Hume Smith Nietzsche Kant Hegel Heidegger Derrida and Disinterest offers a new reading of Derrida a stimulating account of the role and importance of disinterest in the history of Western philosophy and a provocative and original contribution to Continental ethics Judaism, Philosophy, and Psychoanalysis in Heidegger's Ontology Federico Dal Bo,2023-11-17 In this book Federico Dal Bo analyzes the question of Heidegger's anti-Semitism from a deconstructive point of view appealing not only to philosophy but also to psychoanalysis gender studies and critical studies Deconstruction famously discourages simplistic oppositions whilst encouraging a more careful analysis of cultural and philosophical complexities of a semantic field In the present case a deconstructive analysis of Heidegger's anti-Semitism rejects both a stern condemnation of his oeuvre and a simplistic acquittal from this infamous accusation It rather suggests that the question of his anti-Semitism shall be examined from the broader perspective from the end of metaphysics **Life after God: An Encounter with Postmodernism** Mark Bevir,2022-03-16 In this volume Mark Bevir argues that postfoundationalism is compatible with humanism and historicism He shows how postmodernists especially Derrida and Foucault drew on structuralism and the avant garde in ways that led them to downplay human agency and historical context He then explores how we today might recover and rethink humanism and historicism And finally he discusses the critical and ethical practices that such ideas might inspire **Unconditional Life** Yoriko Otomo,2016 Looking at how international law regulates and is itself influenced by technology and risk this book illustrates how and why international law has been unable to properly deal with large scale technological risk Through delving into its nature international law is shown itself to be a technology **The Bloomsbury Companion to Heidegger** Francois Raffoul,Eric S.
