The Play of Time Janet Hoskins,1994-01-05 Janet Hoskins provides both an ethnographic study of the organization of time in an Eastern Indonesian society and a theoretical argument about alternate temporalities in the modern world Based on more than three years of field work with the Kodi people of the island of Sumba her book focuses on Kodi calendrical rituals exchange transactions and confrontations with the historical forces of the colonial and postcolonial world Hoskins explores the contingent contested and often contradictory precedent of the past to show how local systems of knowledge are in dialogue with wider historical forces Arguing that traditional temporality is more complex than many theorists have realized Hoskins highlights the flexibility and relativity of local time concepts whose sophistication belies the cliché of simple societies living in a world outside of time

Enacting Musical Time Mariusz Kozak,2020 A compelling approach among works on temporality phenomenology and the ecologies of the new sound worlds Enacting Musical Time argues that musical time is itself the site of the interaction between musical sounds and a situated embodied listener created by the moving bodies of participants engaged in musical activities

Who Guards the Guardians? Peter Raine,2003 This book attempts to link ecology philosophy and theology through an exploration of a new model of intercultural dialogue Case studies provide practical and theoretical applications which lead to a deeper understanding of not only environmental guardianships but also the fundamental relationship between human beings and nature s being

The Tyranny of Time Robert Banks,1997-03-04 The problem of too little time says Robert Banks is a real one The notion of increased leisure time is a myth From a distinctly Christian perspective Banks explains how we can break out of the time prison at work and at church as individuals and as families He emphasizes who we are over what we do and shows how we can develop a sense of

personal and social rhythms **Time at Emar** Daniel E. Fleming, 2000-06-30 The recent large scale watershed projects in northern Syria where the ancient city of Emar was located have brought this area to light thanks to salvage operation excavations before the area was submerged Excavations at Meskenah Qadimeh on the great bend of the Euphrates River revealed this large town which had been built in the late 14th century and then destroyed violently at the beginning of the 12th at the end of the Bronze Age In the town of Emar ritual tablets were discovered in a temple that are demonstrated to have been recorded by the supervisor of the local cult who was called the diviner This religious leader also operated a significant writing center which focused on both administering local ritual and fostering competence in Mesopotamian lore An archaic local calendar can be distinguished from other calendars in use at Emar both foreign and local A second overlapping calendar emanated from the palace and represented a rising political force in some tension with rooted local institutions The archaic local calendar can be partially reconstructed from one ritual text that outlines the rites performed during a period of six months The main public rite of Emar s religious calendar was the zukru festival This event was celebrated in a simplified annual ritual and in a more elaborate version of the ritual for seven days during every seventh year probably serving as a pledge of loyalty to the chief god Dagan The Emar ritual calendar was native in spite of various levels of outside influence and thus offers important evidence for ancient Syrian culture These texts are thus important for ancient Near Eastern cultic and ritual studies Fleming s comprehensive study lays the basic groundwork for all future study of the ritual and makes a major contribution to the study of ancient Syria **Time and Time Again** Fraser, 2007-02-23 This work represents a guided tour to the interdisciplinary integrated study of time Through twenty two connected essays selected from the author s extensive writings Time and Time Again advances new insights into understanding the nature of time seen through philosophy the arts and letters the sciences of matter life mind and society Traditionally attitudes to future past and present remained distinct for different cultures But upon the globalizing earth all cultural regions are now in instant by instant communication There is a consequent turmoil about individual and collective identities and about value judgments in all of which attitudes to time play crucial roles The book explores this turmoil and through its references it also serves as a guide to the broadly spread literature about time *Ibn 'Arabî - Time and Cosmology* Mohamed Haj Yousef, 2014-04-04 This book is the first comprehensive attempt to explain Ibn Arab s distinctive view of time and its role in the process of creating the cosmos and its relation with the Creator By comparing this original view with modern theories of physics and cosmology Mohamed Haj Yousef constructs a new cosmological model that may deepen and extend our understanding of the world while potentially solving some of the drawbacks in the current models such as the historical Zeno s paradoxes of motion and the recent Einstein Podolsky Rosen paradox EPR that underlines the discrepancies between Quantum Mechanics and Relativity
