attacks A counter attack will be launched on Cuba to finish off the nation Thus unfolds the future strategy of the Vulcans in America as well as their treachery bribery and double agents in the CIA FBI and other intelligence agencies The Vulcans turn their eyes on the oil rich nations to bring regime changes in these countries and 9 11 serves as an excuse to attack Afghanistan Iraq Libya Syria and now Iran as the next target The attacks on the World Trade Center and Pentagon were carried out by hijacking planes The hijackers got their training in American schools but who paid for the training Events like 9 11 bring out the best and worst in mankind What other questions should we be asking About the Author Dr Surinder Singh Sidhu is a medical doctor in India My basic instinct to know the truth inspired me in writing this book I was very upset to know about the mysteries of 9 11 and the never ending wars that followed I love peace and want the people of this earth to live in peace Publisher s website <http://sbpra.com> SurinderSinghSidhu *Energy and US Foreign Policy* Ahmed Mahdi,2012-01-30 The quest for oil can be seen as a defining principle of global US foreign policy an imperative which has shaped and redefined the practice of American diplomacy especially in the wake of 9 11 which raised questions about the stability of global oil resources In *Energy and US Foreign Policy* Ahmed Mahdi relates the military expansion of the world s biggest superpower to its quest to gain guaranteed and secure access to the world s most important commodity Examining the foreign policy of George Bush Sr Bill Clinton and George W Bush culminating in the unprecedented military campaigns of the latter Mahdi demonstrates how and why oil has played a central role in US relations with the wider world By dissecting the failures of the US to secure its own economic and energy interests and by demonstrating the devastating impact this has had on the rest of the world especially in the Middle East Mahdi offers vital analysis for researchers and students of International Relations Diplomacy Security and Energy Studies **Leadership Landscapes** T. Cummings,J. Keen,2007-12-10 Recent leadership books have focused on how to lead where tasks are internal and relationships between companies are straightforward market or buy sell transactions Things have now changed dramatically This book looks at large scale organizations and networks and considers applied leadership theory appropriate to the 21st century *How Consumer Culture Controls Our Kids* Jennifer Hill,2015-11-02 This gripping book considers the history techniques and goals of child targeted consumer campaigns and examines children s changing perceptions of what commodities they need to be valued and value themselves In this critique of America s consumption based society author Jennifer Hill chronicles the impact of consumer culture on children from the evolution of childhood play to a child s self perception as a consumer to the consequences of this generation s repeated media exposure to violence Hill proposes that corporations eager to tap into a multibillion dollar market use the power of advertising and the media to mold children s thoughts and behaviors The book features vignettes with teenagers explaining in their own words how advertising determines their needs wants and self esteem An in depth analysis of this research reveals the influence of media on a young person s desire to conform shows how broadcasted depictions of beauty distort the identities of children and teens and uncovers corporate agendas for
