Of Heretics And Martyrs In Meiji Japan Buddhism And Its Per:

Of Heretics and Martyrs in Meiji Japan James Edward Ketelaar, 2020-12-08 How did Buddhism so prominent in Japanese life for over a thousand years become the target of severe persecution in the social and political turmoil of the early Meiji era How did it survive attacks against it and reconstitute itself as an increasingly articulate and coherent belief system and a bastion of the Japanese national heritage Here James Ketelaar elucidates not only the development of Buddhism in the late nineteenth century but also the strategies of the Meiji state

Of Heretics and Martyrs in Meiji Japan James Edward Ketelaar, 1990 Buddhist Modernities Hanna Havnevik, Ute Hüsken, Mark Teeuwen, Vladimir Tikhonov, Koen Wellens, 2017-02-17 The transformations Buddhism has been undergoing in the modern age have inspired much research over the last decade The main focus of attention has been the phenomenon known as Buddhist modernism which is defined as a conscious attempt to adjust Buddhist teachings and practices in conformity with the modern norms of rationality science or gender equality This book advances research on Buddhist modernism by attempting to clarify the highly diverse ways in which Buddhist faith thought and practice have developed in the modern age both in Buddhist heartlands in Asia and in the West It presents a collection of case studies that taken together demonstrate how Buddhist traditions interact with modern phenomena such as colonialism and militarism the market economy global interconnectedness the institutionalization of gender equality and recent historical events such as de industrialization and the socio cultural crisis in post Soviet Buddhist areas This volume shows how the re invention of traditions constitutes an important pathway in the development of Buddhist modernities and emphasizes the pluralistic diversity of these forms in different settings Learning from the West, Learning from the East: The Emergence of the Study of Buddhism in Japan and Europe before 1900 Stephan Kigensan

Licha, Hans-Martin Krämer, 2023-09-04 The essays collected in this volume for the first time foreground the fundamental role Asian actors played in the formation of scholarly knowledge on Buddhism and the emergence of Buddhist studies as an academic discipline in Europe and Asia during the second half of the nineteenth century The contributions focus on different aspects of the interchange between Japanese Buddhists and their European interlocutors ranging from the halls of Oxford to the temples of Nara They break the mould of previous scholarship and redress the imbalances inherent in Eurocentric accounts of the construction of Buddhism as an object of professorial interest Contributors are Micah Auerback Mick Deneckere Stephan Kigensan Licha Hans Martin Kr mer mi Toshihiro Jakub Zamorski Suzanne Marchand Martin Baumann Catherine Fhima and Roland Lardinois

Nanzan Guide to Japanese Religions Paul L. Swanson, Clark Chilson, 2005-10-31 For updates online visit the Nanzan Guide site at Nanzan Library of Asian Religion and Culture The Nanzan Guide to Japanese Religions combines for the first time in any language state of the field theoretical and critical discussions with concrete resources students and scholars need to conduct research on Japanese religions Even seasoned scholars typically approach their research in an unsystematic manner becoming familiar with a particular area of inquiry while remaining

largely unaware of what exists in the rest of the field This inefficient method hinders particularly less experienced researchers and circumscribes their lines of inquiry The Nanzan Guide provides both beginners and specialists with a reference that will serve as a basic introduction to Japanese religions and allow them to conduct research more proficiently and in greater depth Overlapping and thought provoking chapters written by leading specialists offer a variety of perspectives on the complicated and multifaceted field of Japanese religions The essays are divided into four sections religious traditions Japanese religions in general Shinto Buddhism folk religion new religions Christianity the history of Japanese religions ancient classical medieval early modern modern contemporary major themes symbolism ritual and the arts literature and scripture state and religion geography and environment intellectual history gender and practical essays finding references and using libraries working with archive collections conducting fieldwork A chronology of religion in Japanese history is also provided

The Global Repositioning of Japanese Religions Ugo Dessi, 2016-07-01 The Global Repositioning of Japanese Religions An Integrated Approach explores how Japanese religions respond to the relativizing effects of globalization thereby repositioning themselves as global players Organized around concrete case studies focusing on the engagement of Japanese Buddhism Shinto and several new religious movements in areas such as ecology inter religious dialogue and politics this book shows that the globalization of Japanese religions cannot be explained simply in terms of worldwide institutional expansion Rather it is a complex phenomenon conditioned by a set of pervasive factors changes in consciousness the perception of affinities and resonances at the systemic and cultural levels processes of decontextualization and a wide range of power issues including the re enactment of cultural chauvinism The author investigates these dynamics systematically with attention to broader theoretical questions cross cultural similarities the definition of religion and the perils of ethnocentrism in order to develop his Global Repositioning model which constitutes an integrated approach to the study of Japanese religions under globalization An empirically grounded and theoretically informed study of the effects of global trends on local religions this book will appeal to scholars and students with interests in globalization religious studies Japanese studies Hawaii sociology anthropology and ecology

Japan's Colonization of Korea Alexis Dudden, 2006-12-18 From its creation in the early twentieth century policymakers used the discourse of international law to legitimate Japan's empire Although the Japanese state aggrandizers reliance on this discourse did not create the imperial nation Japan would become their fluent use of its terms inscribed Japan's claims as legal practice within Japan and abroad Focusing on Japan's annexation of Korea in 1910 Alexis Dudden gives long needed attention to the intellectual history of the empire and brings to light presumptions of the twentieth century's so called international system by describing its most powerful and most often overlooked member's engagement with that system Early chapters describe the global atmosphere that declared Japan the legal ruler of Korea and frame the significance of the discourse of early twentieth century international law and how its terms became Japanese Dudden then brings together these discussions in her analysis

of how Meiji leaders embedded this discourse into legal precedent for Japan particularly in its relations with Korea Remaining chapters explore the limits of these universal ideas and consider how the international arena measured Japan's use of its terms Dudden squares her examination of the legality of Japan's imperialist designs by discussing the place of colonial policy studies in Japan at the time demonstrating how this new discipline further created a common sense that Japan's empire accorded to knowledgeable practice This landmark study greatly enhances our understanding of the intellectual underpinnings of Japan's imperial aspirations In this carefully researched and cogently argued work Dudden makes clear that even before Japan annexed Korea it had embarked on a legal and often legislating mission to make its colonization legitimate in the eyes of the world Learning To Be Modern Byron Marshall, 2018-03-08 Emphasizing the political discourse and conflict that have surrounded Japanese education this book focuses on the three main issues of central versus local control elitism versus equality and nationalism versus universalism Suicidal Honor Doris G. Borgen, 2006-09-30 On September 13 1912 the day of Emperor Meiji's funeral General Nogi Maresuke committed ritual suicide by seppuku disembowelment It was an act of delayed atonement that paid a debt of honor incurred thirty five years earlier The revered military hero's wife joined in his act of junshi following one's lord into death The violence of their double suicide shocked the nation What had impelled the general and his wife on the threshold of a new era to resort so drastically so dramatically to this forbidden anachronistic practice The nation was divided There were those who saw the suicides as a heroic affirmation of the samurai code others found them a cause for embarrassment a sign that Japan had not yet crossed the cultural line separating tradition from modernity While acknowledging the nation's sharply divided reaction to the Nogis junshi as a useful indicator of the event's seismic impact on Japanese culture Doris G Borgen in the first half of her book demonstrates that the deeper significance of Nogi's action must be sought in his personal history enmeshed as it was in the tumultuous politics of the Meiji period Suicidal Honor traces Nogi's military career and personal travail through the armed struggles of the collapsing shogunate and through the two wars of imperial conquest during which Nogi played a significant role the Sino Japanese War 1894 1895 and the Russo Japanese War 1904 1905 It also probes beneath the political to explore the religious origins of ritual self sacrifice in cultures as different as ancient Rome and today's Nigeria Seen in this context Nogi's death was homage to the divine emperor But what was the significance of Nogi's waiting thirty five years before he offered himself as a human sacrifice to a dead rather than living deity To answer this question Borgen delves deeply and with great insight into the story of Nogi's conflicted career as a military hero who longed to be a peaceful man of letters In the second half of Suicidal Honor Borgen turns to the extraordinary influence of the Nogis deaths on two of Japan's greatest writers Mori gai and Natsume S seki gai's historical fiction written in the immediate aftermath of his friend's junshi is a profound meditation on the significance of ritual suicide in a time of historical transition Stories such as *The Sakai Incident* *Sakai jiken* appear in a new light and with greatly enhanced resonance in Borgen's interpretation In S seki's masterpiece *Kokoro Sensei* the

protagonist refers to the emperor's death and his general's junshi before taking his own life. Scholars routinely mention these references but Barger demonstrates convincingly the uncanny ways in which Sasaki's agonized response to Nogi's suicide structures the entire novel. By exploring the historical and literary legacies of Nogi and Sasaki from an interdisciplinary perspective, *Suicidal Honor* illuminates Japan's prolonged and painful transition from the idealized heroic world of samurai culture to the mundane anxieties of modernity. It is a study that will fascinate specialists in the fields of Japanese literature, history, and religion and anyone seeking a deeper understanding of Japan's warrior culture.

Reopening the Opening of Japan Lewis Bremner, Manimporok Dotulong, Sho Konishi, 2023-10-30. The Opening of Japan has been central to the retelling of Japan's modern history. *Reopening the Opening of Japan* fundamentally reconsiders what that historical moment entailed. What did intensified connections between Japan and the world mean both inside and outside of the country and what does this tell us about Japan's historical significance on a global scale? The chapters excavate a rich array of surprising cross-border connections from the global trade in mummified mermaids to the Japanese-Russian intellectual links underpinning the work of Akira Kurosawa. Rethinking connectivity through non-state transnational perspectives, the book guides readers to new ways of doing and writing history. Contributors are Lewis Bremner, Natalia Doan, Manimporok Dotulong, Maki Fukuoka, Eiko Honda, Sho Konishi, Mateja Kovacic, Joel Littler, Chinami Oka, Yu Sakai, Olga Solovieva, and Warren Stanislaus.
